1991 Search For Farm Queen Contestants Begins

Single women, ages 16-19 by August 30, are invited to compete for the title of 1991 Garrett County Farm Queen. The winner will compete for the title of State Farm Queen at the Maryland State Fair in Timonium.

The Garrett County Farm Queen will represent local agriculture at parades, conferences and other events throughout the year. Entrants will be judged on speaking, community activities, personality and farm background.

The contest will be held August 11 at 8 p.m. at the Garrett County Fairgrounds. The public is invited to attend. All interested persons should contact Dove DeBerry at 334-9110, Kate Fratz at 746-8205, or Karen Engel at 334-3191.

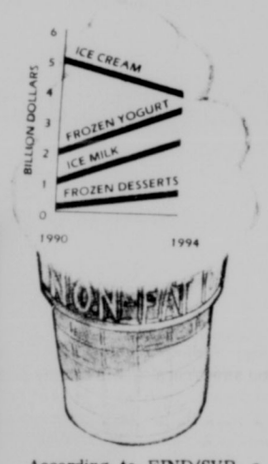
Small Grains Ahead Of Normal

By June 16, lack of precipitation had caused small grains to mature faster than normal. An average of 6.8 days was suitable for fieldwork during this past week, according to the Maryland Agricultural Statistics Service. Across the state, 50% of the topsoil was very short of moisture, 50% was short, none was adequate or surplus. Subsoil moisture ended the week as follows: 18% was very short, 68% was short, 14% was adequate, and none was surplus. All the small grains were in fair to good condition across the state. Hay suppplies were adequate. Lack of rain has deteriorated pastures from fair to very poor condition. Peaches and apples were in good condition and the fruit set was above average.

Maryland's progress for the week ending June 16 was as follows, listing this year's percentage, last year's percentage, and a percentage for the five-year average:

Crops Planted: Soybeans, 67, 64, 62; Sorghum, 94, N/A, N/A; Sweet Corn, 90, 92, 91; Snap Beans, 86, 81, 85.



Crop Stage: Winter Wheat Turning, 96, 52, 67; Rye Turning, 92, 74, 80; Oats Headed, 85, 66, 61; Oats Turning, 22, 11, 13.

Crops Harvested: Barley, 82, 18, 30; Rye, 35, 21, 17; Green Peas, 76, 63, 64; Other Hay 1st Cutting, 95, 77, 75; Alfalfa 2nd Cutting, 24, 13, 12. N/A — Not Available this week.

Weather

Maryland weather for the week ending June 14 was warm with light participation. Precipitation averaged 0.03 inch ranging from zero at 13 of the weather stations to 0.26 inch at B.W.I. Airport. Western and North Central Maryland averaged 0.03 and 0.08 inch, respectively. Southern Maryland, west of the Bay and the Eastern Shore averaged zero precipitation with only Upper Marlboro reporting 0.02 inch of precipitation. Temperatures averaged 73.3 degrees, 2.5 degrees above the normal of 70.8 degrees for the June 8 to 14 period. Minimum temperatures were mostly in the upper 40s to mid 50s with some lows reaching the high 50s. Extreme Western Maryland reached a minimum temperature in the high 30s. Maximum temperatures were in the high 80s to low 90s except in extreme Western Maryland where highs were in the mid 80s.

Nonfat Dairy Items Show Sales Growth

According to FIND/SVP, a New York marketing research firm, certain nonfat dairy products are enroute to double in sales between 1990 and 1994.

In an October 1990 report, the company forecasts a market boost for nonfat frozen desserts, from $270 million to $600 million during this time frame. Ice milk sales will climb from $1.1 billion to $2.5 billion while frozen yogurt sales will increase from $2.2 billion to $3.7 billion. Ice cream sales, however, will fall from $5.2 billion to $4 billion, the company says.

BST: Separating Fact From Fiction

A flurry of lawsuits and allegations by special interest groups is threatening to keep bovine somatotropin (BST) from receiving fair hearing in its final step towards Food and Drug Administration (FDA) approval.

Somewhere amidst all of this clamor, the facts about BST have become lost. Has it been properly tested? Is it safe? What is the real story?

Milk and meat from cows treated with BST were approved by FDA for human consumption in 1985. Last year, in an unprecedented move, the FDA allowed its human safety data to be peer-reviewed and published in the journal, "Science." This was followed by hearings by the National Institutes of Health, which concluded that milk and meat from BST-treated cattle was indeed safe for human consumption.

Animal rights activists are now on the bandwagon opposing BST. The FDA is currently receiving data on the health of animals treated with BST, before issuing approval of BST for commercial use.

Finally, there is the issue of how BST will affect the dairy industry. Unsubstantiated claims by the Foundation on Economic Trends state that BST could result in a milk production increase of 10 to 25 percent. But even the drug manufacturers now admit that overall production increases will be below one percent, because fewer dairy farmers will use BST than had been originally anticipated.

Despite the pressure from special interest groups, the FDA will base its decision solely on factual evidence concerning BST. These facts will be backed by scientifically sound research methods, and will be comprehensive in scope. A decision is expected in the spring of 1992.

Nitrate Testing Available For Field Corn

Recent developments in the corn industry have made it possible to test the soil in corn fields for nitrate levels. A cooperative effort between the West Virginia State Soil Conservation Committee and the Soil Conservation Service is making the Penn State Nitrate Quick Test a free service to field corn producers.

The nitrate testing kit is under development by Penn State University. Pennsylvania, Maryland, West Virginia, as well as other states, have had success with the test. Research has shown that split applications of nitrogen on corn save nitrogen fertilizer.

The nitrate test kit can assist corn growers with a more efficient use of their nitrogen. The corn plant begins a rapid growth stage at approximately the sixth leaf stage. Timing a top-dress nitrogen fertilizer application with this rapid growth stages saves fertilizer dollars, reduces run-off possibilities and maintains production. The test should be conducted immediately prior to the top-dressed application of nitrogen. Results of the test take a day to complete.

"I have contacted many of the farmers in Preston County but not all of the corn producers have been contacted," according to Joe Hatton NPS Environmental Specialist for the WVSSCC. If you are interested in this service please contact Joe at the SCS office, 300 Tunnelton St., Kingwood, W.Va., or phone 329-1922.

What's Really "Real" In The Dairy Case?

Looks can be deceiving, even in the supermarket dairy case. Too many products are misleading in their names and do not always meet consumers' expectations.

The number of imitation and substitute dairy products is staggering, and can be confusing to consumers who do not know how to recognize real dairy foods and do not read the ingredients labels.

These products can look remarkably similar to the real thing, but the similarity ends when comparing nutritive value, flavor, texture and cooking properties.

Real versus Imitation

An imitation dairy product, as described by the Food and Drug Administration (FDA), looks like and is intended to replace its traditional, natural counterpart, but is nutritionally inferior to it. A substitute food product resembles the traditional food and meets the FDA's definition of nutritional equivalency. Examples of imitation and substitute products include: imitation cheese, nondairy chocolate drinks, nondairy whipped toppings, sour cream substitutes and nondairy frozen desserts.

Also, imitation and substitute foods have no legal standards of identity. These standards were established by the FDA and some state governments to ensure uniformity, value and wholesomeness. Standards of identity regulate such characteristics as the moisture content of cheese, the weight per gallon of ice cream and the milkfat content of cream.

Because there is no standard of identity for imitation and substitute foods, ingredient composition may vary. And this can greatly influence the taste and texture of these products.

Consumers Want the Truth

In 1980 the Nowland Organization, Inc., an independent research firm, conducted in-depth personal interviews with 540 consumers, ages 25 and over, in 14 nationally-distributed markets. Interviews dealt with consumers' perceptions of authentic and simulated dairy products, and desired labeling for such products. The data overwhelmingly revealed that consumers want authentic and simulated dairy products clearly and simply differentiated from each other.

In response to these consumer desires, the American Dairy Association offers the "REAL" Seal, a stylized milk drop surrounding the simple word "REAL," as a reassuring symbol of pure dairy goodness. The American Dairy Association controls the rights to the trademark and oversees its use, allowing it to appear only on dairy products that conform to federal and state standards of identity.

A recent logo study conducted by Bruskin Associates showed that 68 percent of the 2,000 consumers tested are familar with the Seal. A record-high 47 percent of these consumers can identify that the Seal stands for real dairy products.

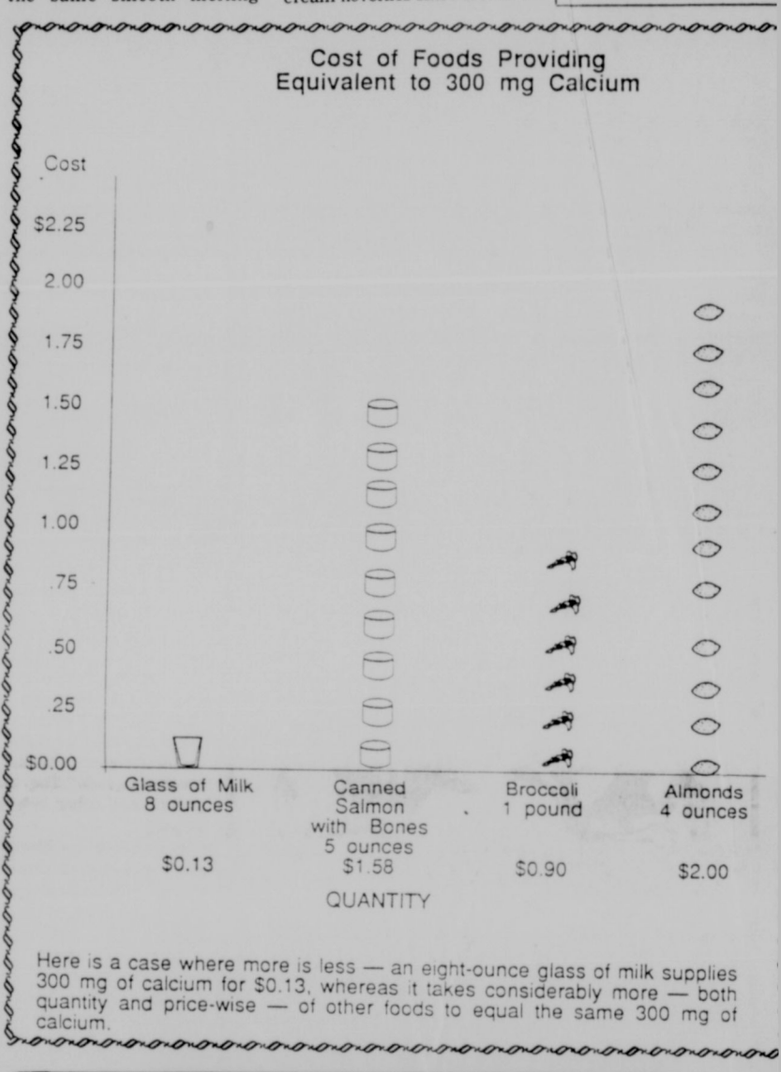
The use of the "REAL" Seal is optional and because not all dairy products display it, does not mean that the foods are imitations or substitutes. Consumers should still read the ingredients label if they have any questions about what they are buying.

Why Choose "Real?"

Real dairy foods, which do not contain vegetable oil in any amount, contribute significant amounts of several important nutrients including 76 percent of the calcium in the American food supply. As a major food group, dairy foods contribute the highest percentage of riboflavin and phosphorus to the food supply and the second highest percentage of protein. Imitation cheese, for example, might meet the FDA protein quality standards, but still may not match the protein quality or the vitamin and mineral content of real cheese.

Also, there is no substitute for the superior taste and texture of real dairy foods, both for cooking and eating purposes. An imitation cheese may not have the same smooth melting qualities as real cheese, for example, and cakes made with margarine will not have the flavor that butter provides.

New Products - Are They Real?



Last year, over 1,400 new products and line extensions were introduced by dairies nationwide. At first glance, one might question whether some of them are real. Again, the label is the key.

Some products, like frozen desserts, light sour cream and cream cheese, may boast reduced fat, calories and cholesterol. Are they real? They might be. Often skim milk has been used instead of whole milk or cream to help make these reductions. But they are still real dairy products. Some are real even though they do not meet the standards of identity. Many, of course, are imitation, so it is important that consumers read the labels, or look for the "REAL" Seal, to be assured that they are purchasing genuine dairy products.

The fastest growing ice cream novelties since 1987 are: diet bars and sticks (plus 80 ice cream sandwiches (26%); cups (plus 26%); fudge bars (plus 25%).

Dairy Month is a natural time for a real "Thank You."

The dairy farmers and their families who live and work around our community deserve a great deal of thanks. Their stability helps our community remain stable and healthy. Their insistence on offering only the highest quality milk and dairy products sets an example for us all and improves the quality of our lives. We congratulate them now, during Dairy Month, and thank them for their contributions.

Adolescent Boys Are Champion Milk Drinkers

A new study by American Family Opinion Research Corporation (NFO) for the United Dairy Industry Association (UDIA) confirms that children and adolescent boys are the champion milk drinkers.

This conclusion is no surprise, and also as expected, the study confirms some interesting trends that the dairy industry is using to inform adults of their continuing nutritional need for milk.

Madlyn Daley, vice president of Marketing and Economic Research for UDIA, said that the Share of Intake (SIP) data from NFO confirmed suspected trends and indicated some interesting twists. "Relative to other beverages, milk is viewed as healthy, a good value and versatile," said Daley. The amount of milk consumed has remained fairly constant over time and age groups.

"Although we expected to see that milk consumption declines after adolescence, it is interesting to note that among adults who do drink milk, they drank nearly as much as when they were younger," said Daley.

The interest in health and nutrition of the growing adult market provides an ideal opportunity for the dairy industry to continue to promote milk's wholesome and nutritious message. For example, many adult women consistently fail to meet the Recommended Dietary Allowances (RDA) for calcium, and dairy products are the richest food source of this nutrient in the American food supply. Calcium levels for most individuals could be brought into line with the RDA by adding a half serving of milk to the diet per day. Because the industry offers consumers several choices, milk can fit any lifestyle.

"With all the varieties of milk, like whole, low-fat, skim and lactose-reduced, milk fits into the traditional diet, the calorie-conscious diet and the lactose-intolerant diet," said Daley.

"The NFO study indicates that milk users are perceived as being health-conscious, interested in quality, energetic, family-oriented, fit and trim, strong, friendly, traditional, self-confident and independent. That reflects the image "baby boomers" already have or want to have about themselves, so we feel confident that milk is compatible with these values.

"Now that we know where milk consumption starts to decline and what that segment's priorities are, we can focus our messages on communicating the versatility of milk," said Daley. "Dairy processors recognize versatility as a tremendous asset. They are introducing an array of products — fruit-flavored milks and cordial-flavored creams, for example — that really appeal to segmented tastes."

Guest Opinions

Editor's Note: The following editorial by Gene Malone is reprinted with permission from the June 10 issue of "Farm Bureau News."

An increasing nuisance to livestock producers and researchers are the animal rights activists who often try to represent animals as if they were on a higher level than humans.

Most of us, at one time or another, have been solicited by representatives of animal rights or animal welfare organizations, as they are ambiguously known. They use inflammatory slogans in their advertisements, such as "Animals are not ours to eat, wear or exploit." They also enlist support from movie stars, rock groups and other celebrities to elicit contributions from the unwary.

Legislation has been proposed to impose stiffer penalties on those who commit acts of vandalism and criminal trespass at animal confinement operations and animal research facilities. It would also penalize those who threaten individuals who engage in vital medical testing and basic health discoveries through research on animals.

A bill (S.544) by Sen. Howell Heflin (D-Ala.), has been introduced in the Senate to provide penalties for break-ins and other crimes against animal research facilities. A broader bill (the Farm Animal and Research Facilities Protection Act) has been introduced in the House by Rep. Charlie Stenholm (D-Texas).

In the last Congress, Stenholm's legislation had broad support with 239 co-sponsors in the House. It deserves as much again. It merits passage to protect animal researchers and their laboratories and livestock producers and handlers against criminal attacks by animal rights terrorists.

Such activists believe that the use of animals should be prohibited for any purpose, that animals should roam free and that they should not be kept for pets, made to work or used for food or clothing.

Stenholm says his disagreement is not with animal rights advocates interested in established guidelines for proper animal care, but with "extremists who insist that no circumstances exist under which we can morally differentiate between the value of the life of a human and that of an animal."

People who truly respect animals, who use them to earn their livelihood, or those who simply resent being considered inferior to animals, should support the proposed Farm Animal and Research Facilities Protection Act, which would make it a federal crime to break into a research building, farm or ranch.

Poast Herbicide Labeled for Sweet Corn

Poast (sethoxydim) was recently labeled as a post-emergence spray in field and sweet corn. It will mainly control grasses. Poast can be applied directly to the lower 10 inches of the corn stalk when the stalk is 30 inches in height. Poast spray must be kept out of the whorl. You should review the label before you make a decision on using it. Only 1 pt/acre and an oil concentrate is recommended.

Crop Notes

Although the corn in general looks good the dry weather has had its toll. In several fields I found the starter fertilizer still undissolved, mainly in last plantings. Also, fields that were cloddy had very poor germination. If the dry weather continues, I would hold back on the nitrogen application as long as possible. Liquid nitrogen will not volatize as easy because it soaks into the soil.

Leafhoppers are still very bad on alfalfa. Keep an eye on the regrowth. If the alfalfa is 3" or less and you catch 20 hoppers per 100 sweeps, it is time to spray.

After posting record levels in the latter part of 1989, the M-W began a drastic decline in July last year, and continued the drop in 1991. Some strength can be expected from seasonal demands in the fall, but for all of 1991, the price will be below those of last year.

Following 14 months of inactivity, a brisk purchase of cheese has begun. This increase in CCC purchases should continue, but total purchases should remain near the 8.5 billion pounds level.

NOTICE OF SALE
TOWN OF FRIENDSVILLE
MARYLAND
$17,100
WATER SYSTEM IMPROVEMENTS BOND OF 1991

SEALED BIDS will be received at the Town Office, Friendsville, Maryland 21531, until 12:00 noon local time on June 26, 1991, for the purchase of the above Bond, to be issued as a single, fully-registered installment bond without coupons attached, dated the date of delivery, bearing interest from its date on the unpaid principal balance at the rate specified by the successful bidder, and the principal of and interest on the bond shall be payable in eighty (80) substantially equal, semi-annual installments commencing on January 2, 1992, and semiannually thereafter on the first days of July and January until the bond and the interest thereon has been paid in full.

The principal of the Bond may be prepaid in whole, together with interest accrued thereon to the date of payment, at any time, or in part on any semiannual payment date, without premium or penalty. Any such partial prepayments shall first be applied to accrued and unpaid interest and then to principal, but such prepayments shall not reduce the amount of the semi-annual payments on the Bond.

If the Town elects to prepay all or a portion of the principal of the Bond, it shall give a written notice as hereinafter described to the registered owner of the bond, by first class mail, postage prepaid, at least fifteen (15) days prior to the date fixed for prepayment to the address of such registered owner appearing on the registration books of the Town kept by the Bond Registrar at its office (the "redemption notice"); provided, however, that the failure to mail a prepayment notice to a registered owner or any defect in such notice, or in the mailing thereof, shall not affect the validity of the prepayment. The prepayment notice shall state (i) whether the bond is to be prepaid in whole or in part and, if in part, the amount thereof, and (ii) the date of the expected prepayment.

The Bond is authorized by and issued in full conformity with the provisions of Sections 31 to 37, inclusive, of Article 23A of the Annotated Code of Maryland (1987 Replacement Volume and 1990 Cumulative Supplement) (the "Enabling Act") and Sections 17-60 and 17-69 of the Charter of Town of Friendsville, being a part of the Code of Public Local Laws of Garrett County (1971 Edition as amended) and Emergency Ordinance No. 1-91 of the Town of Friendsville, enacted by the Council and approved by the Mayor on June 10, 1991.

The proceeds of the sale of the Bond will be used for the public purpose of financing a portion of the cost of acquiring, constructing, and developing a water treatment facility and other water system improvements, together with the acquisition of all necessary equipment and property rights and related architectural, engineering, planning, financial and legal expenses.

The principal of and interest on the Bond will be payable in lawful money of the United States of America at the time of payment and will be paid by check or draft mailed (by depositing such check or draft, correctly addressed and postage prepaid, in the United States mail on or before the payment date) to the registered owner at his address as it appears in the books kept for the purpose at the Town Office, if such address is within the United States of America and otherwise, principal of and interest on the Bond shall be paid at the Town office in Friendsville, Maryland.

Bids must be submitted on an official Bid Form obtained from the Clerk-Treasurer and should be enclosed in a sealed envelope addressed to the "Town of Friendsville, Friendsville, Maryland 21531.

Bidders shall state in their proposals the rate of interest to be paid thereon in multiples of one-eighth (1/8) or one-twentieth (1/20) of one percent (1%), and each proposal shall be based and submitted on the rate stated therein.

The bond will be awarded to the bidder naming the lowest total net interest cost for the bond in any legally acceptable proposal and offering to pay not less than par and accrued interest. The lowest total net interest cost will be determined with respect to each proposal by calculating the interest actually to be paid on the bond and subtracting therefrom any premium in the purchase price offered. Where the proposals of two or more bidders result in the same lowest total net interest cost, the bond may be apportioned between such bidder, but if this shall not be acceptable, the Town shall have the right to award the bond to one bidder. The right is reserved to the Town to reject any or all proposals. The judgment of the Mayor of the Town or, in his absence, the judgment of the Clerk-Treasurer of the Town shall be final and binding upon all bidders with respect to the form and adequacy of any proposal received and as to its conformity to the terms of this notice.

Bids will be opened promptly at 12:00 noon local time on June 26, 1991. The award will be made as soon as practicable thereafter to the bidder offering the best responsible bid in compliance with the terms and conditions set forth in this Notice, except that no bid will be accepted in an amount less than the principal amount of the Bond. **THE TOWN RESERVES THE RIGHT TO REJECT ANY AND ALL BIDS.**

If two or more bidders offer identical bids deemed to be the best responsible bids, the Bond may be awarded to any one such bidder. The decision of the Mayor or, in his absence, the Clerk-Treasurer, shall be final and binding on all bidders.

Upon full payment of the amount of the successful bid, the bond will be delivered as soon as practicable, upon due notice, in either Friendsville or Baltimore, Maryland. Delivery elsewhere will be at the expense of the successful bidder.

The Bond described herein is a general obligation bond of Town of Friendsville to the payment of which the full faith and credit and unlimited taxing power of the Town have been irrevocably pledged.

The issuance and sale of the Bond will be subject to legal approval by Burnett, Eiswert & Janes, P.A., Oakland, Maryland bond counsel ("Bond Counsel") and copies of their opinion will be delivered upon request, without charge, to the successful bidder of the Bond. There will also be furnished the usual closing papers, including a certificate stating that there is no litigation pending or threatened affecting the validity of the Bond.

In the opinion of the Bond Counsel, the interest on the Bond is excludable form gross income for federal income tax purposes under existing statutes, regulations, and decisions unless the Bond is acquired by the United States of America and sold on an insured basis from either the Rural Development Insurance Fund or the Agricultural Credit Insurance Fund, as provided by 7 U.S.C. 1929a(h) and the next to the last sentence of 7 U.S.C. 1926(a)(1).

In the opinion of Bond Counsel, the principal of and interest on the Bond in the hands of the owner or owners thereof from time to time shall be and remain exempt from taxation of any kind or nature whatsoever by the State of Maryland and by any county, municipal corporation, or other political subdivision thereof; no opinion is expressed as to Maryland estate or inheritance taxes, or Maryland taxes on financial institutions measured by income or any other Maryland taxes not levied or assessed directly on the Bond its transfer or the interest therefrom.

In Emergency Ordinance No. 1-91 the Town covenanted that it will comply with the provisions of the Internal Revenue Code of 1986, as amended, applicable to the Bond, including, without limitation, the provisions regarding the timing of the expenditure of the proceeds of the Bond, the use of such proceeds and the facilities financed with such proceeds, the restriction of the investment yields, the filling of information with the Internal Revenue Service, and the rebate of certain earnings resulting from the investment of the proceeds of the Bond. The Town further covenanted that it shall make such use of the proceeds of the Bond, regulate the investment of the proceeds thereof and take such other and further actions as may be required to maintain the exemption from Federal income taxation on the Bond.

The Internal Revenue Code of 1986, as amended, contains a number of additional provisions relating to the Federal Income tax effects of ownership of the Bond, including, but not limited to, minimum tax provisions. Prospective bidders may wish to consult their own tax advisers as to the tax effects, if any, of the Internal Revenue Code of 1986, as amended, in their particular circumstances.

In Emergency Ordinance No. 1-91, the Town designated the Bond a "qualified tax-exempt obligation" for purposes of Section 265(b) (3) of the Internal Revenue Code of 1986, as amended, relating to the deduction for that portion of a financial institution's interest expense which is allocable to tax-exempt interest.

Prospective bidders may obtain the Bid Form upon request made to the Clerk-Treasurer, Friendsville, Maryland, 21536. Copies of the Town's financial statements will be available for inspection by prospective bidders during regular business hours at the Town Office at any time prior to 12:00 noon local time on June 21, 1991. Attention: Mr. Albert Tang

All Bids must be made on the required Bid form. All blank spaces for Bid prices must be filled in, in ink or typewritten, and the bid form must be fully completed and executed when submitted.

The Owner reserves the right to waive any informalities or minor defects, to reject any and all Bids. Any Bid may be withdrawn prior to the above scheduled time for the opening of Bids or authorized postponement thereof. Any Bid received after the time and date specified will not be considered. No Bidder may withdraw a Bid within 90 days after the actual date of the opening thereof. Should there be reasons why the Contract cannot be awarded within the specified period, the time may be extended by mutual agreement between the Owner and the Bidder.

Bidders must satisfy themselves of the scope of work by examination of the site and a review of the Contract Document including Addenda. After Bids have been submitted, the Bidder shall not assert that there was a misunderstanding concerning the quantities of work or of the nature of the work to be done.

The Contract Documents contain the provisions required for the work included in the Project. Information obtained from an officer, agent or employee of the Owner or any other person shall not affect the risks or obligations assumed by the Contractor or relieve him from fulfilling any of the conditions of the Contract.

Bid Security

An acceptable Bid Bond, payable to the Owner, in the amount of five percent of the total bid must accompany each Bid. A certified check, in the amount of five percent of the total bid, drawn on a solvent bank chartered in the State of Maryland, and payable to the Owner, may be substituted for the Bid Bond.

The Bid Bonds of all bidders, except the bonds submitted with the three (3) lowest acceptable bids, will be returned within a fifteen (15) day period following the time of opening of the bids. The Bid Bonds accompanying the three lowest acceptable bids will be returned after the Contract has been awarded to and executed by the successful bidder. Provided the Owner, for any reason whatsoever, determines that it is not in its best interest to award a Contract, the Contract award will not be made by the Owner and the Owner will not then be liable for any payments whatsoever to the Bidder. Extension of time beyond the ninety (90) day period of the award may be made only by mutual agreement between the Owner, the Bidder and Bidder's Surety.

The party to whom the Contract is awarded will be required to execute the Agreement and obtain the required Bonds within ten (10) calendar days from the date when Notice of Award is delivered to the Bidder. The Notice of Award will be accompanied by the necessary Agreement and Bond forms. In case of failure of the Bidder to execute the Agreement, the Owner may, at his option, consider the Bidder in default, in which case the Bid Bond accompanying the proposal shall become the property of the Owner.

The Owner within fourteen (14) days of receipt of acceptable Bonds and Agreement signed by the party to whom the Contract was awarded, will sign the Agreement and return to such party an executed duplicate of the Agreement. Should the Owner not execute the Agreement within such period, the Bidder may, by Written Notice, withdraw his signed Agreement. Such notice of withdrawal shall be effective upon receipt of notice by the Owner.

A conditional or qualified Bid will not be accepted.

Award will be made by the Owner to the lowest responsive and responsible bidder.

All applicable laws, ordinances, and the rules and regulations of all authorities having jurisdiction over the work shall apply to the Contract throughout.

Nondiscrimination of Employment

BIDDERS ON THIS WORK WILL BE REQUIRED TO COMPLY WITH THE PRESIDENT'S EXECUTIVE ORDER NO. 11246. THE REQUIREMENTS FOR BIDDERS AND CONTRACTORS UNDER THIS ORDER ARE EXPLAINED IN THE SPECIFICATIONS AND IN 41 CFR 60.4.

Notice of Requirement for Certification of Nonsegregated Facilities

Bidders and offerors are cautioned as follows: By signing this bid or offer, the bidder or offeror will be deemed to have signed and agreed to the provisions of the "Certification of Nonsegregated Facilities" in this solicitation. The certification provides that the bidder or offeror does not maintain or provide for his employees facilities which are segregated on a basis of race, creed, color, or national origin, whether such facilities are segregated by directive or on a defacto basis. The certification also provides that he will not maintain such segregated facilities. Failure of a bidder or offeror to agree to the Certification of Nonsegregated Facilities will render his bid or offer non responsive to the terms of solicitations involving awards or contracts exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause.

The attention of prospective bidders is directed to the Agreement Section of the Contract, wherein the requirements for compliance with certain Federal Laws and Regulations on this project are specifically set forth. Among the requirements are those pertaining to non-discrimination in employment.

Any contract awarded under this invitation to bid is expected to be funded in part by a grant from the Department of Housing and Urban Development (HUD). Neither the United States nor any of its departments, agencies or employees is or will be a party to this invitation to bid or any resulting contract. The successful bidder will be required to comply with all applicable HUD project requirements.

Time For Completion

The successful bidder will be required to fully complete all contract work within one hundred and fifty (150) consecutive calendar days from and including the date of receipt from the Owner of a formal notice to proceed. The Contractor will not be permitted to work at the project site for the ninety (90) consecutive calendar days commencing December 15 and ending March 14.

Award of Contract

The award of any contract will be made by the Owner.

Bidders are cautioned that bids that are deemed by the Engineer to be obviously unbalanced may be rejected by the Owner.

The Owner reserves the right to reject any proposal for failure to comply with all requirements of this notice or of any of the Contract Documents; however, it may waive any minor defects or informalities at its discretion.

The Owner further reserves the right to reject all proposals, or to award a contract or contracts which in its judgement is in the best interest of the Owner. The Garrett County Sanitary District is an Equal Opportunity Employer.

Arson Ruled In Monday Blaze At Friendsville

State fire investigators have determined that arson was the cause of a fire that destroyed a single-story house at the intersection of White Rock and Cranesville roads near Friendsville Monday evening.

Fire fighters from Friendsville and Deep Creek VFDs were summoned to the Jerri Powell residence at 9:05 p.m. and, upon their arrival, found the structure fully involved in flames. According to Deputy Fire Marshal Guy Carola, Ms. Powell was not at home at the time. The fire was discovered by a passerby.

According to Carola and Robert B. Thomas Jr., deputy chief state fire marshal, threats had been made toward Ms. Powell following a dispute that had occurred a few days prior to the fire. The fire marshal's office is offering a reward for any information that may lead to the arrest or indictment of a person or persons responsible for this alleged act of arson. Those with information may call 1-800-492-7529.

Firemen remained on the scene for approximately two hours. The loss was estimated to be $15,000.

Also responding to the scene was the Northern Rescue Squad. There were no injuries reported.

"I AM HERE, DON QUIXOTE," says Aldonza as she soothes the ailing knight and begins to understand his unconditional adoration and love for her, something she has never known. The Garrett Lakes Arts Festival opens this week as the musical "Man of La Mancha" takes the stage once more on July 5,6,8,9 at the Garrett Community College. Reservations are being taken now, and persons are urged to make them as soon as possible by calling the GCC box office at 387-6666, Englander's Pharmacy at 334-9455, Deep Creek Pharmacy at 387-5300, or Beachy's Pharmacy at 895-5177. The famous Broadway musical, presented by permission of Tams-Witmark of New York, played to packed houses in April and stunned audiences with powerful acting, beautiful music, and an astounding set. Pictured above are the two leads Karyn Seilhamer and Richard Hill. The show is under the direction of Jane Avery, set design by Ben Sincell, and musical direction by George McDowell Jr., and will begin each evening at 8 p.m. "Man of La Mancha" is the first of many summer presentations of the Garrett Lakes Arts Festival.

Baseball Mishap Claims Life Of 7-Year-Old Boy

After being struck by a batted baseball Sunday evening, a 7-year-old boy was flown by Medevac helicopter to Memorial Hospital, Cumberland, and pronounced dead shortly after arrival.

Shawn B. Smith was reportedly playing baseball in a vacant neighborhood lot with other children when he was struck in the chest by a line drive. He was standing in the first base area when struck and fell to the ground almost instantly and stopped breathing.

Preliminary autopsy reports from the State Medical Examiner's Office are attributing the death to accidental cardiac arrythmia, according to police.

Tri-Towns Rescue Squad and Potomac Volunteer Fire Company responded to the 8:30 p.m. mishap.

Born in Cumberland, October 13, 1983, he was the son of Lester "Jim" Smith, Westernport, and Marsha (Welsh) Smith, with whom he resided.

Shawn was a frequent visitor to Garrett County, as his mother is soon to wed Terry King, Deer Park, local radio personality from WKHJ.

Shawn was a member of St. Peter's Catholic Church. He had just completed second grade at St. Peter's School, where he was an honor student. He played with the Pirates baseball

Heritage Weekend To Feature Music, Dance, And Storytelling

Trapezoid

A heritage weekend of three different programs representing Appalachian music, folklore, and dance will be the next offering of the Garrett Lakes Arts Festival in the Garrett Community College auditorium on July 11, 12, and 13. Scheduled to coincide with the Summerfest activities at Spruce Forest Artisan Village in Grantsville, the weekend includes a concert by Trapezoid, and evening of music and storytelling by Bill Wellington, and an old-fashioned square dance to the music of Hammers and Strings.

The instrumental and vocal ensemble Trapezoid will make a return appearance to the college stage on Thursday, July 11. This group's innovative approach, which has spanned more than 15 years of national and international touring and recording, joins the finest in folk traditions with the pulse of contemporary music, blending the richness of acoustic instrumentation with deep and sensuous voices. Trapezoid has been called "the finest folk group in this country" by the Washington Post.

As founding member Paul Reisler explains, "Our musical territory is somewhere outside the borders of pop, classical, new age, folk and world music. It is a place where all these genres speak the same language." Trapezoid has performed over 1,500 concerts in North America and Asia and has recorded six albums.

The next performance of the Heritage Weekend on Friday, July 12, will be an evening of storytelling, humor, and music by Bill Wellington, who is billed as a "virtual ambassador of folklore." Wellington's engaging narratives delight audiences of adults and children alike as he intertwines music, humor, and storytelling. He performs music of Appalachia, New England, and Ireland on the flute, banjo, fiddle, and guitar and interweaves the music with stories that illustrate the resourcefulness and humor of the American character.

Wellington, who moved to the mountains of West Virginia, in the mid 1970s to follow his interest in banjo

Garrett Community College To Become Smoke-Free Campus

Garrett Community College will become a smoke-free campus, beginning with the spring semester, 1992, in accordance with a policy adopted by the Board of Trustees at June meeting.

The decision to present the policy to the board followed months of discussions by college administrators and their constituencies. There was also a presentation to the GCC cabinet by Dr. Rex Archer, county health officer, about the dangers of passive smoke.

At the present time, smoking is permitted in designated campus areas.

According to the information presented by Dr. Archer, sidestream smoke causes 3,000 deaths in non-smokers each year. He noted that smoking pollutes breathing air throughout a building, regardless of its point of origin.

Because nicotine is a highly addictive substance, Dr. Archer recommended that a three-month grace period be given for smokers to adjust to the new policy.

College President Dr. Steve Herman added that the issue was a difficult one because it pitted two important principles: the protection of a healthy work environment, and the individual rights to choose whether or not to smoke.

It was on the recommendation of the college cabinet that Dr. Herman presented the smoke-free policy to the trustees.

The policy states in part, "The Board of Trustees recognizes that individuals should be free to make choices that do not harm the health or safety of others. The Board also recognizes that nicotine is an addictive drug and that smoking is a habit that is not easily overcome. However, the board received expert opinion stating that smoking has been determined to be injurious to the health of both smokers and non-smokers. An expert has also advised the Board that non-smokers cannot be protected from sidestream smoke except through expensive modifications or additions to buildings. On that basis, the Board of Trustees declares that the buildings of Garrett Community College shall become smoke free."

The policy also directed that sitting areas be established out of doors for smokers and that support programs be investigated and instituted, if practicable.

Bank Of Baltimore Files Judgment Against Wisp Owner

Recreational Industries, Inc., the owner of the Wisp Ski Area, announced this week that its primary lender, the Bank of Baltimore, as head of a consortium of lenders, has asked the circuit Court in Baltimore City to record a judgment against it and certain guarantors of its loan in the approximate amount of $7,000,000. Attorneys for Recreational Industries have disputed the claim and filed Motions with the Court to have the judgment set aside.

According to a recreational Industries spokesman, this action was taken during the course of "very productive negotiations" leading toward a restructuring of the company's debt, which will assure the long term health of the firm.

Recreational Industries has experienced a pattern of sustained and substantial growth in its business affairs over the last 10 years. "The company has always kept its bank loans current and enjoys very favorable debt to equity ratios," the spokesman said.

However, losses resulting from unprecedented warm weather during the 1989-90 ski season and continued losses resulting from its ownership of condominium hotel units at the Wisp Hotel left the company unable to make substantial principal payments required under its loan with the Bank of Baltimore, the spokesman said.

While it has sought to secure its position by seeking a formal judgment, the Bank of Baltimore has and continues to work closely with Recreation Industries management to restructure and reduce its debt. A complex plan intended to achieve this goal is being put into effect and has been agreed to by all of the banks in the leading consortium, according to the spokesman.

"Recreational Industries is confident that its continued growth will overcome these short term difficulties. There is no reason to believe that the company's business operations or the welfare of its employees will be adversely affected by these events. The company looks forward to continued success and to the resolution of these economic difficulties in early 1992," the spokesman concluded.

Plans Finalized For 14th Annual Summerfest And Quilt Show

The annual Summerfest will be held July 11, 12 and 13 on the Penn Alps Campus by the Casselman River just east of Grantsville. for the second year, under the auspices of the Spruce Forest Artisan Village, this celebration of the arts and crafts and the music and folklore of the area promises to be "better than ever," according to a festival spokesman. Maryland Arts Council and Garrett County Arts Council are again providing partial funding for the festival.

From 10 a.m. to 5 p.m.(Thursday, Friday and Saturday) the Artisan Village near the historic Casselman River Stone Arch Bridge, will be a "bee hive of activity," with some 70 selected artists and craftsmen, musicians and storytellers serving as hosts, demonstrators, and entertainers.

For the 12th consecutive year, the highly acclaimed summerfest Quilt Show will be held simultaneously, this year for the first time in Grantsville Elementary School. Co-sponsored by Schoolhouse Quilters Guild and the Creative Needle Quilters, this part of the festivities will feature nearly 140 quilts and quilted items on display and judged by a national organization.

A shuttle-bus will provide transportation between the Quilt Show and the Spruce Forest Village, with stops at Yoder's Country Market and the Casselman (Restaurant) en route. The fee for the bus is included in the entry fee.

The Spruce Forest Artisan Village includes five log houses and cabins and one plank structure of early vintage, flanked by rustic shel-

He is Lynn Lais, the resident potter of Penn Alps, and he will be displaying his talents at Summerfest, which will be held July 11, 12, and 13 on the Penn Alps Campus by the Casselman River. An Artisans' Village will be featured during the event where over 70 selected artists, craftsmen, musicians, and storytellers will serve as hosts, demonstrators, and entertainers. Safety Tips For Fireworks Display Issued By DNR

The Forest, Park and Wildlife Service of the Maryland Department of Natural Resources this week issued safety reminders for spectators who will be viewing the fireworks display, July 4, at the Wisp in McHenry. The display is sponsored by the Deep Creek Lions Club, the Deep Creek Lake Property Owners Association and the Deep Creek Lake Businessmen's Association.

Those who choose to view the fireworks by boat are asked to exercise caution, not only in the area of the display, but also in traveling to and from the event after dark.

Park rangers from the lake management office and DNR police officials will be on hand to assist boaters.

Boaters are also reminded to check navigational lights to avoid overloading the boat, and to be sure that an appropriate personal floatation device is available for each passenger.

Copies of the Deep Creek Lake Natural Resources Management Boating Map are available at the Information Booth, local marinas or at one of the local realty offices.

The fireworks display will be held Friday, July 5, in the event of rain.

Salisbury, Pa., Man Arrested Following High Speed Chase

A high speed chase Saturday evening from Pennsylvania to Maryland resulted in the arrest of a Salisbury, Pa. man, according to reports filed by the Maryland State Police.

Police said Brian K. Butler, 22, operating a 1982 Oldsmobile, was chased into Garrett County by a Salisbury Borough police officer at about 8:30 p.m. Officer Kevin Gardner had stopped Butler in Salisbury, but Butler fled the scene and the chase ensued.

Maryland State Police joined the apprehension effort on U.S. Route 40 near Grantsville where Butler fled the scene on foot. The Pa. police cruiser struck a guardrail and Butler reportedly jumped from a bridge and broke his arm.

Butler was taken to Garrett County Memorial Hospital by the Northern Rescue Squad where he was treated and released.

Among the charges filed against Butler were driving while under the influence of alcohol and/or drugs and assault with a motor vehicle.

Tfc. James Hare was the investigating officer for the Maryland State Police.

and fiddle music, has performed in many schools and on concert stages in the Appalachian area. Of his work, he says, "I believe folklore is something parents and children can share on equal ground. Each family has its share of legends and anecdotes that can be called their own folklore. By drawing on these sources and including folklore from the wide world over, I seek to celebrate through song and story the wonderful way traditions have enlivened people for centuries."

GLAF's Heritage Weekend will culminate Saturday, July 13, with an old-fashioned square dance in the college gymnasium to the music of Hammers and Strings, with Bill Wellington as the caller.

Hammers and Strings is a local group comprised of 10 members, under the direction of Betty Mattingly. They have been playing together for about four years and have appeared at a number of festivals, concerts, and special occasions in this area. Their instruments include hammer and lap dulcimers, banjo, auto-harp, guitar, mandolin, stand-up bass, harmonica, washboard, limberjacks, and flute. The audience will be invited to participate in the square dance and are advised to wear soft shoes or socks.

All of these performances will begin at 8 p.m. Tickets for the Heritage Weekend events will be sold at Englander's Pharmacy, Deep Creek Pharmacy, Beachy's Pharmacy, and the GLAF box office at the College. For those not purchasing advance tickets, reservations are encouraged, and may be made by calling the GLAF box office at 387-6666. Tickets must then be picked up at the box office by 7:30 p.m. the evening of the performance.

Admission is $6 for adults, and $2 for children 12 and under.

Garrett Lakes Arts Festival events are funded in part by the Garrett County Arts Council and the Maryland State Arts Council.

Drug Charges Against Annapolis Man Placed On Stet Docket

Drug charges against an Annapolis man were placed on the stet docket by Judge Jack R. Turney in Garrett County District Court proceedings last week.

Andrew F. Jones, 31, had been charged with possession of marijuana and possession of drug paraphernalia.

The judge placed the case on the stet docket with a consent agreement that Jones turn over his 1986 Harley Davidson to the Garrett County Sheriff's Department. He must also obey all laws.

Jones had been stopped and charged on September 12, 1990, after police found marijuana and drug paraphernalia in his vehicle.

In other court news, a Jeanette, Pa., man was found guilty of possession of marijuana, as well as several traffic counts against him.

Robert A. Strickler, 33, was fined $100 on the drug count. A charge of possession of drug paraphernalia against him was not prosecuted because of a plea agreement with the State's Attorney.

Strickler had been charged by the Maryland State Police on April 8 when during a truck inspection found marijuana and a blue glass pipe used for smoking marijuana.

A Keyser, W.Va., man was sentenced last week after being found guilty of burglary with intent to steal in District Court.

Guy W. Fazenbaker Jr., 23, Severna Park (last known address), pleaded not guilty and was found not guilty of theft over $300.

He had been charged by Terri Jo Fazenbaker, Oakland, on August 6, 1990, with stealing $1000 worth of her clothing and personal effects.

Car Wash To Benefit Habitat Slated July 13

A group of volunteers, Garrett Countians for Garrett Countians, is planning a car wash for Saturday, July 13, from 10 a.m. until 2 p.m.

The car wash will be held at Lakeland Estates (Chubby's, Inc.), compliments of Ray Romano, Manufacturers' Outlet.

Volunteers who have donated their time for the car wash include: Garrett County Commissioners Brenda J. Butscher; Don Sincell, editor, *The Republican*; Mtn. Lake Park Mayor Dave Turney; Constance Margison, president of the League of Women Voters and co-chair and organizer of the car wash; Jan Finkel, Deep Creek Lake Property Owner's Association; Steve Williams, radio personality from WXIE/WMSG; Dr. Rex Archer, Garrett County Health Officer; John Millican, future homeowner and co-chair and organizer of the car wash; Janet Friend, homeowner; Pastor Rick Rutkauskas, St. John's Lutheran Church, Red House; Joanne Ashby, A&A Realty; Dr. Stephen Herman, Garrett Community College president; and Bobby Anderson, treasurer and conservation chair of the Civic Club of Oakland.

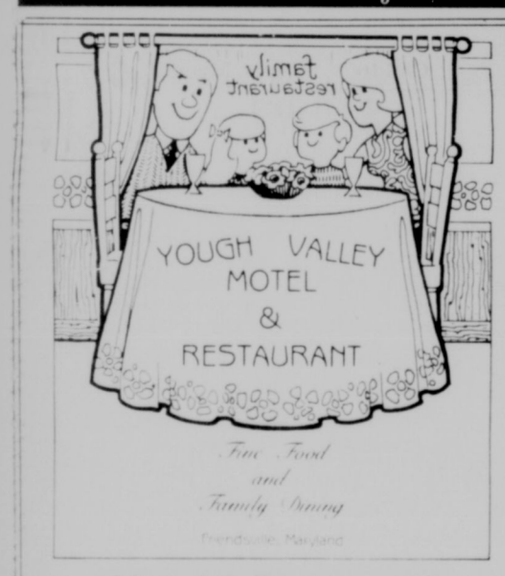
Special Exhibits Slated During GLAF Events

Persons who attend the performances of the Garrett Lakes Arts Festival's "Man of La Mancha" this weekend and Monday and Tuesday of next week will be treated to more than the magic of the production.

Special craft exhibits by local artisans will be displayed as follows in the lobby of Garrett Community College on the evenings of the performances: Saturday, July 6 - Fables of McHenry; Monday, July 8 - Audrey Harvey Ceramics of Deer Park; Tuesday, July 9 - Diana's Gift Basket of Gorman.

During the month of July, an exhibit of watercolor paintings by Pittsburgh artist Robert Yonke will be featured in the Bausch and Lomb Art Gallery of the college. Gallery hours are 9 a.m. to 5 p.m., Monday through Friday, and during special events.

The Garrett Lakes Arts Festival is funded, in part, by the Garrett County Arts Council and the Maryland State Arts Council.



The Wicked shall be turned into Hell,
And all nations that forget God.
Psalms 9:17

Is America forgetting God?
Let us turn back to God before it is to late.

Two Local Men Appointed To Garrett's Board Of Trustees

Alan Tuomisto

Douglas Sites

The office of Governor William Donald Schaefer announced recently the appointment of two local men to the Garrett Community College Board of Trustees.

Alan Tuomisto, Oakland, was appointed to a six-year term. He is vice president for operations at Mettiki Coal Corporation.

He earned his bachelor's degree in geology from Michigan Technological University. Tuomisto relocated to Garrett County over two years ago after working with coal and copper mines in Kentucky and New Mexico.

He and his wife, Carol, are the parents of three children, Anna, 19; Joe, 14; and Sam, 12.

The other appointee, Douglas Sites, is a GCC alumnus, class of 1975. While a student at the college, Sites was a member of the student government and served as student representative on a board presidential search committee.

Following graduation from GCC, Sites enrolled at Frostburg State University, where he earned a bachelor's degree in business administration with a minor in psychology. He has also taken courses in Forest Management at the University of Mississippi.

Sites has worked with the Powlen Equipment Company, Hagerstown, since 1978. Powlen is a supplier of construction, mining, and forestry equipment, with their primary markets located in Maryland, West Virginia, Pennsylvania, and Delaware.

Sites resides in McHenry with his wife, Donna, a realtor in the area, who is also a GCC graduate and presently serves as a director on the board of the GCC Foundation.

Sheriff's Office Notes Arrests

The Garrett County Sheriff's Office logged several arrests this week on charges including driving while intoxicated (DWI), concealing a deadly weapon, and vehicle theft.

Kimberly S. Sullivan, 29, Mtn. Lake Park, was arrested for DWI on Friday at 1:40 a.m. The defendant was apparently driving erratically on Pensinger Boulevard when she was spotted by Dep. J. Murphy, who then made the arrest. She was allowed to sign the citation and the officer took her home, according to the police report.

Charles D. Fultz, 30, Terra Alta, W.Va., was cited for DWI on Saturday on Rt. 135 in Deer Park. Murphy made the arrest at 7 p.m. when he stopped Fultz for a traffic violation. The defendant was incarcerated after being charged.

Jared G. Paugh, 52, Elk Garden, W.Va., was charged with DWI after Murphy stopped him for driving erratically. The arrest took place Saturday on Sand Flat Road at approximately 11:30 p.m. He was reportedly incarcerated after the arrest.

Scott C. Frazier, 24, McKees Rocks, Pa., was arrested for DWI after he apparently drove his vehicle into a ditch on Rt. 219 North near Johnny's Baithouse. When Dep. D. Crossland responded to the accident, he detected the odor of alcohol on the defendant, tested him for intoxication, and charged him with the violation.

Earl L. Dawson, 23, Elk Garden, W.Va., was charged with DWI on Monday at 12:45 a.m. Murphy stopped him after observing him drive into the back parking lot of Dennett Road School. He then charged Dawson with DWI.

Billy J. Spiker, 18, Westernport, was charged on June 26 for concealing a deadly weapon. The defendant was stopped for speeding by Murphy on Swanton Hill Road and began acting suspiciously, according to the report, which prompted Murphy to search the vehicle. The officer then found "metal knuckles" under the car seat and cited Spiker.

David A. Leary, 25, Elkins, W.Va., was arrested on the strength of a warrant on two charges of vehicle theft. He reportedly stole a 1978 Chevrolet Cavalier from TK Automobile Company in West Virginia, and then took a 1989 Chevy Truck from Team One, Oakland. The incident occurred in early May, and the defendant was awaiting extradition from West Virginia before the warrant was served on June 26.

Charles P. Hacek, Mtn. Lake Park, was arrested on the strength of a warrant last week. The defendant was charged with four counts of hiding a child in violation of court ordered custody, according to the report.

Jean M. Broadwater, 28, Grantsville, was served a bench warrant for failure to appear in Garrett County District Court on April 30. Broadwater was scheduled to face bad check charges, according to the police log.

Theft, DOP

James E. Park, Oakland, reported an incident of theft to the Sheriff's Office recently. Park told police that sometime during the night of June 27, an unknown person removed two rings and center hubs from his pick-up truck, which was parked outside his home on Bethlehem Road.

Park said that he routinely parks his truck there, and in December of 1990 two other rings and hubs were removed from his truck. The loss in the theft incident has been estimated at $140.

In a separate case, David E. Riley, Deer Park, reported on White Church Road near the victim's home. Damage done to the vehicle has been estimated at $150, according to the report.

to the Sheriff's Office that someone damaged his vehicle by scratching the side and bending rear levers.

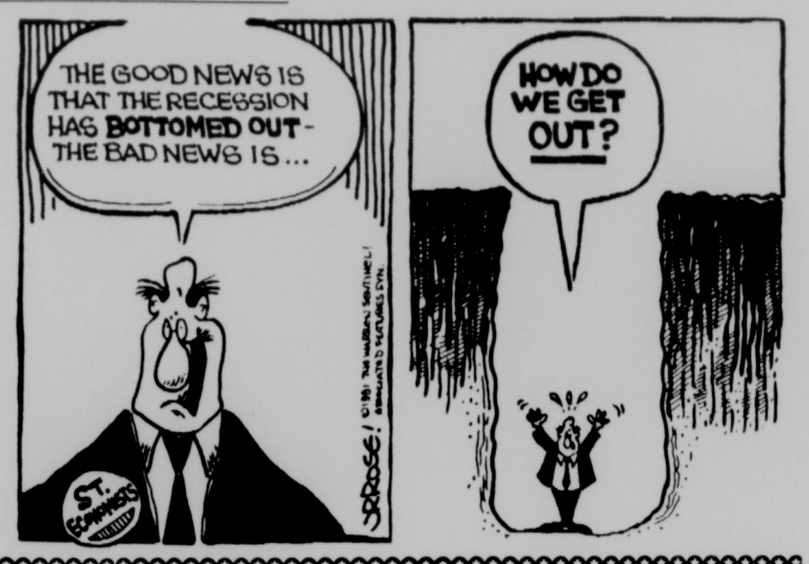
July 4 Guarantees...



This July 4th will be an extra special one, much like others that have immediately followed successful campaigns against aggression by those who have no respect nor use for individual liberties and human rights. Big doings are planned for tomorrow (July 4) in Oakland, Accident, and Terra Alta, many of which are designed to honor our local Desert Storm troops, as well as all veterans who have served this country while at peace and at war. We hope there will be a large turnout at these celebrations so our armed services personnel receive the recognition so richly deserved.

There are some more subtle ways, however, that the significance of the July 4 holiday is being observed and utilized right now by local residents. One of them is quite evident on this page of this newspaper, which contains numerous letters to the editor. The slashing of financial support for both our local libraries and the Board of Education's Gifted and Talented program have raised considerable ire among our citizens and, because of one of our most precious freedoms that was guaranteed us on that first July 4 holiday, they are speaking out and making their opinions known. They can do this without fear of being arrested or facing some form of retribution by any government agency, such as a communist KGB organization or Nazi SS personnel.

Another of those July 4 guarantees is the freedom to assemble, which is also being utilized more and more by local citizens for the same purpose already described. We encourage others to come to the meetings of the Board of Education and the county commissioners to again voice their opinions on the issues. Without such a response, the decision-makers can only assume that their selected course of action is acceptable to the general public.

Like so many other things in life, our freedoms are sorely taken for granted. This is one reason, we believe, that immigrants who come to America from nations where such freedoms do not exist (i.e. Vietnam) become some of our most productive, successful citizens. They know what it is like to be held captive by a government that does not recognize nor allow such individual freedoms. It would be worthwhile for all of us to experience a taste of such deprivation.

We are pleased that so many people have taken the time and have the courage to speak out on these local issues, and we hope that, because of their actions, those in control will take steps to change the status of the above programs.

Letters to the Editor

To the Editor:

I am writing to urge all concerned parents to oppose the proposed elimination of the Gifted/Talented program in Garrett County. Please contact members of the Board of Education and ask them to reconsider this proposal.

Our daughter has been in the program at Dennett Road for the past two years, and has benefited greatly from Mrs. Rodeheaver's classes. She has learned how to gather information on her own from resource material, how to think abstractly, analyze what she is reading, and express her thoughts verbally and on paper. She learns quickly and needs the added challenge and stimulation of the G/T program. If deprived of this, she, and other students like her, could become bored and grow to dislike school.

I realize that the budget needs to be trimmed, although I strongly disagree with the commissioners' cuts in education. There are few things that are more important than the education of our children. I am aware of the argument that this program benefits a minority. This is unfortunate, as I believe that more children should be offered this opportunity. The skills that they learn will be of use to them for the rest of their lives. Learning facts is important, but so is learning how to think and express those thoughts, and the regular classroom is too large and fragmented to accomplish this well.

In today's extremely competitive world, a strong education is imperative. Maryland is a leading state in education with others watching for the outcome of the CRT testing. The G/T program is geared toward this. It is an established, successful program that Garrett County has been proud of. To eliminate this program would set Garrett County students further behind the rest of the state. We are already struggling to compete with the wealthier school districts. Once a program is discontinued, it is next to impossible to reinstate it at a later date. It is much more realistic to keep a program going.

Sincerely,
Karen E. Carpenter

Editor's Note: The writer of the following letter to the Garrett County Board of Education and the county commissioners requested that it appear in this column.

To Garrett County School Board Members, Dr. Jerome Ryscavage, Superintendent of Schools, and the Garrett County Commissioners:

I feel compelled to speak out against your current proposal to delete the Gifted and Talented program from the county's school budget. While it is true that the program serves a limited number of children per elementary school, it is also a fact that a limited number of children are served at the opposite end of the instructional spectrum by what is called "Special Education." Should we not consider the Gifted and Talented program to be an extension of special education services?

It distresses me to realize that I live in a county whose government considers a quality education for its youth to be a frivolous expenditure rather than a necessary investment for the future of our county, state, and nation. In the wake of so many budget cuts this past year, and having witnessed our schools operating on a shoestring with available teachers, instructional equipment, materials, and supplies, how then can the school board agree to continue whittling away at something that now barely exists?

On February 28, 1991, at Northern Middle School, Dr. Ryscavage publicly presented his originally proposed 1991-92 school budget to a large, vocal, and frustrated audience. One of our county commissioners, Brenda Butscher, was present and heard numerous complaints from irate parents regarding the lack of instructors and a general dearth of instructinal materials (reading texts, workbooks, etc.) and supplies (such as paper, chalk, etc.) during the 1990-91 school year. It was clear that concerned parents wanted more for their children. I am dismayed to believe that Mrs. Butscher and Mr. Groves refuse to listen to the voice of the future of our county: caring parents representing our children.

At the January '91 school board meeting, Dr. Ryscavage encouraged teachers to "be creative" in accomplishing their tasks. I feel his recent proposal to cut the Gifted and Talented program, as well as to further decrease allotments for instructional materials and supplies, shows an unbelievable lack of concern for our children's basic educational needs. We should be striving not only to maintain, but also enhance what we have and not to further thwart the efforts of our public educators, who are ultimately responsible for the future health of America's culture and economy.

Perhaps the term "Gifted and Talented" is somewhat of a misnomer, as the skills taught through that program should be developed in all students, versus a select few. However, we do have a good foundation in an excellent program that could be expanded to include others. The skills stressed in these classes, such as creative thinking and writing, critical thinking, independent research, and reading of literary classics are what education should be all about, not merely the rote memorization and recitation of textbook facts. Instead of cutting this program, why not "be creative" and strive to reach more children through increased collaboration between the G/T resource teacher and individual classroom teachers?

I implore you to think again before you decide to extinguish a well-respected, vital educational program which, once removed from the curriculum by our own school board, will have a hard time being justified as a necessary budget inclusion for years to come. Thank you.

Sincerely,
Barbara A. Schick
Oakland

To the Editor:

As director of the library at Garrett Community College. I appreciate the difficulties of trying to manage a budget in these difficult times. I also know and appreciate the fact that our county commissioners, school administrators, and school board members are doing their best to assure quality education in light of these difficult times. I do not question the fact that cuts will have to be made. I do, however, feel it necessary to speak in favor of not cutting current programs already in place, including the program for the gifted and talented students.

Prior to my position at GCC, I was an elementary classroom teacher for 17 years. During that time, I came to appreciate and value the accomplishments of the educational programs for gifted and talented children. Gifted and talented children have special needs and special problems. More importantly, they have special, sometimes immense, talent to give to our society. Gifted and talented children are a tremendous natural resource that should not be ignored. These children need to be stimulated and encouraged to realize their full potential. It is these students who will become tomorrow's political leaders, medical researchers, artist, writers, innovative engineers, and business entrepreneurs. We owe it to them to help cultivate their abilities; we owe it to society to help prepare tomorrow's leaders and professionals.

It is often commented that gifted and talented children will, "make it on their own." It is not necessarily true that this talent can be left to fend for itself. It needs to be identified and cultivated. Research bears this out. A study in New York determined that a full 19% of high school dropouts in New York would be classed as "gifted."

Gifted dropouts are almost always underachievers: talented students who are unguided, uncounseled, and unchallenged. A Nation at Risk report by the National Commission on Excellence in Education reported that "... over half the population of gifted students do not match their ability with comparable achievement in school." Gifted children left unchallenged often become trouble makers in the classroom because they are not provided the proper channel for their creative talents. A young creative writer rarely has a writing class to challenge or focus his/her skill; nor is a mathematics whiz regularly provided with math enrichment in a regular classroom setting.

Having been a regular classroom teacher, I recognize that these students must be provided with enrichment only a trained professional can provide. A regular classroom teacher is already stretched too thin trying to meet the needs of all her students and does not have time to properly stimulate and challenge the gifted child. Here is where the critical difference lies. A properly run Gifted and Talented Program provides the student with the enrichment he needs to excel and to reach his maximum potential. It requires a teacher who has been trained in this process to cultivate the full potential of these exceptional children. It is enrichment activities prepared for these students that provide learning experiences which develop higher processes of thinking and creativity in a subject area. We have at our fingertips qualified personnel who are trained to take our best and our brightest and allow them to excel. Let's not eliminate the programs they have worked so hard to build.

It is a well known fact that the United States educational system is lagging behind the rest of the world. We cannot continue to be a great nation if we allow our youth to travel down a road of mediocrity. It is our responsibility to help these children realize their contribution to self and society. We must keep our priorities straight and allow academic programs to foster.

If the Federal and State governments are not going to sufficiently fund public education, then we must make it our responsibility at the local level to make the most responsible decisions on how best to spend our money. I hope that all concerned members of our community will attend the July 9th school board meeting or write letters to our county commissioners, school board members, and administrators to fight for the preservation of our academic programs.

Sincerely,
Dana Shimrock
Grantsville

To the Editor:

As of July 1, 1991, the Ruth Enlow Library system of Garrett County will be closed on Mondays; not just for the summer, but quite possibly forever. This action strongly suggests that the county finds ignorance preferable to taxation.

This situation is clearly not the fault of Ms. Brock, the library board, or library staff; they have struggled quite admirably for years with what is, by civilized standards, already a narrow budget. The blame for this closure must be shouldered by our county commissioners and, by inference, we the citizens of Garrett County.

Garrett County likes to think of itself as unique among counties — a place of general well-being and natural beauty — but on matters of taxation, the county's politicians and citizens have proven themselves to be as obstinately unrealistic and petty as the rest of the nation. The community's general well-being, and even its natural beauty, are dependent upon the community's tax base, and this relationship is hardly new to the nation's social system. At the bottom line, the sustained health of a community service such as the Ruth Enlow Library network is the established responsibility of the community's citizens.

Denial or limitation of services as a means of avoiding new taxes is a currently popular government trend. This trendy solution is not rooted in sage government practice, but is rather the result of several recent phenomena — Two political parties which have largely agreed to grow into a monolithic One, a drowsy and uninformed citizenry easily seduced by superficial likes and dislikes, and politicians who relish the stardom of popular entertainers and TV preachers.

With our library system's Monday closings, these national trends have come home to roost. A Republican county, Garrett's political imagination seems to have been crippled by a decade of Republican Party mythmaking about the wickedness of Big Government. Conventional Republican wisdom would define "county library system" as the right of the individual to buy their own books with their own money for their own private use. And as for Democratic Party wisdom, that long ago became a casualty of the Party's inability to define itself. On a strictly local level, last year's county commissioner's race was a vulgar popularity contest which had more in common with a Madonna concert than a responsible political forum.

Today Americans are able to choose between two very different brands of democracy — one is a Democracy of Ignorance, whereby citizens agree to forfeit their future to the intrigues of politicians and in return are comforted by being told exactly what they wish to hear; the other is a Democracy by the People, which needs no explanation, but does require ongoing sacrifice. The people of Garrett County should prove themselves truly unique by choosing their brand of democracy more wisely the next time around.

Sincerely,
Donald Cook
Oakland

Editor's Note: The writer of the following letter to Dr. Jerome Ryscavage, Superintendent of Garrett County schools, requested that it appear in this column.

Dear Sir:

In many things, experience is the best teacher. As a parent, I have experienced two students in the G/T program in the Garrett County schools. I have also experienced a student not in the G/T program.

As I am sure you are aware, the normal classroom is geared toward the "average" student. The majority of students fall within that range. However, there are two ends to the scale. I, for one, want to see my tax dollars used for all three, and hopefully the varying degrees in between will also benefit. Society needs all levels — is all levels. (Ex.: The teacher and doctor won't do much good if they can't get to their jobs because their cars won't start or the roads aren't passable.)

The G/T program helps develop critical thinking skills. These skills must be nurtured early and if not used, then are lost.

Not all students are the same in their abilities, interests and desires. Let's not try to force all students into the same mold. They all have something to give. Let us give them a chance to find what it is.

Children realize they differ and easily accept this. Why, as parents and educators, can't we acknowledge this and build constructively on it? Do we want a nation of look-alikes, act-alikes, think-alikes? Students will find out very quickly in the work force that people are not all alike in their abilities, talents, morals, ethics, and ambitions. Let's not create a false impression for them during the years they are in school.

Creativity can be challenging in a classroom. Sometimes a student is a problem in the classroom because he is not challenged. Programs should exist to meet the needs of students with greater potential — let's not pretend these children don't exist — they do. If a child is not constructively challenged, it is a real possibility the child will find a challenge that is destructive, not only to himself but to society.

Helping students find where their talents lie and giving them an opportunity to develop these talents should be a goal of the educational system.

If programs such as the G/T program were the norm and an on-going part of the educational program, they would eventually be viewed as routine. When students and parents must beg, plead, and fight to get and keep worthwhile programs, the programs become "special" or "different." The fear that elitists will result as a consequence of such programs is only nurtured by the fact that programs are not routinely allowed to exist. Make available to these students what is needed and it won't be the exception. It will be part of their educational experience, as it should be.

Perhaps we need to admit there are more than two levels of students. The non-educable and the educable have been acknowledged. Perhaps if we create a new label, it will then be okay to use some of our tax dollars for these students' needs. Let's call them more educable. This doesn't mean they are any more loved or precious to their parents. It doesn't mean they'll be easier to live with or handle in the classroom. It DOES mean they have untapped potential and that can be a valuable resource to us as a nation and to the world at large.

When national test scores are reported, which segment of students tested put those scores where they are?

Let's not eliminate the potential these students have or the G/T program. Let's not waste these young minds.

Children want to learn. Education is a vital part of a child's life. The quality of the instructor and the program being taught are no less important.

Yes, I want to see my tax dollars used for quality programs and quality staff.

I am sending copies of this letter to the Board of Education, the local newspaper, and the county commissioners.

I thank you for your time and attention to this matter.

Sincerely yours,
Judy Umstot

To the Editor:

The failure to appropriate adequate funds for the Ruth Enlow Library in the fiscal year beginning July 1 reflects the difficult situation faced by many county government agencies.

I can assure you that requests by the library for the local share of operating expenses are the minimum necessary to support a county-wide library system. In each of the last four fiscal years, significant cuts were made in the amounts requested. This year, the cut was about 25 percent.

The Ruth Enlow Library in Oakland and all branch libraries are scheduled to be closed on Mondays until July 1992. The Finzel Branch Library is to be closed permanently in August. Bookmobile services will probably be curtailed. Purchases of books and periodicals are to be greatly reduced. Salary increases for the library staff, most of whom are appallingly underpaid for the skills, experience, and dedication they bring to their work, cannot be funded.

It is interesting to note that Caroline County, on the Eastern Shore of Maryland, a rural county with little industry and few tourist attractions, a comparable population, and a similar unemployment rate, has been able to fund a library budget more than twice that of ours from a considerably smaller tax base. The numbers are much the same for other rural Maryland counties.

The problem to be solved is not whether the tax rate goes up or down, or remains the same; it is the allocation of available resources to meet the needs of the people of Garrett County. The solution is not found by freezing the tax rate and then arbitrarily slashing expenditures with little apparent regard for providing basic governmental services.

Sincerely,
Jack M. Caruthers
President, Friends of the Ruth Enlow Library

To the Editor:

Since April 1, 1991, a group of volunteers known as Friends of New Germany have operated New Germany, Big Run and Casselman State Parks. This group chose this course of action as an alternative to closing these three parks until July 1, 1991. The group was composed of local citizens, boy and girl scout troops, college students, YMCA lifeguards and a supervisor and youth from Meadow Mountain Camp (DJS). Members of the group ranged from age 8 through 65 years. In addition to donating their time and labor, the group also had to raise funds to cover expenses for the daily operation of three state parks.

The tasks the friends performed were varied. Cabins were cleaned, plumbing was repaired, buildings and toilets were cleaned, grass was cut, general maintenance performed on all grounds and buildings, the office was staffed, registrations and reservations were taken care of and a volunteer YMCA lifeguard saved the life of a swimmer in distress. Volunteers were not compensated in any way for any work they did. All funds collected for cabin rentals, camping, day-use and pavilions were accounted for and deposited

- No waterskiing between sunset and sunrise.

- Waterskiing is not permitted within 50 feet of docks, shore, boats or other people.
- Personal Watercraft and Hovercraft may not be operated on the lake between 11 a.m. and 4 p.m., on Saturdays, Sundays, and holidays between the Memorial Day weekend and Labor Day.
- On Deep Creek Lake, a person may not operate a vessel towing a skier, an aquaplane, or similar device within 100 feet of any bridge on Saturdays, Sundays or holidays, from 11 a.m. to 4 p.m., between the Memorial Day weekend and Labor Day.

The Mind Wanders

The Edge of the Woods
by Sherry Frantz

Those places in the natural world where the forest merges with the clearings serve to create in me a sense of calm satisfaction, and remind me of a world still full of possibilities.

Held within those spaces are the contrasted samplings of light and dark, and the multitude of shades in between, revealing a representation of the whole.

These places serve my eclectic nature well, providing easy access to moods that change at a moment's notice -- from a girl who seeks protection to the woman who needs full, unabashed exposure to the sun and wind and rain.

These borders afford me the freedom to go either way, or no way at all.

Here, I am lifted from the mundane irritations of life -- a life in which the scattered pieces of the world seem, sometimes, to be aimed right at my corner.

It is not here that I hide, however, (leaving that for the reclusive forest spaces), nor here that I present myself with esteem (leaving that for the full, open spaces).

These are areas where two worlds must contend with each other and share common ground. These are the meeting spaces that provide the balances and compromises necessary in a land of diversity.

The profound visual impact of these places send signals of serenity, with a grace that saves me. For it is here that I can muster hope for a world that, otherwise, makes pathetically little sense to me.

Through the Junior Ranger program, children will learn about nature and the outdoors, including the exploration of trees, wildlife, plants, insects, the forest, outdoor living and many other "exciting and fun topics," according to state forest naturalist Liz Willson, who will be coordinating the program. "They will also have fun with arts and crafts, nature games and hands-on experiences," she added.

The program will be held for eight consecutive weeks, beginning Thursday, July 11, from 2-3:30 p.m., with the first session to be held at the Ruth Enlow Library in Oakland. The location and time of the remaining seven sessions will be announced at a later date.

BRADLEY MANOR REOPENS

This headline could be reality, unless the taxpayers of Garrett County unite to protest the possible renovation of this housing project.

"(There is) community discontentment with the project, which has a series of fire code and building violations against it. The time has come to say 'no.' I am willing to shut the door and lock it." -- then -- Oakland Mayor H.D. "Hub" Swartzentruber, Baltimore Sun, Sept 14, 1982

Everyone agrees, the only thing that will save Bradley Manor is money -- lots of it. -- Cumberland Times-News, "Bradley Manor -- No Place To Live"

"They kept promising to do this and that, but they never did anything. They put down new drain tile but the stinking water still stayed under the houses. They never took care of it since they built it. It was just a big tax write-off. If they don't fix these places up, this winter will finish them altogether." -- former Bradley Manor tenant Charles Tranum, Aug. 9, 1981

"I remember that we had so many calls to Bradley Manor that we thought we just might have to keep one of our police cruisers there at the project." -- Garrett County Sheriff M. Van Evans

"Mr. Sarubin, a politically well-connected developer, has built other subsidized-housing complexes. He has claimed tax losses ranging from $50,000 to $100,000 a year on Bradley Manor."

When confronted with the possible foreclosure of Bradley Manor, Mr. Sarubin stated, "Take my word for it, they'll be in court for 20 years." -- Baltimore Sun, July 22, 1982

Summerfest

ters among the spruce trees and along the river. Two of the log houses were originally constructed in the Revoluntionary War era, one on a land grant from the King of England. Most recently completed was the 1990 restoration of the Compton School, the only log school house within a wide radius.

Crafts of pioneer ancestors will form the core of the summerfest demonstrations, including basket-making, blacksmithing, chair-caning, coopering, handle-making, pottery on the wheel, pewtering, tinsmithing, stained glass work, wood burning, wood-carving, and wood turning.

Feminine Arts to be featured include embroidery, knitting and tatting, as well as rug braiding. Wool processing (carding, spinning, dyeing, with native and garden plants) as well as a variety of weaving techniques, will be demonstrated at several locations on campus.

Artists will be sketching, painting, and drawing on paper, canvas, metal, slate and wood. They will be working with oils, pencils and water colors. Folk art and tole painting will be featured. Nature crafts will include corn husk creations and dried flower arrangements.

Musical Entertainment will again be provided by three musical groups. The Detweiler Ensemble from Altoona, Pa., (in Bavarian costume) will feature the Alpine horn, the flugel horn, the trombone and the tuba; while Worley Gardners team and the Gotzmers will provide music on the ancient Appalachian instrument, the dulcimer. A storyteller is again scheduled at intervals during the day to provide tales of early pioneer life in the mountains of Western Maryland and Pennsylvania.

Both pioneer and contemporary foods will be available on the grounds. The products of the bee keeper and the maple sugar producer will be available down by the river, and a concession stand on the upper grounds will provide relaxed service for convenience of guests. Across the parking lot, Penn Alps Restaurant will offer a menu as well as a brunch-buffet daily (Thursday, Friday and Saturday).

Garrett Legion Team Wins Two Of Three Games

The Garrett County Junior American Legion baseball team fell to Mountain District leader Farrady Post 24, Frostburg, 13-3, last Thursday evening at Frostburg State University, but then came back for a pair of wins, including a 5-4 victory over host Fort Cumberland Post 13 on Saturday and an 8-6 decision over winless Victory Post, Westernport, on Tuesday. The local team is currently 7-2 and in second place, while Farrady Post is on top with a 9-1 mark.

Garrett pitchers were tagged with 18 hits by Farrady last Thursday, as Jason Cutter led the way with four singles, while Rick Burley allowed only six hits and struck out 10 in going the distance.

Rick Duckworth added a solo homer, a double, and a single, John Cutter hit a triple and a single, and Burley and Scott DeHaven contributed a double and a single each. Dave Kennell led the Farrady defense with three diving catches in right field.

Garth Glotfelty recorded a triple and a single and Charlie Plaugher hit two singles for Garrett County.

It was a two-run double by Kevin Green in the top of the ninth inning that gave Garrett its 5-4 win over Fort Cumberland on Saturday.

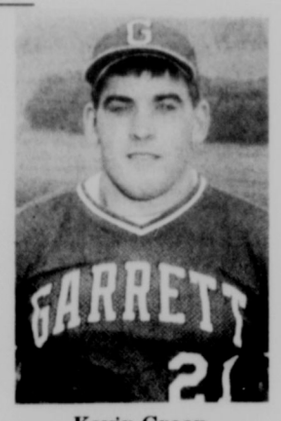
Garrett was down 4-3 going into the ninth inning when Britten Martin rapped a one-out single. Glotfelty and Plaugher then drew walks to load the bases and Brett Rice followed with a sacrifice fly to left to score Martin and tie the score. Green followed with his game-winner to left center.

A solo homer by Dave Phillips in the bottom of the ninth was not enough for Fort Cumberland.

Ritchie Baldwin earned the win on the mound by pitching the last three innings. Ryan Harman was the only Garrett player to record more than one hit, as he finished with two singles.

Phillips also hit a triple and Dan Matlick singled twice for Cumberland.

In Tuesday night's game at Westernport, Garrett County trailed 6-4 going into the top of the seventh inning, when they took the lead for good.



In that frame, Green singled in two runs to knot the score at 6-6 and Harman drove in Rice for the winning run.

Green also had a two-run homer in the top of the fifth, but Greg Whiteman's grand slam in the bottom of that inning gave Victory Post its first lead of the game.

Plaugher finished with a double and two singles, while Harman added two singles in Garrett's nine-hit effort. Brian Free, Chad Cooper, and Rice combined for a five-hitter on the mound.

Kevin Green was named the Glotfelty Enterprises/Gregg's Pharmacy Player of the Week, while other noteworthy performances were turned in by Clarlie Plaugher, Garth Glotfelty, and Ritchie Baldwin.

"Kevin and Charlie have the kind of work ethic coaches love to see," stated Coach Ed Wildesen. "Garth is having a tremendous year as our lead-off hitter and Ritchie is a perfect example of a relief pitcher. He has a variety of pitches and, most importantly, he never gets rattled."

Free Sailing Lessons Slated At Deep Creek

The Deep Creek Yacht Club at Turkey Neck, Deep Creek Racing Association, and Fleet 6 of the Flying Scot Association are sponsoring sailboat racing lessons for novices. These lessons are free and open to anyone on the lake with a sailboat and the basic ability to sail it.

The lessons will start July 14 and will continue every Sunday until Labor Day weekend, running from 9:30 a.m. to 11:30 a.m. Any sailboat with the basic Coast Guard approved water safety equipment (i.e. lifejacket for everyone aboard) is welcome, but the organizers expect most of the boats participating to be Flying Scots. If the boat is sloop-rigged, it must be manned by a two-person crew. No previous racing experience is needed.

The lessons will consist of about 30 minutes of "chalk-talk" on racing rules, starting techniques, racing tactics, sail trim, etc., followed by short practice races. If the participant's boat is capable of carrying a third person, the organizers will put an instructor/coach on board for the practice races.

Participants must have their boats at the Turkey Neck Deep Creek Yacht Club dock before 9:30 a.m., fully rigged, but with the sails down. Participants who have room for an instructor/coach on their boat and want one should can Dan Muss at 301/387-9528 and leave a message that includes a telephone contact number. Persons may call that same number with any other questions about the program.

Central Garrett Still On Top In Bi-State

Central Garrett remains in first place in the Bi-State Pony League, despite dropping a 13-8 decision at Ellerslie Monday evening. Central, who defeated visiting Westernport on Friday, 12-5, remained one-half game ahead of Ellerslie after Monday's contest.

Meanwhile, Grantsville improved its record to 6-4 with a 25-12 thrashing of Mount Savage last Wednesday evening and a 4-3 win over Lonaconing Monday night at Grantsville.

Central, now 9-2, took a 12-0 lead by the third inning in Friday's contest against Westernport and then held off a small rally by the visitors in the fifth and seventh innings. Frank Friend led Central's five-run first inning with a bases-loaded single that scored three runs, and he also recorded an RBI single in the third. Derek Mason and Chris Wright each added a double and a single to Central's nine-hit total.

Rob Speicher went the distance and held Westernport (2-8) to just four hits, while striking out a dozen batters and walking four.

Mike Bennett smacked a two-run homer and Doug Ferguson doubled for Westernport.

After being down 4-0 to Ellerslie in Monday's game, Central Garrett came back to score five runs in the top of the third and three more in the fourth, but Ellerslie recorded six runs in the bottom of the fourth to take the lead for good.

Speicher and Mason were tagged for 15 hits by the home team, as Steve Cook and Jim Loar each hit three singles, Jeremy Kennell and Terry DeHaven each doubled and tripled, and Cheyenne Hartman recorded a pair of singles.

Bill Younkin stroked a triple and a single for Central, while Jeremy Brenneman and Speicher each finished with two singles.

In Grantsville's big win over Mount Savage last Wednesday, Alan Sebold drove in seven runs with a three-run homer, a double, and a single, while Paul Edwards added a grand slam home run in the 11-run fifth inning.

Ryan Folk and Mike Yoder each added a double and two singles and Josh Cutler recorded a double and a single in Grantsville's 16-hit total. The game was called after six innings because of darkness.

Ryan Kennell hit a homer and two singles for Mount Savage (6-3), while J.D. Durst homered and singled and Mark Jewell singled twice.

Bobby Fritz and Mike Yoder combined for a five-hitter in Grantsville's squeaker past Lonaconing on Monday, while Tom Wilt and Brett Coleman yielded only four Grantsville hits.

Ryan Folk doubled for Grantsville, who won the game in the bottom of the sixth with a single run. Keith Broadwater tripled and doubled to lead Lonaconing's offense.

Both Garrett County teams will return to action Friday when Central Garrett will host Midland and Grantsville will play at Westernport.

The fish varied in size from 10 to 22 inches in length, and have been valued at $2,000.

The landowner is offering a $300 reward for the arrest and indictment of the persons responsible. This reward will be in addition to what will be given by Crime Solvers.

In large pitcher, combine all ingredients; chill. Strain into tall ice-filled glasses and garnish, if desired, with mint sprigs. Makes about 4 servings.

SUMMER SPARKLING REFRESHER

1/4 cup Lipton 100% Instant Tea
1/3 cup sugar
3 cups water
3 cups cranberry juice cocktail
1 tablespoon grated lime peel
1 can (12 oz.) seltzer, chilled

In large pitcher, combine all ingredients except seltzer; chill. Just before serving, add seltzer. Serve with ice and garnish, if desired, with lime wedges. Makes about 6 servings.

FRUIT-TEA LIME DELIGHT

3 tablespoons Lipton 100% Instant Tea
1/3 cup sugar
2 medium peaches, sliced
1 medium orange, sliced
1 quart water
1/4 cup lime juice

In pitcher, mix 100% instant tea powder, sugar and fruit, crushing fruit slightly. Stir in water and lime juice. Serve in ice-filled glasses. Makes about 4 servings.

ORANGES 'N CREAM COOLER

1/4 cup Lipton 100% Instant Tea
1/2 cup water
1 cup vanilla ice cream
1-1/2 cups orange juice

In blender, combine all ingredients; process at high speed until thoroughly blended. Makes about 4 servings.

SUMMER MIXED GRILL

1 cup Italian dressing
1/3 cup dry white or red wine
1-1/2 teaspoons thyme leaves
2 bay leaves
1 pound pork, chicken, lamb or beef cubes
6 medium mushroom caps
1 medium onion, cut into chunks
1 medium green pepper, cut into chunks
1 cup (1/2 pint) cherry tomatoes
1 pound Italian sausage links, cut into 1-1/2-inch pieces

In large shallow baking dish, blend Italian dressing with wine, thyme and bay leaves; add meat cubes and vegetables. Cover and marinate in refrigerator at least 4 hours.

Remove meat and vegetables, reserving marinade. On skewers, thread meat cubes and vegetables. On separate skewers, thread sausage; begin to grill or broil. Add meat and vegetable kabobs; grill or broil, turning and basting frequently with reserved marinade, until meat is done and vegetables are tender. Makes about 6 servings.

This simple menu of Summer Mixed Grill and Garden Fresh Bean Salad is made even easier when served on disposable tableware. For example, the platter (left) and compartment plate (right front) pictured here really stand up to heaping summertime portions and still look great on the table. Refreshing tea-based beverages are a perfect complement to this backyard feast. From the top left corner—Fruit-Tea Lime Delight, Summer Sparkling Refresher and Oranges 'n Cream Cooler.

and the living is easy...and delicious!

Now that summer is upon us, our thoughts turn to long, sunny days, holiday weekends and outdoor activities. What better time to enjoy the company of family and friends and what better way to do so than at a casual backyard get-together?

The name of the game is EASY—from the food and drinks right down to the table setting and cleanup. Whether your party is impromptu or planned, this simple menu will look and taste sensational with a minimum of effort.

Welcome guests with a cool, refreshing summer sipper to help beat the heat! A tall glass of iced tea is always a warm weather favorite. Serve it with lemon and mint or use the tea as a flavorful base for these quick and easy cooler recipes.

Georgia Mintea Refresher combines two American summertime classics—iced tea and lemonade—in one to soothe parched taste buds. In Summer Sparkling Refresher, cranberry juice and seltzer are mixed to create a tangy spritzer-like beverage which quenches thirst with a fizz! To celebrate the fresh fruits of summer, serve Fruit-Tea Lime Delight, a pretty-as-a-picture drink. Or, cool off with Oranges 'n Cream Cooler, a frosty combination of tea, orange juice and vanilla ice cream rich enough to double as a dessert!

Each of these beverages requires a minimal number of ingredients. For delicious taste and convenience 100% instant tea powder is used.

Easy "eats" doesn't necessarily mean burgers and hot dogs. For example, this recipe for Summer Mixed Grill couldn't be simpler—or more delicious. It features your choice of chicken, beef, lamb or pork cubes, Italian sausage and fresh vegetables in a savory marinade. The kabobs cook in minutes on the grill, and you can save time by having guests skewer their own ingredients.

A simple side dish, Garden Fresh Bean Salad is a light and tasty change of pace from mayonnaise-based salads. A summer's-breeze to make, this colorful combination of mushrooms and green and red beans is tossed in a zesty vinaigrette. Round out the menu with corn on the cob, a straight-from-the-garden salad and bread toasted on the grill. And for dessert, what says summer faster than fresh fruit platters or salads? In addition to the season's standbys like melons, peaches, plums and berries, add a touch of the tropics with sliced mangos and papaya.

An alfresco feast is no time for fine china. Not only do you *not* want breakables near bare feet, you don't want to spend hours in the kitchen cleaning up. You can still set a lovely table with high quality disposable tableware. Choose a premium brand like Chinet, made of heavy duty molded paper that's sturdy enough to hold a plateful of summer fixin's without collapsing. The line comes in many handy sizes: dessert, luncheon and dinner plates, compartment plates, oversized platters and bowls. The classic white design mixes and matches with any color napkins, flatware and tablecloth.

Remember, when activities—including dining—move outdoors this summer, keep it simple. An easy-to-prepare menu, refreshing drinks, no-fuss tableware and super quick cleanup are sure to spell lots of fun for everyone.

HOT TIPS *for cool summer parties*

Follow these hot tips for summer entertaining that's a breeze!

- **Eating outdoors is not just for lunch and dinner—try a brunch to get started early and enjoy more of the day.**
- **Serving food buffet-style works well in an outdoor setting. Set up the food in the shade and let people eat when they're ready. Remember, food spoils in warm weather, so keep perishable foods on ice.**
- **Be sure to use large, sturdy high-quality disposable plates—not flimsy ones—that can handle all of summer's favorite foods without bending, leaking or dripping. An added bonus when using disposables—cleanup is a breeze.**
- **When grilling a variety of foods that need to be served at the same time, partially cook denser items in the microwave or start them on the grill earlier.**
- **Jazz up drinks with cool-looking ice cubes made by freezing whole blueberries, strawberries, grapes, raspberries or sprigs of mint in ice cube trays. Or, make ice cubes out of lemonade and add to iced tea in place of lemon.**
- **Get out of the kitchen and into the sunshine by doing as much as possible ahead of time. Many recipes can be prepared in the morning or even the day before.**

IT TAKES LONGER NOW TO BECOME OLD

In the past there always were a few people who lived long lives. But, most of them acquired the disease of old age before they were fifty years of age. After that they suffered from pains, aches, lack of energy, chronic coughs and other miseries.

Medical knowledge, diagnostic techniques, and positive acting drugs have been greatly improved. Now many people are young at seventy and hope to stay that way. To a great degree, how long you will live depends on you regularly having your physician check your body. By treating any ailment before it has time to become a serious problem, you can add many years to your life.

On Wings of Freedom

July 4, 1776 . . . a fledgling nation breaks ties with her mother country, Great Britain, ready to spread her wings on her flight to freedom.

In a period of more than one hundred years, the American colonies had grown to thirteen in number, maturing into a nation possessing religious and political views differing from those of Great Britain, culminating in our War for Independence. The colonists would tolerate oppression and injustice no longer. They would govern their own, retaining their rights, including that of religious freedom, for which they had struggled so long, and settle for nothing less than their claims to "life, liberty, and the pursuit of happiness."

Thus, the Declaration of Independence was conceived, forming a new nation . . . "the Thirteen United States of America." She would soar on eagle wings, an enduring panorama of freedom and democracy spread out before her.

This Fourth of July, as resounding rainbows of fire reach out into the night, may we pray that the candles of freedom shall ever burn bright.

HAPPY BIRTHDAY AMERICA!

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

WHAT DOES IT TAKE?

July 7, 1991

Background Scripture:
Nehemiah 1-2
Devotional Reading:
Psalms 122:1-19.

What does it take to get something done in this world? Tonight on television there were visual reports of the millions who are dying of starvation in Africa. Equally disturbing were the reports of great multitudes of people in Bengaladesh who are the victims of a great typhoon.

The commentator said that so far, the Western democracies had not evidenced much interest in helping them. It is ironic to recollect that just a few months ago we spent millions of dollars to help the relatively-well-fixed Kuwaitis, but, as the commentator noted, the people of Bengaladesh and Sudan do not have any oil "to protect."

Have you ever noticed how easy it is to raise money to kill people and how hard to find money to keep people alive. Our country united in its anger and hostility toward one man, Saddam Hussein. If only we could just as surely unite in compassion for the nameless people who have no power.

MOBILIZING TO HEAL

A whole nation was mobilized to wage war with the most advanced technology the world has ever seen. So, how do we mobilize our nation to use some of that technology to wage peace? Maybe we can't solve starvation, disease, ignorance, addiction, and crime. But if we can send guided missiles to kill so effectively, can't we at least make some dent in these human miseries?

So, what does it take? It takes a person like Nehemiah, someone who, when confronted with a particular failing of our society, can respond with deep sense of sorrow. Through Hanani, one of his brethren, he receives the devastating news that Jerusalem was desolate and defenseless: "When I heard these words I sat down and wept, and mourned for days..." (1:4). If Nehemiah lived today, he wouldn't switch channels just because he wouldn't want to watch something that is unsettling.

Nehemiah did more than weep—he prayed: "...and I continued fasting and praying before the God of heaven." This evening, after the TV report was finished, it occurred to me that problems like mass starvation and others rarely get into my prayers. I pray for my family, my friends, and for those who ask me. But how often do I pray for the nameless starving, homeless, sick, destitute, lonely, and imprisoned? Not very often. Is it just because it is more natural to pray for those whom we know in some way, or is it because we know unconsciously that to pray for these people might place upon us the obligation to do something about it?

Nehemiah realized that the sad condition of Jerusalem was due to the sins of his people: "I now pray before thee day and night for the people of Israel...confessing the sins...which we have sinned against thee" (1:6). Most of our human tragedies are the result of human sin and it takes repentance if we are to do something about them.

Nehemiah was an important person who used his position to get something done. Hanani was a person of lesser stature who also did what he could do: he told Nehemiah. Without him, there likely would have been no decree from the King.

COVER STORY

Jim Kaat fondly recalls his own All-Star days

BY LYNN HOOGENBOOM

Vote early and often.

That time-honored piece of advice may be a bit outmoded when it comes to municipal elections, but there's one election to which it still applies – the election by baseball fans of the starters of the All-Star Game.

Jim Kaat

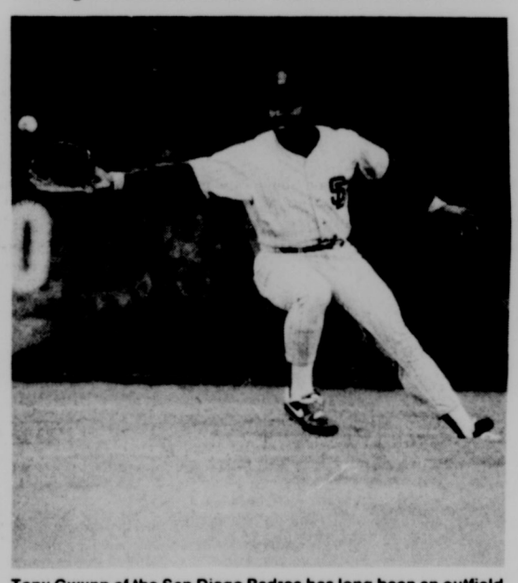
We recently discovered, however, that one knowledgeable fan of the game, Jim Kaat – who pitched in the major leagues for 25 years (1959-83) and still spends nearly every evening at the ballpark – has yet to fill out a fan ballot.

"I never have," says Kaat, who broadcasts for the Minnesota Twins and is paired with Dick Stockton on one of CBS's major-league broadcast teams. "Maybe I *should*."

Baseball's "62nd All-Star Game" airs Tuesday, July 9, from Toronto's SkyDome. Tim McCarver and Jack Buck will be calling the game. Kaat will be participating in the pregame show and expects to be providing brief interviews with players during the game.

Kaat declines to name the players he would vote for, except to cite Tony Gwynn of the San Diego Padres as an example of a deserving All-Star. Kaat also mentions that, if he were picking the American League team, Nolan Ryan, who recently pitched a no-hitter at age 44, would be on it. "I'd put him in for an inning," he says. "That's what the game is all about."

Kaat participated in three All-Star Games himself. His most memorable?



"My first (in 1962)," he says. "I was 23, and I was on the team with guys like Yogi Berra – people I grew up watching. And my last (in 1975), because I was 36 and hadn't expected to be chosen."

Kaat sees no significance in who wins the game. "It's an exhibition game," he says. "If you were playing to win, you'd leave the pitchers in longer."

The fact that it isn't a play-to-win game is one of its charms. "Baseball gives you the opportunity to continue being a kid," says Kaat. "And you see that in the All-Star Game. This is the game where you see the players smiling."

One of the less welcome changes in the game in recent years is a growing hostility between the fans and players, possibly caused by fan resentment of player salaries and intense media scrutiny of the players. Kaat has no objection to heckling, mind you, as long as it's done with some wit.

"I used to have fun with the guys in the bleachers in Chicago," he recalls. "I was about 42, and they'd ask me if I was playing and collecting Social Security too." When the hecklers were clever, Kaat didn't mind responding in kind. "It was good in a way," he says. "It made me more human to them and them more human to me."

Tony Gwynn of the San Diego Padres has long been an outfield fixture in baseball's All-Star Game. The "62nd All-Star Game" airs Tuesday, July 9, on CBS.

TV DIALOGUE

BY TONI REINHOLD

TROY SLATEN CAN'T LOSE – How did the actor who plays Jerry Steiner on "Parker Lewis Can't Lose" get his start in show business? – A.M., Ossining, N.Y.

Troy Slaten

Troy Slaten, 16, embarked on his acting career after his grandmother showed his photo to an agent. When he was 5, he appeared in his first commercial, opposite David Faustino (now of "Married ... With Children"), who was 6. A year later, Slaten landed the role of Tyne Daly's TV son on "Cagney & Lacey." "She was like a surrogate mother to me," Slaten says of Daly. "She carried me around the set and looked after me." Slaten has also done a number of guest spots in such series as "The Wonder Years," "Simon & Simon" and "The Greatest American Hero."

Slaten's second season as Jerry Steiner on Fox's "Parker Lewis Can't Lose" begins Aug. 11. During his hiatus, he has been working on a film starring Danny DeVito called "Jack the Bear." It is scheduled to be released at the end of this year.

Slaten receives fan mail in care of "Parker Lewis Can't Lose" at 20th Century Fox, 10201 W. Pico Blvd., Los Angeles, CA 90035.

POWELL THE PIONEER – Is Dick Powell still alive? – M.H., Goldendale, Wash.

No. Powell died in 1963 at the age of 58 of cancer. An actor, singer and producer, Powell was one of the first stars in Hollywood to embrace TV. He formed a partnership with Rosalind Russell, Charles Boyer and Joel McCrea to produce their own program, "Four Star Playhouse," in 1952. It ran until 1956. Powell also hosted and starred in "Dick Powell's Zane Grey Theater" (1956-61) and "The Dick Powell Show" (1961-63).

FALK LORE – Is Peter Falk married? How old is he? – D.P., Bethesda, Md.

Falk is married to actress Shera Danese. He was born Sept. 6, 1927, which makes him 63 years old.

SELMA DIAMOND – What has happened to the actress who played Selma in "Night Court"? – G.L., Newport, R.I.

Selma Diamond, who portrayed Selma Hacker from 1984-85 on "Night Court," died in 1985 at the age of 64. A native of London, Ontario, Canada, she also played Mildred Rafkin from 1980-81 in "Too Close for Comfort."

Pierce Brosnan stars as the leader of a Hong Kong trading company in "Noble House." He is faced with intrigue, double-dealing and financial ruin in the 1988 miniseries, which also stars Deborah Raffin, Ben Masters and John Rhys-Davies. It is rebroadcast beginning **Sunday, July 7**, on NBC.

IN FOCUS

Guest star David Bowie steals the show when the HBO comedy series "Dream On" returns **Sunday, July 7**. In a riotous turn, Bowie plays the haughty and hateful director of a film that is being made about the saintly Dr. Richard Stone, the new husband of Martin Tupper's ex-wife. Martin is invited to the set, where he falls in love with Julia (Mimi Rogers), the actress who plays his ex. Naturally, it all turns out disastrously.

SOAP SCOOP

A brace of Bradys back on 'Days of Our Lives'

BY CONNIE PASSALACQUA

Flash! As we go to press it's all but officially confirmed that Deidre Hall and Wayne Northrop will be returning to "Days of Our Lives" in their astronomically popular roles of Dr. Marlena Brady and Roman Brady. Marlena, of course, went down in an airplane in 1987. But no body was ever found, which signifies "no problem" in daytime soap these plot problems should be child's play.

Wayne Northrop

The return of Hall to "DOOL" (she left after an exhausting 1986-87 season, in which she starred in both "DOOL" and nighttime's "Our House") is particularly momentous. Daytime fans just couldn't get enough of Marlena the sweet shrink during the soap queen's 11-year reign – and shrewd Hall cultivated her fans – and that image – with a determination bar none.

What about Susan Seaforth Hayes, the delightful, outspoken, longtime "DOOL" star who returned to the soap two years ago as Julie Williams? Hayes and Hall were once bitter backstage rivals. Now there's a plot we're interested in following....

Northrop, by the way, hasn't done a lot of work since leaving "DOOL." He did spend the 1986-87 season on "Dynasty" as Fallon's lover Michael Culhane. (He had created that role on "Dynasty" briefly in 1981.) Northrop is married to Lynn Herring (who plays vixen Lucy Coe Quartermaine on "General Hospital"), and the two have an infant son. After "Our House," Hall did two TV movies, "Take My Daughters, Please" and "For the Very First Time." She was also a memorable murder victim in this season's CBS miniseries "And the Sea Will Tell." But perhaps her strangest role was as record mogul Tim Curry's corrupt wife in an arc dealing with the music business on the series "Wiseguy." That character plunged to her death through a skylight while in an emotional clinch with a rock star.

character reincarnation land. Northrop, who left the show in 1984, was replaced by Drake Hogestyn, who became a daytime idol and has just signed a new multiyear contract on the show.

When supposedly dead Roman came back to Salem in the guise of Hogestyn in 1986, he came back as an "amnesiac" named John Black who was later "proven" to be Roman. But it now looks like Hogestyn might not be the "real" Roman Brady after all. Confused? Well, if "DOOL" could find a way (and a budget) to bring back these two daytime superstars, explaining away

MOVIES ON TV

'Do the Right Thing' makes its debut on CBS

BY FELICIA A. FEASTER

Making its network debut is Spike Lee's 1989 critical and popular hit "Do the Right Thing" (CBS, July 13). Focusing on a steamy summer day in the Bedford-Stuyvesant section of Brooklyn, the film is a detailed character study of the neighborhood and its inhabitants.

Lee's most political film to date, "Do the Right Thing" refuses to romanticize characters as admirable minority underdogs or write them off as repressive bigots. All the Bed-Stuy residents, from the local Italian pizzeria owner (Danny Aiello) to the sympathetic lead, Mookie (Lee), carry their own racial baggage.

Spike Lee

In addition to its refusal to cater to the good guy-bad guy dynamics of "race-issue" films like "Mississippi Burning," Lee's film is a visual departure from standard Hollywood. The oppressive heat of Brooklyn is expressed in the vivid orange haze of the film; Lee's arresting camera angles signal the by turns stagnant and turbulent street-scene. "Do the Right Thing" is a film with political punch and visual finesse.

- A hotshot stock-car racer (Tom Cruise) and an ex-NASCAR mechanic (Robert Duvall) team up to prove their detractors wrong and maybe win a couple of races in the hopelessly predictable and energyless "Days of Thunder" (HBO, July 7 and 11; Cinemax, July 9 and 13). Cruise seems to rely more on his good looks than on his acting talent, and he sticks out like a sore thumb in the meat-and-potatoes world of stock-car racing. More outrageous though, is Nicole Kidman as the beautiful surgeon who works on Cruise's brain and loses her heart. The doctor has a predilection for dimly lit, shadowy exam rooms and long-winded telephone conversations with Cruise while head-injury cases wait.
- The James Clavell epic "Noble House" (NBC, July 7-10) features Pierce Brosnan as a tai-pan – or leader – of Hong Kong's most influential trading house. This Orient-situated "Wall Street" details the financial problems of Ian Dunross (Brosnan) and his competitors' attempts to wrest control of the "noble house" away from him.
- A New York mobster (Steve Martin) is relocated to a California suburb under the federal witness-protection program in "My Blue Heaven" (HBO, July 13). Assigned to smooth the thug's transition to small-town life is an FBI agent (Rick Moranis). But the crooked Martin must make his own adaptations if he is going to survive suburbia.

Second Annual Loggers/Forestry Field Day Termed "A Success"

The Maryland Forest Association Second Annual Logger/Forestry Field Day held June 14-15 at the Garrett County Fair Grounds was termed "a great success," according to the event organizers. There were 38 paid exhibitors, 29 information and education groups, and seven crafts groups in attendance. Over 2,600 people attended the day-and-a-half event.

The Field Day activities began at noon Friday afternoon with a ribbon-cutting ceremony. John Formen, Western Region M.F.A. vice president, was master of ceremonies. Dignitaries present for the ribbon cutting were: Senator John Hafer, Delegate George Edwards, Brenda Butcher, chairperson, Garrett County Commissioners, Kimberly Grimm, Miss Maryland; Susan Reinhart, executive director M.F.A. and Thomas Tyler, M.F.A. president.

The 38 forest industry suppliers that were attending as exhibitors had on display the latest technology in trucks, skidders, loaders, splitters, chainsaws, mill equipment, etc.

The forest industry has one of the highest accident rates in the nation, so safety was stressed throughout the event. Several exhibitors had safety equipment on display that is used to promote individual safety.

In addition, the Maryland Department of Transportation and the Maryland State Police provided truck inspection demonstrations to show loggers and truck drivers the importance of properly maintaining their vehicles to comply with the law.

Phil Pannill, DNR-Forestry Division, utilization forester for the Western Region, provided "gold card" training for approximately 30 people on sediment and erosion control practices for forest harvest operations. Every forest harvest operation must have at least one person on the job at all times that has a "gold card" certifying he has received training in sediment and erosion control measures.

Special attractions this year were a falconry demonstration on Friday afternoon by Floyd and Sharon Presley from Frostburg; chainsaws evaluations by Keystone Stihl and Chesapeake Outdoor Power Equipment; a log loader contest put on by Hubler Brothers; and a crosscut saw demonstration by students from Allegany Community College's Forestry class. Another new event this year was a five-kilometer run.

The information and education groups this year included several sportsmen's clubs, displays from three colleges, six Dept. of Natural Resources units, the U.S. Soil Conservation Service, and the University of Maryland Extension Service.

Nominations For "Beautiful People" Sought

It's time once again to nominate Maryland's outstanding volunteers for the fifth annual "Maryland's Most Beautiful People" awards. The deadline for nominations is September 11.

It's again time for us to recognize all of the good folks who do extraordinary things," said Governor Wm. Donald Schaefer. "Nominate someone special for a Maryland's Most Beautiful People award. Nominate those friends, neighbors and family members who volunteer their time to help the homeless, the hungry, the handicapped, the environment, students or senior citizens."

Nominees must be Maryland residents. Nomination forms are available in public buildings throughout the state. All nominees will be honored at a local awards ceremony. One nominee from each of the 23 counties and Baltimore City will be chosen to represent all nominees from their subdivision at a statewide awards ceremony in Annapolis with Governor Schaefer in October.

"Exciting, extraordinary, exceptional — not only do these words describe the dynamic volunteers we are planning to honor through this project, they also describe the ceremony we are planning in October," said Floraine Applefeld, director of the "Maryland You Are Beautiful" program. "The theme for our fifth anniversary people pride project is 'Our Town' and your participation is the key. Nominate those volunteers today!"

Abby Virus Being Studied For Gypsy Moth Control

The stuff in laundry bleach that makes whites whiter and brights brighter could hang gypsy moth caterpillars out to dry.

A USDA scientist says a fluorescent whitener — which gives bleach its punch — increases by at least ten-fold the number of caterpillars killed in laboratory tests by a virus named Abby.

Abby is a strain of a natural caterpillar-killing virus selected for its lethal potency over 10 years ago by Martin Shapiro, an entomologist with USDA's Agricultural Research Service.

Shapiro uncovered the laundry whitener's extra "kick" when he set out to protect Abby from the sun's ultraviolet rays, which normally degrade the virus and render it ineffective.

In tests, the laundry whitener not only blocked UV rays; it also mysteriously enhanced the virus' effectiveness, well beyond what one would expect from just blocking UV rays, according to a report in the latest issue of Agricultural Research magazine.

Shapiro, who works at the ARS Insect Biocontrol Laboratory in Beltsville, suspects that either the whitener helps the virus multiply inside the insect or it somehow pushes the virus through the insect factor — or a combination of the two.

Since the whitener is found in products that are widely used, Shapiro is confident it should cause no environmental concern.

He found that it works on other viruses and insects, but his main interest is using it for Abby.

In 1978, Shapiro located the most potent virus strain he could find in Abington, Mass., naming the strain after the town. Shapiro repeatedly infected caterpillars with Abby, selecting those viral strains that killed the most caterpillars in the shortest time.

In later laboratory tests, he says, the best performing Abby was 10 times more potent than the standard virus registered to kill gypsy moths in parks and forests.

A cost-efficient system for producing Abby is almost ready for commercial use, Shapiro says. He and entomologists Edward M. Dougherty and Dwight E. Lynn at Beltsville devised a method for growing the virus in a gypsy moth cell line Lynn developed.

According to Dougherty, the virus is reproduced in selected gypsy moth cells placed in lab dishes. This cell culture technique overcomes the problem of having to house and feed caterpillars in which to grow virus.

The researchers and ARS have applied for patents on Abby and the new use of the fluorescent whitener.

Shapiro says the agency has granted an exclusive license for Abby to American Cyanamid. Several companies have expressed interest in licensing the whitener for viruses.

Accidentally released in 1869 from an entomologist's home in Medford, Mass., gypsy moths infest 13 million acres throughout the Northeast, south to North Carolina and east to Ohio. In addition, Michigan, California, Oregon, Washington, Utah, and Colorado also have gypsy moth infestations.

A severe infestation can completely defoliate a tree. Three years of complete defoliation usually kills a tree, while evergreen, young, or weak trees may succumb in just one season.

Overall, ARS is spending more than $1.3 million in fiscal year 1991 on research to control this voracious pest, the agency reports. Advances from other typsy moth studies include a variety of approaches.

A new dispenser for the female gypsy moth's sex attractant has been developed. Each year, federal and state officials set out 300,000 traps baited with the attractant, called disparlure, to monitor moth numbers. But officials can only buy the patented dispensers from one source.

To offer an alternative, chemists Barbara A. Leonhardt and E. David Devilbiss, both of the ARS Insect Chemical Ecology Laboratory at Beltsville, and Victor C. Mastro of the USDA Animal and Plant Health Inspection Service, developed a new pheromone-impregnated strip for traps. In small field tests, the dispenser attracted gypsy moth males just as well as the currently used dispenser. Large field tests are planned. A patent is sought on the dispenser and several companies want to license it.

Bacillus thuringiensis bacteria can be a cost-effective and effective control alternative to diflubenzuron, which kills caterpillars by stopping molting — a process insects use to grow. If diflubenzuron gets into waterways, there's concern it could pose a problem because crabs, shellfish and other aquatic life also molt.

But the alternative, natural Bt bacteria, can cost more to use because two doses are recommended. Working with the Maryland Department of Agriculture and Montgomery County, ARS entomologist Ralph E. Webb at Beltsville and others developed a cheaper plan for using Bt.

Officials count egg masses in the winter, before eggs hatch. One Bt application is enough where there are low densities of egg masses.

"Monitoring may indicate that 20 percent of the area requires a second application," Webb says. In that case, a state or county would save the cost of automatically respraying the other 80 percent. Webb says his test shows less than 30 percent defoliation — "an acceptable level of control."

Wasps have shown new promise as part of a control program. Coccygomimus disparis, a Japanese parasitic wasp, was released by ARS researchers in the late 1970s. Scientists couldn't find it until last year, when 97 wasps appeared at 11 different sites in the Northeast. When scientists collected caterpillars from those spots, four percent had parasites in them.

"Anything over 10 percent is considered highly promising," says entomologist Paul W. Schaefer of the ARS Beneficial Insects Introduction Laboratory in Newark, Del.

Cooperative Extension Service

WATER CONSERVATION EDUCATION

If you have been upset about your water bill, now there is something you can do about it!

The Cooperative Extension Service, in conjunction with the City of Oakland, is planning water conservation education programs that each user of city water is encouraged to take advantage of. The whole program will extend into next year. A questionnaire will be mailed out to all people receiving water bills. Completing the questionnaire and returning same in the enclosed pre-addressed, postage paid envelope is very important, as it will show us where to concentrate our educational efforts. It may be in new water-conserving gadgets, in finding leaks and repairing aspects of the existing home plumbing systems, or in learning to conserve water during the course of daily living.

Whichever would be a concern for you, we have the means to help. Our organization, city officials, and local businesses are cooperating to encourage the adoption of water conserving practices with possible coupons reducing the next water bill when purchasing water conservation devices. We have the means to make home visits and help pinpoint sources of water leaks. Other programs will show how to save water when showering, washing dishes, etc.

Please watch for another article in The Republican by Oakland's Mayor Asa McCain on this water conservation program. And look for the questionnaire which will be mailed within the next two weeks.

G.C. Historical Society Marks Fiftieth Year

Nearly a hundred people attended the annual banquet and business meeting of the Garrett County Historical Society, held at the Bittinger Community Center last week. The banquet this year marked the 50th anniversary of the society since its formation in 1941.

The regular business session was conducted by DeCorsey Bolden, out-going president of the society.

Following the minutes of the previous business meeting and the treasurer's report, a slate of nominations was presented to the members. Elected as president was Clifford DeWitt; re-elected as vice-president was Dr. Raymond McCullough; elected to continue serving on the board of directors were Mary Strauss and James Ashby, and new members elected to the board were Jerome Moyer and Matthew Stieringer.

Guest speaker for the evenings was Beth Friend, curator of the society's museum in Oakland. Her topic was "What Makes A Town," and she used the founding of the town of Oakland as an example. She described the changes in the "glades settlement" as people moved into the area, followed by the arrival of the Baltimore and Ohio Railroad, and, finally, the naming of Oakland as the county seat of the newly formed county. These changes were reflected in both the structure of buildings and the people who lived in them, she stated.

A special presentation was then made to the society by Betty White, author of a newly published book on the history of Terra Alta, W.Va.

"It was a small token of appreciation for assistance I received during the 21 years I spent writing the 619-page historical work," stated White, who named the individual society members from whom she received assistance.

One of the final items of the business meeting was a discussion conducted by John Grant about the "Seedlings" publication. (Grant and Garrett County Commissioner Elwood Groves were re-elected as editor and managing editor of the publication).

Concurrence of the members present was that "Seedlings" should continue for another year.

This year a special program booklet was prepared for the banquet by Dorothy Cathell and Martha Kahl. The result was "a unique souvenir for all members present at the Historical Society's 50th Anniversary banquet," according to a spokesperson for the group.

into the general fund of the State of Maryland. Volunteers could not use any of this income. During the period the volunteers operated the parks, they collected $22,431.16.

In early April, the volunteers sent letters to 72 area businesses, fraternal organizations, veterans organizations, local governments, civic groups, and professional people requesting their assistance of a donation of either time or money to be used in the operation of the three parks. Responses were practically nil. We received substantial donations from Liberty Bank, American Legion of Frostburg, Ret. USAF Sgt. Wesley Lidie, and Attorney James Braskey in Grantsville. Many other smaller donations were made by visitors to the parks. Local county commissioners ignored our invitations to attend meetings and our request for a donation. Several elected officials in the town of Grantsville were very opposed to assisting the group in any manner.

During the period April 1, 1991, through June 18, 1991, the Friends provided recreational facilities for some 51,045 visitors to the three parks. Two campgrounds were prepared and opened for operation. Cabins at New Germany were in continuous use. The day-use areas at New Germany, Big Run and Casselman were raked and mowed. The swimming beaches at New Germany were opened. Approximately 1,268 hours were spent by volunteers doing this work. Facilities we provided included camping, cabins, hiking, fishing, swimming and picnicking in the day-use areas. The group also hosted Governor Schaefer on his visit to New Germany on May 31.The group worked overtime to prepare the park for his visit and we received the very welcome assistance from the Savage River State Forest staff. Our group also provided nature walks and historical presentations for local school students and senior citizen groups.

Visitors to the three parks were very impressed with the volunteer effort and were very pleased that we took the time and effort required to keep the parks open and maintained for their use. Some found it hard to believe that people would volunteer to clean toilets and cut grass. The operation of the parks was returned to the Maryland Park Service on June 19, 1991. We hope that our efforts have been appreciated and invite all residents to "Support Your Local Parks."

To the Editor:

Last week there were doomsday predictions about life as we know it here. The common point of these screeds seemed to be that unless the commissioners raise taxes to meet various budget requests, we should all plan to stay home more, probably behind locked doors because the crumbling roads will be traversed mainly by unhappy people: disgruntled public workers, teachers and parents crazed by public apathy, a harried and underequipped police force, and wild children suffering from low self-esteem. I'm sure there will be other travelers, the rare tourist, locals carefully picking their way to the few jobs left, etc., but the idea is that agencies should get whatever funding they request or they would be unable to function at levels acceptable to the public.

There was also discussion about the rift between our commissioners over the budget. Their inability to vote unanimously on the budget was implied to be some sort of failure. The reasoning behind these writers' desire for perfect harmony in government escapes me since debate and disagreement are cornerstones of our way of life. Nonetheless, these writers were promoting the concept that honest disagreement somehow hurt us, or maybe our image downstate suffered.

Call me eccentric, but I always thought that in tough times it was a good idea to be conservative with money. The rough and tumble of public debate seems to have the natural effect of restricting cash flow. Depending on where you get your news and which sources you believe, we are in the middle of a national recession, at the beginning of a worldwide depression, or at the end of a national recession. Everybody seems to know where we are, but if one looks through the source of any analysis or prediction to the ultimate purpose of the source (reassurance, re-election, etc.), there is usually a connection beneficial to the source. People and groups have always analyzed situations and solutions to their own advantage while claiming benefits for all.

Here are some facts. Government clerks, inspectors, and managers (an oxymoron?) are being laid off in several states including California, Massachusetts and New York. Our neighbors, Pennsylvania and West Virginia, are laying off teachers and other educational staff, and about a dozen other states are doing the same (in Maryland, teacher layoffs have been avoided by not replacing retirees). Roadbuilding by counties and states is at a standstill nationwide. Aid for the poor is at an all time high, yet the cry from the streets is that it's not half enough. A greater percentage of Americans do not have access to proper health care than in any other Western nation for the first time since World War I. The final chapter of World War II is unfolding in Eastern Europe where more than twenty million trained factory workers financed by American capital prepare to build products similar to those being built as close as Pittsburgh and Hagerstown. Be clear in your mind that, regardless of your personal situation now, these are troubled days, and be clear that continued rampant government spending at any level will continue to make local governments and working class people suffer hardships.

While debate is always good for government and some division is usually good for the public, I think that it is probably time for responsible people to stop the demagoguery. If we don't have a tax increase, it is unlikely that greater numbers of children will end up working dead-end jobs or suffering permanent low self-esteem. People here will still risk going out wearing hundred dollar tennis shoes. There is no road project important enough to imperil the public. More cities, counties, and states are closer to bankruptcy than ever before. Our own Governor Schaefer and the sychophantic fools on the Linowes panel cooked up a scheme to misappropriate money that would have affected every taxpayer in the state, but he was stopped when the appalling cost of his moronic malfeasance was made known to the legislature. Without honest, public debate, government is nothing.

Instead of jumping on what has become a runaway bandwagon for more government services and more taxes, why don't we challenge our board and department heads to do what they are paid to do: to inspire personnel by their own example to do the best job possible with available resources, and to manage available resources to provide the greatest good to the greatest numbers. Rather than attacking the commissioners for holding the line on taxes, let's challenge them and their upper echelon managers to share the burden by giving up pay raises and all perks which exceed those available to line workers.

Good managers are effective in bad times. Good leaders set the example. Right now we need both. It takes no special talent to stumble across a good idea when money is plentiful and resistance to new ideas is low. Managers who appear to be competent are numerous in good times. Instead of attacking the commissioners, why don't we show some faith in their managers' abilities to do the job during tough times as well and with the style and grace they displayed during the good times? Now is when the public needs inspirational and resourceful leaders to manage effectively at every level. It is not an unfair challenge to ask public managers and others in the public arena to rise above what they would like, and begin to deal maturely with the realities of the situation at hand.

There will be winners and there will be losers; a shakeout is part of tough times, but one sure winner if the line is held, is the public. The notion among politicians whose day is done is that the public will pay any price for recommended services. Many taxpayers are now evaluating the cost of various promises and have come to the conclusion that they have been all too well serviced by government. This taxpayer group gets larger every day.

Another winner is the public sector line worker who gets the benefit of better leadership and management. In good times cretinish and ineffective managers tell subordinates to take it or leave it, and rely on the subordinate's desire to be part of a good thing to get the job done. In hard times managerial morons everywhere are exposed when bad times cause good people to leave for lack of positive, effective leadership.

The only certain losers are managers who were friends or housepets of politicians and who are not competent. These managers will identify themselves by their constant loud whining and their constant pointing away from themselves to locate blame for failures. They will embarrass their mentors, their friends, their families (everybody except themselves, for they could never do that) with gnashing of teeth, threats, and most of all with the results of their incompetence. These are the managers who cannot manage divergent points of view. These are the fair weather managers politicians appoint and joke about during good times. The only thing funny about them in bad times are their idle threats to quit. Many have provided for themselves so well that they can never hope to match the quality of life they enjoy here with the same income and benefits again in their lives. The commissioners would serve the public well to instantly accept the resignation/reetirement of the next half-dozen upper echelon types who make this hilarious jest.

It is, of course, a shame that some deserving public employees will probably not get raises that they arguably deserve, especially in the teachers' case the amount of money paid to their nominal superiors. On the other hand, now is probably not the right time to correct even such a blatant and repugnant insult to teachers and the public as the gaping maw in salaries between people who actually teach and the numerous and marginally competent board bureaucracy. The teachers owe nothing at all to this bloated group of self-serving bureaucrats, but I would hope that they put a little extra into the classroom to balance the loss to students from the work to rule mode.

The bottom line is that hard times clarify many issues. The bottom line is that everybody can't be pleased. In the end, the public seldom gets what it wants, but the public invariably gets what it deserves. Remember who stood where and what they said when this is all over. Then, next time, go out in the rain and VOTE FOR WHAT YOU BELIEVE.

Sincerely,
W. L. Welch

To the Editor:

Having grown up in nearby Fayette County, Pa., and being a member of the Asher Glade Church of the Brethren for twelve years prior to moving to Indiana, I have read your paper nearly all my life. For the most part, it is done very well.

However, the one thing that really grates me about your paper is the "Friendsville News" section. Again and again, I have seen the Asher Glade Church of the Brethren referred to as the "Asher Glade Brethren Church." Asher Glade has never been, is not, and never will be a "Brethren Church." It is a Church of the Brethren.

What's the difference? The Church of the Brethren and the Brethren Church are two separate denominations. The Brethren Church, with general offices in Ashland, Ohio, is a group that separated from the German Baptist Brethren Church in 1882. The German Baptist Brethren Church adopted the name, "The Church of the Brethren," in 1908. It has its general offices in Elgin, Illinois.

The Brethren Church has around 15,000 members nationwide, while the Church of the Brethren has almost 150,000 members in the United States. The Brethren Church is a member of the National Association of Evangelicals. The Church of the Brethren is a member of the National and World Councils of Churches (as a denomination).

The Brethren Church sponsors Ashland Theological Seminary in Ashland, Ohio, and the Church of the Brethren has Bethany Theological Seminary in Oak Brook, Illinois.

Asher Glade supports financially the Western Pennsylvania District and the General Board of the Church of the Brethren. Asher Glade IS a Church of the Brethren.

Please, could your correspondent get it right when writing the column. I have always appreciated the mention of Asher Glade in the paper, but I wish that it would be referred to properly.

Thank you very much.

Sincerely,
Craig Alan Myers

P.S. "Brethren" should not be spelled "Bretheren" or "Brethern."

To the Editor:

On Memorial Day, the National Multiple Sclerosis Society, Maryland Chapter, survived a devastating six-alarm fire in our Central Office located in the Hillendale Square Building in Towson.

It took 117 firefighters from 23 fire stations over three hours to extinguish the blaze. Damage was extensive, however because of the bravery and skill of these firefighters, we were able to salvage all of our client records and program materials that enabled us to continue client services without interruption.

Since that date, we have received many offers of help from our families, friends and business partners in the community; for which we are extremely grateful. We are also very appreciative of the donations of good condition medical equipment for use by our clients and we welcome any additional support from individuals, organizations, or businesses wishing to make a donation.

It is indeed heartwarming and gratifying to know that the National Multiple Sclerosis Society, Maryland Chapter, has such widespread support. Thanks to the caring of others, we can continue to sponsor events and provide programs and counseling in support of over 2400 clients and their families served by our Society.

Again, our sincere thanks and appreciation to the Baltimore County Fire Department.

Sincerely,
Jane Tamburo, Chairman
National Multiple
Sclerosis Society

COME, SKI THE WISP WITH ME!

This is an advertisement for not only a great ski area but for a total 4-season resort!

It's also an invitation to dream!

My name is **Ed King**. I specialize in the marketing of second home and recreational property here in Garrett County and around Deep Creek Lake.

This may not appear to be the usual real estate advertisement, but then, I am not your usual real estate professional. I am a dreamer. Dreams are the highest form of motivation. You must have dreams to help formulate your objectives, to stay mentally alive, and to grow.

In America, almost any dream is obtainable.

A Dream of Skiing

I would like to share three of my dreams with you and invite you to dream with me. First, skiing! I was 25 years old when I began downhill skiing. After three days at an Air Force recreation center in Germany, I purchased my first pair of skis. They were hickory skis with the old bear-trap type bindings. After returning to the United States, I began skiing at the Deep Creek ski area on Marsh Mountain — now, the WISP. The small warming hut and gasoline-powered rope tow were a long way from the modern state-of-the-art equipment in use today at the WISP. My skiing ability was little more than a snow-plow turn and an occasional stem christy. However, through the years we (the WISP and I) improved. It was thanks to the WISP that my horizons broadened and I formulated my goals in the area of skiing.

Those goals were: 1) to ski the world-famous mountains of **Colorado**; 2) to ski "The Steep & the Deep" powder snow of **Utah**; and 3) to someday helicopter ski in the Bugaboo's of **British Columbia.** These goals have not been completely attained in that the Bugaboo's are still in the dream stage. But that's not all bad; this goal still exists and still is a dream to work toward.

The photograph above was taken last year at Snowmass, Colorado, in about twelve inches of freshly-fallen powder on **High Alpine.** That morning was one of those special days one never forgets. We had skied the **Big Burn** the first run and were the first skiers to track the new snow. Two runs later, we went on to the top of **High Alpine** lift and found more untracked powder among the heavily snow-covered spruce trees. Words cannot describe the thrill of gliding silently down a slope at eleven thousand feet above sea level, with a brilliant Colorado-blue sky overhead, and newly-fallen snow underfoot.

Through the years I also have returned often to **Alta, Utah,** to ski the deep-powder snow. Nowhere is the snow any better! On two different visits to Alta, I have experienced the pleasure of skiing bottomless powder — over seventy inches deep. Standing atop **Alf's High Rustler** is a thrill in and of itself where the rugged cliffs of **Utah's Wasatch Mountains** reach up and touch the sky. The untracked powder of the **Peruvian Woods** and the **Eagle's Nest** were well worth every ounce of dream power it took to get there.

What does any of this have to do with **WISP?** A lot! The WISP serves as training grounds here in your own backyard — most probably fewer than three-and-a-half hours from your home. The WISP offers all levels of skiing difficulty, and has a great Ski School. If you have mastered the slopes at WISP, you have certified yourself at least to ski comfortably on more than ninety percent of any resort slopes in the West — such as the **Elevator Shaft** at **Aspen Mountain,** the **Wall** at **Aspen Highlands,** and the **Birds of Prey** at **Beaver Creek.** The **WISP** can be a dream of its own, or it can be a stepping stone to another, larger dream.

A Dream of Deep Creek Lake

Next, is a different dream which, after many years, came true. This dream was to own property at Deep Creek Lake. My family had been coming to Deep Creek since I was a child to picnic, camp, hike, and fish. When I was old enough to drive, several of us would come to camp along Rock Lodge Road and State Park Road where the Deep Creek Lake State Park is today. We came with our canoe, and later a fifteen foot runabout with a 45 horsepower Mercury engine, which we bought from Matt Storey, a Deep Creek legend in his own time. Later, I kept a boat moored on the lake at the Kahl cottage on Rock Lodge Road.

It was through the years that I formulated this dream of someday owning a home here. My parents were pulling for me and even went to the extent of prodding me to stay on the right course to accomplish certain necessary goals — college, Air Force, and after that, night school for another degree. There were rough spots along the way, but in February, 1965, a local real estate agent, Bill Casteel (a former sheriff of Garrett County), and Stephen Pagenhardt, an attorney, were witness to my dream-come-true . . . my purchase of real estate here.

What do these dreams and memories have to do with this mountain resort? Again I say, a lot! You see, Garrett County opened up a whole new life for me, my parents, my children, friends, and even our pets. **Sports. Privacy. Freedom. Tranquility. Escape.** To pinpoint the feeling and the experience of living at Deep Creek is difficult to do. The emotion is different for different people. There are private, quiet times like sitting on the sofa in front of a cozy fire and enjoying a hot drink, and there are "fun" times like a sled riding party with the whole neighborhood gathered 'round a large bonfire. It's special. It's different. And definitely, it's a dream come true. Obviously, I could go on forever telling the joys of owning our second home here. This Lake and County have such a magnetism that everyone I know wants to return to it as often as possible.

A Dream of the Future

My third dream is about what I call the resort. I prefer to use the term **"resort"** rather than to say Deep Creek Lake. The resort is not only the ski area, the lake, the natural resources, or the four-season recreation. It is so much more. All the ingredients are important. Not only is each facet of the recreational experience important, but the relationship of each facet to the other is also very important. The lake itself is very delicate, as are the natural resources around the County.

This third dream about the resort is that of enhancing and protecting this resort. Irresponsible practices could permanently damage its attractiveness. Many techniques of resort planning could and should be implemented to chart the course years into the future for this mountaintop retreat. Each week I take at least a few hours away from the real estate career to nurture this third dream. I have partaken heavily of the cup of joy that this County serves up. Hopefully my dreams, my deeds, and my actions will be effective in putting something back into this cup.

You have just read a very long ad. Why have I taken a full page? Because, I want you to know what this resort has given to me. My dedication to the product I market is thoroughly sincere. I am passionate about Garrett County. For me to present an ordinary real estate advertisement would just not accomplish my objective of telling you what I want you to know.

Service, professionalism, ethics, aids for sellers and buyers in real estate transactions are the subjects addressed by most real estate ads. I, too, place these at the top of my priorities. However, not only are they at the top of my list, every real estate client and customer should expect these things of every Realtor. Therefore, the "point of difference" that I wish to make is: **my personal, life-long commitment to this resort and to its people.**

Over the past five years, my wife and real estate co-worker, Jean, and I have assisted more than one hundred fifty families with property transactions here in Garrett County. We are pleased and proud of the level of satisfaction these families have experienced with our service and their real estate here. Many, many dreams have become reality.

Thank you for taking a few minutes to share my thoughts and dreams about Garrett County and Deep Creek Lake.

Revised Child Passenger Law Now In Effect

Maryland K.I.S.S. (Kids In Safety Seats) reminds 4th of July motorists that the revised Child Passenger Protection Law went into effect July 1.

The new measure, passed by the 1991 General Assembly and signed into law by Governor William Donald Schaefer, strengthens the previous Child Passenger Protection Law which required children from birth to age 3 to be restrained in a safety seat and 3- and 4-year-olds in a safety seat or seat belt.

The new law requires any child under the age of 4 and weighing 40 pounds or less to be secured in a safety seat. A child who is between 4 and 10 years old and weighing more than 40 pounds must be secured in a safety seat, seat belt, or seat belt/shoulder harness.

In 1990, eight children 5 and under were killed in motor vehicle crashes in Maryland. According to Maryland State Police, five of those children were not buckled into either safety seats or seat belts and would have survived the crashes if they had been properly restrained. In the first half of 1990, close to 900 children under the age of 15 were injured in motor vehicle crashes statewide, according to Maryland State Police.

Maryland K.I.S.S. is a program within the Health Education Center of the Maryland Department of Health and Mental Hygiene and funded by the Maryland Department of Transportation.

Maryland K.I.S.S. promotes the proper and consistent use of car safety seats; promotes compliance with Maryland's Child Passenger Protection Law; and works to increase awareness among professionals and the public of motor vehicle crash-related deaths and injuries as a major public health problem.

Its educational component includes programs for professionals and the community, materials development and distribution, and media campaigns -- all of which are targeted to expectant and new parents and preschool age children.

FRIENDSVILLE STUDENTS PARTICIPATE IN TUTORING PROGRAM -- Forty students from the third, fourth and fifth grades at Friendsville Elementary School recently completed a tutoring program during the past school year. The tutors met with students from pre-kindergarten, kindergarten, first and second grades for 15-minute sessions held twice weekly. Reading and math activities were emphasized during the sessions, and all participating students reportedly enjoyed the experience. Pictured above are the tutors, first row, left to right, Shenna Rodeheaver, Heather Nugent, Melanie Beitzel, Lisa Suter, Hilarie Wampler, Seth Huber, Gary Coddington, Daniel Livengood, Tim Umbel and Anthony Frazee. In the second row, same order, are Joan Whetsell (Chapter One resource teacher), Misty Funk, Charlene Bittinger, Angela Perry, Kerry Brantner, Pebbles Perez, Donald Davis, Clinton Sisler, Darla Bittinger, J.R. Perez, Jason Artice, Laurel Wolf, Jennifer Thomas and Frani King (Chapter One assistant). In the third row, same order, are B.J. Lloyd, Roy Fazenbaker, Eric Kahl, Robin Hoover, Shane Frazee, Jason Hoff, April Enlow, Craig Frazee, Jeremy Robinson, Jeff Spear and Angela Sessa.

State Telephone Service Contract Gains Approval

Governor William Donald Schaefer has announced Board of Public Works approval of a new contract for state telephone service that will save taxpayers more than $1.8 million over the next 7 years, an annual savings of $265,510 per year.

Chaired by the governor, the board also is comprised of Comptroller Louis L. Goldstein and Treasurer Lucille Maurer. The board is empowered by the General Assembly to approve major construction and consultant contracts, equipment purchases, property transactions, and other procurement actions.

"We are continuing to move aggressively to cut operating costs in state government. The money we save can then be used to meet other critical needs throughout the state," Governor Schaefer said.

The board awarded the $13,664,196 contract to C&P Telephone Company. The contract will extend for seven years, with three annual options to renew. The estimated seven-year cost savings total $1,858,575.

Under the agreement, C&P will provide the state with Centrex, a cost-saving business service which connects agency telephone lines within a designated area with free four-digit dialing. The State of Maryland is currently C&P's largest Centrex subscriber, with more than 15,000 telephone lines on Centrex systems.

Under the new contract, the state will pay a monthly rate of $10.75 for each line equipped with a touch-tone phone, call-transfer and three-way call capability. This represents a $1.55 per line savings compared to current Centrex service. C&P uses centralized switching equipment and its local offices to offer Centrex, which is not available from any other company. The contract will cover 24 of the state's largest Centrexes in Annapolis, Baltimore, Southern and Western Maryland and the Eastern Shore.

The contract is the latest is a series of cost-reduction initiatives by the Department of General Services. On June 5, 1991, the Board of Public Works approved a contract for long distance telephone service for state agencies which will save $4.1 million over three years.

Women Urged To Receive Mammogram

The Maryland Department of Health and Mental Hygiene (DHMH) has begun a program to make mammograms, a procedure used to detect breast cancer, more accessible to women.

"More than 800 women in Maryland die of breast cancer each year," said Nelson J. Sabatini, secretary of the Maryland Department of Health and Mental Hygiene (DHMH). "DHMH is presently working to reach some of our Medicaid recipients who have not yet had a mammogram and women who haven't had one because they can't afford to pay for it."

Mammography involves an X-ray of a woman's breasts to detect tumors or lumps that may be cancerous and are many times too small to be felt manually. Major studies have shown that breast cancer deaths can be significantly reduced through the combined use of mammography and clinical breast examinations.

Effective July 1, 1991, mammography screening will be a mandated health insurance benefit in the state. Under a law passed in the 1991 General Assembly, health insurance companies in Maryland will be required to provide coverage for this service to all subscribers.

The Maryland Medical Assistance Program (Medicaid), which has covered screening mammograms for recipients since January 1, 1990, will use claims data to determine which of the program's more than 97,000 eligible female recipients have not had a mammogram according to the recommended schedule for their age. Each woman will receive a letter encouraging her to see her doctor for a mammography screening.

NHS OUTSTANDING STUDENTS - The Northern High School Outstanding Students for each grade were recently named and are pictured above. In the first row, left to right, are Kelly Friend, ninth grade; April Slagle, 11th; Cindy Graham, tenth; and Melissa Thomas, 12th. In the second row, same order, are John Hughes, 12th; Chris Wright, ninth; Chris Wachter, tenth; and Jerry Buckel, 11th. Note: This photo appeared in last week's issue of The Republican, but because of inaccurate information received from NHS, the caption contained an error in the listed names.

The role of physicians in recommending mammography screening to their patients is critical. According to a 1989 report by the DHMH Local and Family Health Administration, 84 percent of women who had a recent mammogram said their doctor recommended it. Forty-two percent of women who have had a mammogram said it was not recommended by a physician.

The most common concern cited by physicians in Maryland regarding mammography is the high cost. The Coordinated Breast Cancer Screening Program was formed by DHMH to address that issue by providing low cost mammography screening. Under this program, clients are charged $45.00 for a screening mammogram. (The cost of a mammogram in Maryland ranges from $45.00 to $150.00). If a client has third party insurance, the insurance carrier will be billed for the mammogram. Women without health insurance who are unable to pay the full $45.00 for the mammogram will be charged according to their ability to pay.

Low cost mammography screening in Maryland is available at Garrett Memorial Hospital in Oakland, Bon Secours Hospital, Harbor Hospital, Maryland General Hospital, and University of Maryland Medical Systems in Baltimore, McCready Hospital in Crisfield, Sacred Heart Hospital in Cumberland.

One in 10 women will develop breast cancer in their lifetime. Breast cancer is the second leading cause of cancer deaths among women, both in Maryland and in the nation. Of Maryland women 40 years of age and older, 62 percent have not had a mammogram in the past year. It is recommended that women 40-49 have a mammogram every 1-3 years and women 50 years and older have the procedure annually. All women should have a clinical breast examination every year and are encouraged to perform breast self-examinations once a month.

The Interdepartmental Committee on Mandated Health Insurance Benefits estimates the cost of treatment of breast cancer in an early stage at approximately $7,000. Treatment for late stage or terminal breast cancer is about $25,000. Detecting and treating breast cancer as early as possible in the course of the illness is expected to save $18,000 per person.

THE FAILURE OF BRADLEY MANOR

"It's appalling that things have gotten so bad...It's an incredible abuse of public funds."
—Former State Sen. Edward Mason, Baltimore Sun, Aug. 9, 1981

BRADLEY MANOR FACTS:

1) Opened in 1971, closed in 1985.

2) Poorly constructed modules with flat roofs.

3) Foundations built hastily in winter and in a flood plain, without proper tile and drainage.

4) Targeted housing for middle-income families became low-income slums.

5) Roofs cracked and leaked.

6) Foundations crumbled, buildings sagged.

7) Complex unattractive to middle-income families.

8) 1982 suit filed against ownership by Bradley Manor tenants for gross mismanagement and negligence.

"The time is long past for allowing this slumlord (Sarubin) to continue milking the public treasury."—Then-Commissioner Ernest J. Gregg, Jr., Cumberland Times-News, Feb. 10, 1982

Mr. Sarubin does not want to give up Bradley Manor...because he would face a **"considerable tax problem"** because of the paper losses he and his investment partners have been claiming on the project for years.

—Baltimore Sun, Aug. 9, 1981

In 1981, 1983 and 1988, efforts by local government and local citizens prevented the COSTLY renovation of Bradley Manor.

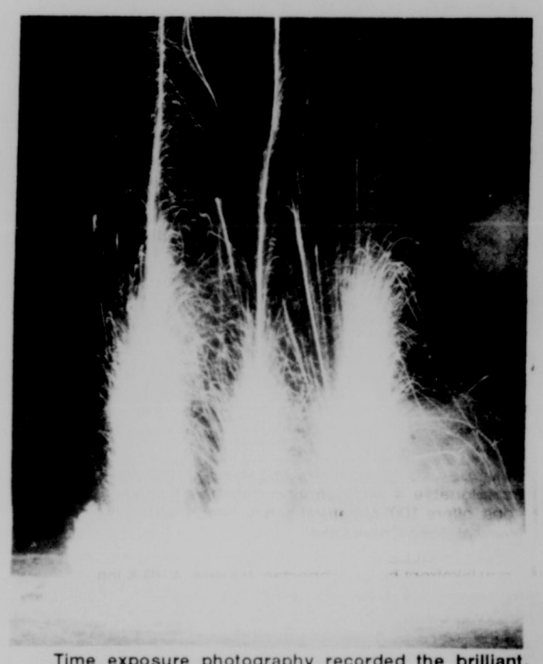
Kerri Murray, of Grantsville, is momentarily airborne during her dance routine as part of the talent show, featuring the best performers from local schools.

Even a decorated Union soldier (circa 1865), complete with his musket, paid a visit during Grantsville Days.

Who says pitching horseshoes is a man's game only? Not this lady.



Three days of 90 degree F. weather did little to deter participants of the junior tennis tournament.

Grantsville Days 1991

Perfect weather contributed to a record turnout at the annual Grantsville Days last weekend, these scenes of which were captured by photographer Craig Speicher.

After three days of unlimited candy, fun and games, it was understandable if this youngster was indeed "Spoiled Rotten," as his hat proclaimed.

Time exposure photography recorded the brilliant, ground-level explosions of pyrotechnic rockets in three consecutive launchings, seconds before each rocket delivered a second blast, in the sky. A special fireworks arrangement resembling the American flag was also visible at the town park. Although black and white photography could not capture its red and blue dazzle, the flag will be long remembered by those who witnessed it.

Horses lunged against tons of weight, and fans competed for the best viewing positions, as droves of spectators threatened to turn "Grantsville Days" into the "Grantsville Horse-pull." Above, the Warnick brothers' team, of Grantsville, churns the earth, struggling to gain just a few more inches. Results of both horse-pull and tractor-pull contests will appear in next week's Republican.

"Gunplay" broke out frequently in a series of water wars, resulting in many "victims," none of whom required medical attention.

Although most of the festival's food and beverage vendors operated inside the park, these young entrepreneurs set up a cardboard shop on Main St. and, apparently, were tempted by their own product.

Rather than honor the traditional parade marshal, this year's parade was dedicated to the armed forces of Desert Storm. The above float, displaying missiles, was donated by Allegany Ballistics Laboratory, which contributed to the development of the lauded Patriot missile.

Special College Access Package Offered By GCC

A special college access package of courses designed to make entering college easier for adults who have been out of school for a while will be offered at Garrett Community College this fall, according to Joan B. Crawford, director of enrollment development.

The combination of courses will include a special section of English 101, taught by Crawford, and a one-credit seminar in portfolio development (LS 104), taught by George McDowell, both scheduled for late afternoon and evening to accommodate those who work during the day. Although the two courses have been planned so that a student can take them together, it is possible for a student to take one without the other.

The portfolio development seminar will show students how to assemble documentation of prior learning experiences to have them evaluated for college credit. These experiences may have occurred in the workplace or in the military, with volunteer organizations, or even in the home. Students will assemble a portfolio that will then be evaluated by appropriate college faculty.

Students in English 101, who are taking the portfolio development course concurrently will have writing assignments related to the portfolio. Other students will write expository essays on subjects of interest to adults. The English 101 class will meet on Mondays from 5 to 8 p.m. The portfolio development seminar will meet at a time to be arranged by the student and the instructor.

Registration is now being taken for these and other fall semester courses at the Registrar's Office weekdays during business hours. Anyone interested in further information may call Crawford or McDowell at 387-6666.

Meeting Slated For Designated Drivers Program

The Garrett County Council on Alcohol and Drug Abuse will hold a meeting regarding a designated drivers program for restaurants and establishments serving alcoholic beverages on Wednesday, July 10, at the Silver Tree Inn.

All owners, managers, and employees are encouraged to attend this meeting to discuss several programs that are available and become acquainted with materials used in these programs. It will begin at 10 a.m.

Bob Lohr will present programs from various companies along with Elaine McDonald, who will give information on the MADD and the bartender/waitress training programs. Don Swogger will present a video and an overview of the training/educational aspects of the programs.

The Council hopes to encourage a county-wide program and will publicize any establishments with a designated driver incentive.

Anyone wishing to attend this meeting and to support the Council in promoting a successful designated drivers program for Garrett County is asked to call Bonnie Doerr at 746-8333 or Anna Bishop at 387-6678 by July 8. The Council will provide refreshments during the meeting.

Margroff-King Vows Exchanged

Wedding vows were recited September 22, 1990, by Amy Kathryn Margroff and Chad William King. The double-ring ceremony took place at St. John's Lutheran Church, Missouri Synod, Accident, with the Reverend Ernest Lindner officiating. Clifford DeWitt was organist and the vocalist was David Martin.

The bride is the daughter of Mr. and Mrs. James F. Margroff, Accident. Mr. King is the son of Mr. and Mrs. Rodney King, Deer Park.

Given in marriage by her father, the bride wore a designer gown of white satin, featuring a v-neckline in the front and back, tapered sleeves, with lace appliques and points at the wrist, a bodice of Milano lace sprinkled with sequins and pearls, a dropped waist, and a semi-cathedral train accented by lace-edged window panes with sequins and pearls. Her headpiece was a tiara of pearls with a large back pouf and cathedral length veil of imported French illusion. She carried a cascading bouquet of pink and white roses, shasta daisies and ivy.

Serving as maid of honor was Scheree Savage. Bridesmaids were Julie Robeson, cousin of the bride; Michele Clutter; Katherine Beadle; and Cinda Murray, sister of the groom. Amanda King, niece of the groom, was flower girl.

Brad King, identical twin brother of the groom, was best man. Groomsmen were Reid King, brother of the groom, Phillip Margroff, brother of the bride, Tim Buerk, and Joseph Shaffer. Matthew Margroff, nephew of the bride, served as ring bearer.

Joy Strider, cousin of the bride, attended the guest book, and Julie Strider, cousin of the bride, and Jami Broom distributed programs and birdseed packets.

The reception was held at the Grantsville American Legion and was catered by the bride's mother. The wedding cake was baked by the groom's mother and cut by the bride's aunts, Mrs. Linda Robeson and Mrs. Patricia Miller.

The bride is a graduate of Northern High School and the University of Maryland School of Medicine. She is employed at the Garrett County Memorial Hospital, Oakland, as a medical technologist. The groom is a graduate of Southern High School and served in the U.S. Air Force. He is employed at Westvaco. The couple has established residence in Deer Park.

A rehearsal dinner was hosted by the parents of the groom at Hill Top Inn, Grantsville. The bride was a guest of honor at two showers. One was hosted by her aunts, Patricia Miller and Linda Robeson, Kathy Margroff, and Linda Strider. The other was hosted by her coworkers at the hospital.

Tichnells Honored On 25th Event

Larry and Janet Tichnell, Deer Park, were honored recently with a surprise 25th wedding anniversary party at the White Church Community Building.

They were united in marriage on April 24, 1965, at the White Methodist Church, Deer Park, by Rev. James Remley. The party was given by their children, Mike, Randy, and Julia, and daughter-in-law, Lori Tichnell.

A three-tier cake was made and decorated by Julia and Lori Tichnell and friend, Salena White. The cake was served by Linda Tichnell and Judy Gordon. Also assisting at the table were Lori Tichnell, Kathy Lilly, Evelyn Wildesen, and Salena White. Guests were registered at the door by Salena White. The 25th anniversary toast was given by Doug Ellis, best man (right in picture).

The invocation was given by Rev. Kenneth Montgomery. Those from the wedding court in attendance were: Doug Ellis, best man; Sandy Nice and Harland Tichnell, ushers; Gary Tichnell, ring bearer; Judy Nice Gordon, maid of honor; and Kathy Nice Lilly, flower girl. The original wedding cake was made and served by Jeannette Steyer. The reception table was organized by Charlotte Harvey Mousch.

Clark-Lewis Couple To Wed

Mr. and Mrs. Frank Clark, Mtn. Lake Park, announce the engagement of their daughter, Mary Alice, to Jeffrey Lewis Walton, son of Mr. and Mrs. Lewis Walton, Carey, Ohio.

The bride-elect is a graduate of Highland Senior High School, Highland, Indiana, Towson State University, Baltimore, with bachelor of science in elementary education, and a master's degree in instructional technology, and is a graduate of the University of Maryland with a bachelor's degree in business management. She is employed as the dining services manager by Canteen Company at the Lima Tank Plant. She currently resides in Bluffton, Ohio.

Her fiance is a graduate of Riverdale High School, Mount Blanchard. He is employed as an electrical technician at A.O. Smith Corporation and he also farms.

The couple will exchange wedding vows, August 17, 1991, at Immanuel Lutheran Church, Lima, Ohio.

Dizziness and Vertigo Affect Millions

Many individuals believe that *dizziness* and *vertigo* are the same problem, or that dizziness is a mild form of vertigo. Actually, these are similar but different conditions. Together, dizziness and vertigo affect about 20 million Americans.

Dizziness is a symptom of many health problems and often is described as a feeling of "lightheadedness," "a giddy feeling" or "loss of contact with one's surroundings." Children under 14 rarely complain of feeling dizzy. But dizziness is one of the major reasons for physician office visits by the elderly.

Vertigo is associated with motion perception. Individuals may complain of spinning around, falling, dropping, tilting, or swaying. Vertigo results from changes that affect the vestibular system, which has to do with body balance and equilibrium. Dizziness and vertigo should *always* be evaluated by a physician. A thorough diagnosis is essential since there are so many causes for these problems. Prescription and nonprescription medicines such as antihistamines, blood vessel dilators, and scopolamine may provide relief.

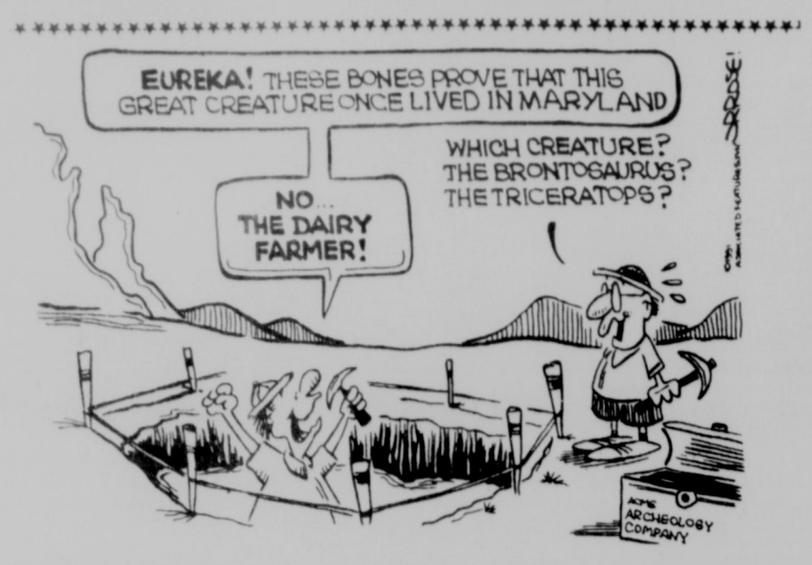
Certification Deadline Nears For 1991 Crops

All Garrett County farmers are asked to certify their 1991 crop plantings, acreage conservation reserve and other program acreages with the Garrett County Agricultural Stabilization and Conservation Service.



"Certification is the procedure by which farmers report their program acreages to establish their eligibility to receive the benefits of price support, deficiency payments and other farm program benefits," Kenneth R. Bachtel, chairperson of the Garrett County ASC Committee, said.

In Garrett County the final certification date for spring seeded program crops is July 15, 1991.

Bachtel said that growers not participating in the 1991 programs should report their acreages to establish planting history, ensure future benefits and protect crop acreage bases.

After certification, the Garrett County ASCS office will select farms at random to verify that acreage reports are accurate. Aerial photographs are available for farmers to help identify their fields.

Spring seeded crops may be certified at any time between 8 a.m. and 4:30 p.m., Monday through Friday. "We encourage farmers to certify as soon as possible after planting and not wait until the deadline date to report their acres," the ASCS official said.

State's Nutrient Management Program Ahead Of Schedule

Maryland Secretary of Agriculture Wayne A. Cawley, Jr. announced that Maryland's Chesapeake Bay nutrient management program to reduce agricultural nutrient runoff into the bay is ahead of schedule.

"As of the end of fiscal year 1991, our goal was to have nutrient management plans on 90,160 acres of Maryland cropland. I am pleased to announce that, as of the end of March, Maryland farmers have established nutrient management plans on 96,200 acres throughout the state," Cawley said.

"Reducing the amount of animal wastes, fertilizers and sludge that find their way into our streams is crucial in our continuing effort to restore the Chesapeake Bay. And with these plans, farmers are taking action to make this happen. I cannot over-emphasize the importance of these nutrient management plans," said Cawley.

Maryland's nutrient management program, a cooperative effort between the Maryland Department of Agriculture and the Cooperative Extension Service, is only in its second year of operation.

"We are ahead of our objectives. Our overall goal in Maryland is to reduce nutrient loads entering the Chesapeake by 40 percent in the year 2000. From the agricultural side, we hope to do even better. We definitely have made a good start and we intend to keep the momentum going," Cawley said.

Using soil tests and manure analyses, farmers have been better able to plan their fertilizer needs.

"Wise nutrient management makes both environmental and economic sense. We have found that nutrient management can translate into an average savings to the farmer in fertilizer costs of $23 per acre while reducing nitrogen inputs by 33 pounds per acre and lowering phosphorus loads by 53 pounds per acre," said Cawley.

Ag Engineers Address Needs of Farmers

The extent of agriculture's impact on the environment is not clear, according to Robert C. Lanphier III, president of the American Society of Agricultural Engineers.

Nevertheless, the general public often perceives agriculture as the villain when it comes to environmental contamination, especially that involving water quality. And publicly or privately, members of the agricultural community agree that agriculture does have some adverse effects on the environment. They're also working hard to minimize those effects.

"Farmers do a very good job with what they're given to work with," says Lanphier. "They are willing to try new ideas. . . as long as they're economically as well as environmentally sound."

It is the responsibility of researchers, including agricultural engineers, he adds, to develop new technologies that benefit both the farmer and the environment.

Agricultural engineers with the Maryland Agricultural Experiment Station and the Cooperative Extension Service University of Maryland System are doing just that. They are investigating ways to reduce agriculture's impact on human health and Maryland's valuable natural resources, including the Chesapeake Bay — without making farming unprofitable. Some examples of their efforts in this area are:

Computer-assisted nutrient management: Herbert Brodie is developing computer programs to improve agricultural producers' ability to manage animal wastes and municipal sludges. His goal is to help farmers maximize the nutrient benefits from wastes while minimizing negative environmental impacts.

Geographic Information Systems for Resource Management: Blending the latest computer science and natural resource management technologies, Dr. William Magette is developing computer-based decision support systems that will help farmers and resources managers control land-use activities for maximum environmental protection at least cost. In the future, these systems will incorporate the use of satellites that are part of the nation's strategic defense system.

Pollution reduction through computer modeling: Dr. Adel Shirmohammadi is using current environmental research to improve existing computer models — and develop new ones — to simulate the natural environment. These models can then be used to predict the movement of agricultural pollutants and the effectiveness of different managerial control techniques. The models could play an important role in Chesapeake Bay cleanup efforts.

Pesticide safety equipment: By combining bioengineering and biomedical principles, Dr. Arthur Johnson is developing more effective masks for people who need respiratory protection, including those who apply pesticides. He also is conducting research on the engineering principles that govern human and animal physical responses to environmental stimuli.

Computer control of water quality in aquaculture. Dr. Fred Wheaton is developing sensors and control systems to automatically control the quality of water used for closed-cycle fish production systems. He also is exploring techniques for removing potentially hazardous environmental materials in wastewater generated by aquacultural facilities.

While these projects are only a few of those being conducted by Extension and Experiment Station agricultural engineers, they demonsrate that the profession is heeding Lanphier's advice to "be forward thinking, to look down the road 5 to 15 years," and is working today to anticipate and address the health and environmental problems of tomorrow.

Bruceton Ag Service-Fratz Division To Hold Election Of Local Board

Highlights of the annual membership meeting for Bruceton Ag Service-Frat Division will be the election of local board and Farm Home Advisory Committee members, along with operations reports, which will be presented at 7:30 p.m., Tuesday, July 16, at the Bittinger Fire Hall, Bittinger.

In keeping with this year's theme, "Cultivating Innovation," the local planning group has tried to be innovative in developing ideas and features for the meeting.

The Southern States district manager will present a taped report from President and Chief Executive Officer Gene A. James, discussing the Southern States Co-op's supply and marketing operations for the most recent fiscal year.

Local operating statements and services rendered to agriculture in the community will be discussed and there will be a special recognition ceremony for local board and FHAC members who retire this year.

Nominees for election to the local board are the following: Byard Beitzel, Randy Lacy and Delmar Yoder. FHAC nominees are: Mabel Kahl, Donna Knox and Carla Miller.

Since its founding 68 years ago, "Southern States Cooperative has been innovative in the agriculture industry, and it continues to introduce new products and services to improve the livelihood of farmers," says Carroll Gilbert, the co-op's director of member and institutional relations.

According to Gilbert, the cooperative's strides and aims are reflected in the theme selected for this year's annual meeting: "Cultivating Innovation."

Livestock Art Show Planned

"The Art of American Livestock Breeding," an exhibit of 50 paintings opens Sept. 13 at the National Agricultural Library in Beltsville, and runs through the month of October.

Sponsored by the American Minor Breeds Conservancy, the exhibit includes paintings of cattle, horses, sheep, swine and poultry.

Many are portraits of top-performing animals. They have been loaned from the collections of farm collectors in the United States and England.

The exhibit will travel across the country until August 1992. It will appear at Penn State, Michigan State University, the Washington County Museum of Fine Arts in Hagerstown, and the Carnegie Museum of Natural History in Pittsburgh.

For more information, contact the American Minor Breeds Conservancy in Pittsboro, N.C., at (919) 542-5704.

Phosphate/Soil Study Complete

Phosphate fertilizers represent highly available phosphorus sources for crops.

However, when applied to the soil, they react with soil iron, aluminum, and calcium compounds to form compounds that are less water soluble and slowly available to plants.

The speed at which these undesirable reactions occur is a function of soil pH, clay content, and concentrations of iron, aluminum, and calcium.

According to Dr. Bob Thompson, Potash & Phosphate Institute (PPI) midsouth director, differences in efficiency and availability of various commercial phosphate fertilizers are small. Movement of all phosphate fertilizers in soil water is extremely limited. Because of the quick attachment of phosphate fertilizers to soil particles, erosion is a more serious threat to phosphorus losses than is leaching.

Best phosphate fertilizer use efficiency occurs when phosphorus is concentrated in soil bands, usually close to the seed at the time of planting, on soils testing low or very low in available phosphorus, but not on soils testing medium or higher, where efficiency from broadcasting might be greater.

Dr. Larry Sanders, PPI Great Plains and southwest director, notes that three years of recent field studies in Kansas have provided good evidence of the importance of starter phosphorus for grain sorghum on acid, low phosphorus testing soils.

Dr. Ray Lamond and Dr. David Whitney of Kansas State University banded varying rates of a 7-21-7 liquid fertilizer in direct seed contact for grain sorghum. Yields were increased an average of 21 to 27 bushels per acre — yield increases that were comparable to wheat and corn under similar conditions.

Phosphorus "best management practices" for crops include building phosphorus soil tests to a high level, then applying maintenance applications by an easy and inexpensive method. University research has shown that high phosphorus availability is one of the critical components for high crop yields and profits.

MDA Receives Market Grant

Maryland Secretary of Agriculture Wayne A. Cawley, Jr. announced that his department has received a $30,000 grant to complete a fresh produce marketing study in cooperation with the University of Maryland. The award was made by the Agricultural Marketing Service of the United States Department of Agriculture.

"One of our major goals in Maryland is to provide more access to farmers to sell their produce directly to the consumer. This grant will help us to continue to expand market possibilities for farmers in the regions of the state with the most need and the most potential for success," said Cawley.

In 1991, the Maryland Department of Agriculture has acted as the lead developer for seven new farmers' markets in eight locations across the state. In addition it has assisted groups with the development of two other markets.

The new farmers' markets opening this summer are the Allegany Farmers' Market in Cumberland, the Washington County Farmers' Market in Hagerstown, the Everedy Square and Shab Row Market in Frederick, the Highlandtown Market in Baltimore, the Owings Mills Market in Baltimore County, the Prince George's Plaza Market in Hyattsville, the Queenstown Shore Fresh Market on routes 301 and 50, the Salisbury Shore Fresh Market in Salisbury Mall, and two markets in Ocean City.

Attention: Mr. Albert Tang

All Bids must be made on the required Bid form. All blank spaces for Bid prices must be filled in, in ink or typewritten, and the Bid form must be fully completed and executed when submitted.

The Owner reserves the right to waive any informalities or minor defects, to reject any and all Bids. Any Bid may be withdrawn prior to the above scheduled time for the opening of Bids or authorized postponement thereof. Any Bid received after the time and date specified will not be considered. No Bidder may withdraw a Bid within 90 days after the actual date of the opening thereof. Should there be reasons why the Contract cannot be awarded within the specified period, the time may be extended by mutual agreement between the Owner and the Bidder.

Bidders must satisfy themselves of the scope of work by examination of the site and a review of the Contract Document including Addenda. After Bids have been submitted the Bidder shall not assert that there was a misunderstanding concerning the quantities of work or of the nature of the work to be done.

The Contract Documents contain the provisions required for the work included in the Project. Information obtained from an officer, agent or employee of the Owner or any other person shall not affect the risks or obligations assumed by the Contractor or relieve him from fulfilling any of the conditions of the Contract.

Bid Security

An acceptable Bid Bond, payable to the Owner, in the amount of five percent of the total bid must accompany each Bid. A certified check, in the amount of five percent of the total bid, drawn on a solvent bank chartered in the State of Maryland, and payable to the Owner, may be substituted for the Bid Bond.

Attorneys-in-fact who sign Bid Bonds, Performance Bonds, Payment Bonds, or Defective Materials, Workmanship and Equipment Bonds must file with each Bond, a certified and effective dated copy of their power of attorney.

The Bid Bonds of all bidders, except the bonds submitted with the three (3) lowest acceptable bids, will be returned within a fifteen (15) day period following the time of opening of the bids. The Bid Bonds accompanying the three lowest acceptable bids will be returned after the Contract has been awarded to and executed by the successful bidder. Provided the Owner, for any reason whatsoever, determines that it is not in its best interest to award a Contract, the Contract award will not be made by the Owner and the Owner will not then be liable for any payments whatsoever to the Bidder. Extension of time beyond the ninety (90) day period of the award may be made only by mutual agreement between the Owner, the Bidder and Bidder's Surety.

The party to whom the Contract is awarded will be required to execute the Agreement and obtain the required Bonds within ten (10) calendar days from the date of Notice of Award is delivered to the Bidder. The Notice of Award will be accompanied by the necessary Agreement and Bond forms. In case of failure of the Bidder to execute the Agreement, the Owner may, at his option, consider the Bidder in default, in which case the Bid Bond accompanying the proposal shall become the property of the Owner.

The Owner within fourteen (14) days of receipt of acceptable Bonds and Agreement signed by the party to whom the Contract was awarded, will sign the Agreement and return to such party an executed duplicate of the Agreement. Should the Owner not execute the Agreement within such period, the Bidder may, by Written Notice, withdraw his signed Agreement. Such notice of withdrawal shall be effective upon receipt of notice by the Owner.

A conditional or qualified Bid will not be accepted.

Award will be made by the Owner to the lowest responsive and responsible bidder.

All applicable laws, ordinances and the rules and regulations of all authorities having jurisdiction over the work shall apply to the Contract throughout.

Nondiscrimination of Employment

BIDDERS ON THIS WORK WILL BE REQUIRED TO COMPLY WITH THE PRESIDENT'S EXECUTIVE ORDER NO. 11246, THE REQUIREMENTS FOR BIDDERS AND CONTRACTORS UNDER THIS ORDER ARE EXPLAINED IN THE SPECIFICATIONS AND IN 41 CFR 60.4.

The certification provides that the bidder or offeror does not maintain or provide for his employees facilities which are segregated on a basis of race, creed, color, or national origin, whether such facilities are segregated by directive or on a defacto basis. The certification also provides that he will not maintain such segregated facilities. Failure of a bidder or offeror to agree to the Certification of Nonsegregated Facilities will render his bid or offer non responsive to the terms of solicitations involving awards or contracts exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause.

The attention of prospective bidders is directed to the Agreement Section of the Contract, wherein the requirements for compliance with certain Federal Laws and Regulations on this project are specifically set forth. Among the requirements are those pertaining to non-discrimination in employment.

Any contract awarded under this invitation to bid is expected to be funded in part by a grant from the Department of Housing and Urban Development (HUD). Neither the United States nor any of its departments, agencies or employees is or will be a party to this invitation to bid or any resulting contract. The Contractor will not be permitted to work at the project site for the ninety (90) consecutive calendar days commencing December 15 and ending March 14.

Award of Contract

The award of any contract will be made by the Owner.

Bidders are cautioned that bids that are deemed by the Engineer to be obviously unbalanced may be rejected by the Owner.

The Owner reserves the right to reject any proposal for failure to comply with all requirements of this notice for of any of the Contract Documents; however, it may waive any minor defects or informalities at its discretion.

The Owner further reserves the right to reject all proposals, or to award a contract or contracts which in its judgement is in the best interest of the Owner.

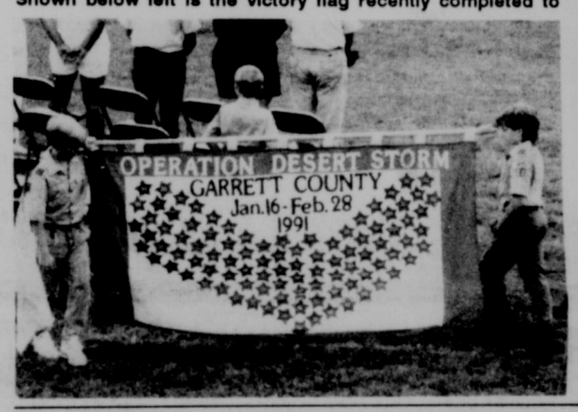
Bishoff Elected Md. Hospital Assoc. Treasurer

Joyce Bishoff, Friendsville, a Garrett County businesswoman and chairman of the board of governors of Garrett County Memorial Hospital, has been elected treasurer of the Maryland Hospital Association.

Mrs. Bishoff also will serve on MHA's executive council. Her selection came June 6 at the organization's annual meeting in Baltimore. It marks her return to the group's leadership ranks. She was on the executive council from 1986 to 1989 as one of its first councilors-at-large. Mrs. Bishoff also was a member of a special MHA task force this past year which studied the issue of substance abuse in the health care work-place and made a wide-ranging series of recommendations to hospitals.

She has been a trustee of Garrett County Memorial Hospital for nearly 14 years. She is the owner of Hoyes Bakery and, with her husband, operates a dairy farm and milk delivery firm in Hoyes. Mrs. Bishoff is a former member of the Garrett Planning Commission and state director of the women's committee of the Maryland Farm Bureau.



"Mrs. Bishoff has been an articulate and caring voice at the state level for the concerns of Western Maryland hospitals and the patients they serve," said MHA Board Chairman Moorhead Vermilye. "As an officer of the organization, she will be in the forefront as hospitals deal with a variety of complex issues, particularly with the state legislature."

The Maryland Hospital Association is a nonprofit, nongovernment organization established more than 20 years ago as a forum for communications and cooperation among the state's community acute care, special and veterans' hospitals. It is the only state hospital group in America with governing body comprised of trustees -- the citizen volun-

THE FOURTH CELEBRATED IN STYLE - Over the July 4th holiday, numerous Garrett Countians enthusiastically celebrated our country's liberty and recognized those who have kept it free. Pictured above at the Southern High football field, receiving a plaque of recognition and thanks, is Richard Maroney, one of the county's few surviving veterans of World War I. All veterans of the area were recognized at that event, including the most recent soldiers of Operation Desert Storm. Shown below left is the victory flag recently completed to honor those soldiers. The flag was carried by boy scouts Justin Helbig and David Peterson. Uncle Sam himself appeared at Broadford Lake and is shown below right, handing out American flags to all the revelers.

Schedule Announced For 35th Garrett County Fair

The entry fee for the 35th Garrett County Fair, to be held August 11 through 17 at the fairgrounds in McHenry, will be a "pay-one-price" of $5. This fee permits fair-goers to park, watch entertainment on the stage and at the race track, and enjoy the rides on the midway. Weekly passes will also be on sale. This pass will allow six entries to the fair for $15. These passes do not include rides on the midway, but do include all other features of the fair.

The seven-day event will begin at 3 p.m. Sunday, August 11, with the 4-H Fashion Revue. At 7 p.m. the Interdenominational Vesper Service will begin, followed by the crowning of the 1991 Garrett County Farm Queen.

Monday, August 12, is set-up day for commercial displays and entering and placing livestock. Gambills Amusements will begin on the midway with rides open from 1 to 5 p.m. and again from 6 to 11 p.m. A demolition derby, sponsored by the Deep Creek Firemen, will begin at 7 p.m., and at the same time, the comedy team, Disorderly Conduct, will perform on the stage.

Tuesday's features will be the stock tractor pulls. The lightweight pull will begin at 1 p.m. and the heavy-weight pull will begin at 7 p.m. On stage at 8 p.m. will be a one-man musical show with John Bristler.

Children's Day will be Wednesday with a pet show and baby crawl. Parents may register their non-walking with Helen Glotfelty, 387-6910. The modified tractor pull will begin at 7 p.m., and on stage, Cissie Lynn, "The Coal Miner's Daughter's" daughter, will perform at 8 p.m.

Farmers' Day will be held on Thursday, August 15, with a parade beginning at 7 p.m. Those interested in entering the 4-wheel-drive pickup pull, should call Lillian Reckner at 387-5277 to register. The stage that night will be occupied by Nancy Wiles with music from Jamboree USA.

Senior citizens will be honored on Friday, August 16, with free entry until 5 p.m. by showing their card. Another demolition derby will be featured at the race track that night, and The Cashman Quartet gospel group, will perform on stage.

Closing out the fair on Saturday night, August 17, will be a wood cutting contest at 1 p.m., a 4-wheel-drive mud bog on the

Commissioners Hear Request To Rethink Glendale Bridge Project

Swanton resident, Ed King, representing the Deep Creek Lake Property Owners' Association, and other local organizations, met with the Garrett County Commissioners this week for a two-fold purpose -- to again request that the Glendale Bridge be constructed on a new alignment and to suggest that the "architectural theme" of Glendale Shores (already under construction on the west side of the bridge on Glendale Road) not be compromised by the construction of a "high-rise tower as the third building.

King was referring to the recent request by the county commissioners to the developers of Glendale Shores that they go to the Board of Zoning Appeals seeking a special exception in order to construct a five-story building instead of a two and one-half story building. The reason for this, said King, is to "eliminate land acquisition costs for damages."

He explained that the county must acquire the right-of-way to property located on either side of the bridge, but, he said, the costs involved in the construction of the bridge on the old alignment as opposed to the costs for the new alignment bridge

DCL-GC Promotion Council Reports Tourism Increase

"Judging from the number of visitors to the Youghiogheny Overlook Information Center, located on Rt. 48, and from the Deep Creek Lake Information Booth, located on Rt. 219, this year's Fourth of July weekend in Garrett county was a huge success," stated Diane Wolfe, executive director of the Deep Creek Lake-Garrett County Promotion Council.

According to the council, the Youghiogheny Overlook Information Center provided information to 4,307 visitors over the holiday weekend, and 720 visitors were provided with information at the Deep Creek Lake Information Booth.

This information came from the promotion council following the recent report to the Garrett County Commissioners that the agency had sent out, on request, more tourist information packets as of June 30 than were mailed out all of last year. "The number of requests has seen a tremendous increase," stated Wolfe.

She elaborated that over 24,000 information packets had been mailed as of that

Education Board Reduces GT Program Despite Wishes Of 70+ Protestors

After over three hours of waiting to speak with members of the Garrett County Board of Education Tuesday, approximately 65 persons voiced their wish that the board maintain the elementary gifted and talented program. The program was one of several choices the board had in cutting fiscal year 1992's budget by 14%, as previously requested by the Garrett County Commissioners.

Despite the desires of the parents and teachers, however, the board's final decision - which came at 10:30 p.m. - was to cut two of the four gifted and talented elementary teachers, which basically cuts the program in half. The two teachers will be re-located in current vacancies in the elementary system, Dr. Jerome Ryscavage, superintendent of schools, explained. The money retained will be approximately $70,000.

One stipulation of the removal of the two teachers concerns possible funding from the Environmental Protection Agency (EPA). Ryscavage is currently attempting to obtain monies in the amount of approximately $135,000 from the agency to aid the education board in paying asbestos removal costs incurred at Southern High School. If he is successful in obtaining the funding, he explained that the two teachers would be retained in the GT program. He has written letters to Senator Barbara Mikulski and Congresswoman Beverly Byron, and has received word that some investigation into the problem is being done.

Other cuts and the money retained from them included cutting three special education teachers and re-locating two of them into the regular classroom (one teacher of the three has resigned) at $97,224; the non-replacement of a long-term elementary substitute with a sabbatical returnee at $28,250; the non-replacement of a custodian at Southern High School (but because of the larger square footage of the high school, a custodian will be transferred there from Southern Middle School, thus the middle school will have one fewer custodian) at $17,500; and the non-replacement of a maintenance foreman at $36,000.

Monies in the amount of approximately $20,357 will be gained through the recent resignation of Charleen Evans-Thomas, supervisor of Chapter I. Ms. Evans-Thomas's salary was paid by Chapter I funding, and as several of her responsibilities will be now given to Brenda McCartney, director of elementary education, one third of her salary ($20,357) will continue to be provided to the education system as work in Chapter I will also continue. When asked if Dr. McCartney would receive a raise for the extra duties, Ryscavage stated that she would not.

The further cuts made were those previously listed as "priorities" by the board members. These cuts are as

Grantsville Man Charged In Homicide of Baltimore Man

A July 4 shooting has resulted in a Grantsville man being charged for the death of a Baltimore man, according to reports filed by the Maryland State Police, McHenry Detachment.

Terry Lee Beitzel, 36, Grantsville, was arrested Friday morning following a nearly 12-hour manhunt by local law officials. Beitzel turned himself over to authorities without incident.

The shooting victim has been identified as Myron J. Ilcztyn, 37, who died of a single gunshot wound to the chest at 12:37 a.m. Friday at Memorial Hospital, Cumberland. He had been transported there by the Northern Garrett County Rescue Squad.

Beitzel was arrested at about 9:40 a.m. Friday after he walked from a wooded area of the north branch of the Casselman River on the Durst Road. Maryland State Police and the K-9 Unit, along with the Garrett County Sheriff's Department participated in the search for Beitzel. They were conducting house-to-house interviews when the suspect turned himself in.

Investigating officer, Tfc. R.J. Resh said Beitzel was charged with first-degree murder, second-degree murder, manslaughter, reckless endangerment, and battery.

Beitzel was taken to Garrett County Memorial Hosptial, Oakland, where he was treated for injuries sus-

Commissioners Vote To Pursue Grant Funding For Wisp Resort

The Garrett County Commissioners, in a 2-1 vote, decided recently to hold a public hearing regarding the possibility of seeking block grant funds to assist Recreational Industries, Inc., owner of the Wisp Ski Resort in McHenry, and to retain the permanent jobs provided by the business in the area.

Present at the meeting, along with Jones, were Garrett County Development Corporation President Ralph Burnett, realtor R.T. Thayer, District 1-A Delegate George C. Edwards and business owner Helmuth Heise. The group presented the proposal following the recent news that the Bank of Baltimore had requested a judgement be placed against Recreational Industries, Inc. in the amount of $7,000,000.

The hearing is set to be held Tuesday, July 23, at 1 p.m., according to Jones, who emphasized that the move to apply for the grant would only be taken "if the approach is a permanent -- not a band-aid -- fix."

He added that the request for funds would be part of a larger Community Development Block Grant that deals with retaining or adding low- or moderate-income jobs to an area. He noted that the business plan has not been completed yet, and that the grant, if awarded, would be dependent on certain ratio factors between the business and the local economy.

Jones also explained that the county would obtain the grant monies, which would then be administered by the Department of Economic Development. That department would then loan the money to Recreational Industries, Inc.

Twenty condominium units at the Wisp hotel would be held in collateral, according to Robert Fousek, county administrator. He added that, as the loan would be repaid, the grant funds would be "segregated and utilized for similar programs in the future."

HOUSE RAISIN' - Olen and Ada Beachy will soon be the occupants of this new house that is being built near Grantsville by the Garrett County Chapter of Habitat for Humanity. A group of 11 men from Hartville, Ohio, assisted by several local volunteers, raised the house from the floor to roof, built partitions, installed all windows and doors, and ended the day by installing siding on a portion of the house. Don Little, Habitat supervisor, made sure that the rafters, joists, shingles, siding, and other needed materials were on hand for the visiting workmen. The days preceding the house raising, a group of Presbyterian youth had nailed down the floor. The Beachy couple and their three children hope to move into the new house before Thanksgiving.

Two Injured In Saturday Crash Near McHenry

Two women received minor injuries Saturday afternoon when the car in which they were traveling struck another vehicle at the intersection of Deep Creek Drive and the Sang Run Road, according to reports filed by the Maryland State Police.

Shirley Ann Diehl, 71, Mount Savage, apparently lost consciousness while driving her 1985 Chrysler north on Deep Creek Drive. Police said her vehicle entered the intersection and struck a 1984 Chevrolet Suburban, operated by Nancy Joe Fratz, 30, Accident, causing the Fratz vehicle to flip over and come to rest on its side.

Diehl and her two passengers, Maria Guillion, 21, and Hannah Guillion, age 9 months, were taken by the Northern Garrett County Rescue Squad to Garrett County Memorial Hospital where the two women were treated and released. The infant was not injured because she was in a child safety seat, said police.

Those in the Fratz vehicle, which included three children, were also not injured because they were wearing safety belts, according to police.

Tfc. W.E. Dixon investigated and charged Diehl with failure to yield right of way at a stop sign.

DWI ARRESTS

Seven persons were cited by the Maryland State Police over the July 4 weekend for driving while under the influence of alcohol and/or drugs, according to a McHenry Barrack spokesman.

Timothy Roach, 30, no address given by police, was apprehended July 4 and charged with DWI by Tpr. S.W. Vincent.

Roland Bonner, 34, no address given, was charged with DWI by Tpr. Vincent on July 4.

William Anderson, 34, no address given, was cited for DWI on July 6 by Tfc. D.W. Broadwater.

Tpr. S.H. Anderson arrested Matthew Lucas, 19, no address given, on July 6 and charged him with DWI.

A DWI charge was filed against Kenneth Horton, 49, no address given, by Tpr. Vincent on July 7.

Peter Lee, 36, no address given, was charged with DWI on July 7 by Tpr. Anderson.

Michael Parker, 21, no address given, was charged with DWI by Tpr. Vincent on July 7.

State police at McHenry also helped process three DWI cases filed by the Department of Natural Resources this past weekend. They noted that two were arrested for drunk driving on the water, while one was apprehended by a park ranger.

Efforts are stepped up by all police during the summer season to stop drunk drivers on the roads and on the waterways to ensure the safety of the general public.

VEHICLE OVERTURNS -- All the passengers in this overturned 1984 Chevrolet Suburban, operated by Nancy J. Fratz, Accident, were not injured because they were in car safety seats or were wearing seat belts, according to the Maryland State Police. The Fratz vehicle overturned after being struck by a 1985 Chrysler being operated by Shirley A. Diehl, 71, Mt. Savage, who reportedly lost consciousness while driving north on Deep Creek Drive. The vehicles collided at the Sang Run Road intersection. A 9-month-old infant in the Diehl vehicle was spared injury also because of being restrained in a safety seat. Diehl and her other passenger, Maria Guillion, 21, were both treated for minor injuries at Garrett County Memorial Hospital after being transported by the Northern Garrett County Rescue Squad. Oakland Police Arrest Seven For Underage Drinking

The Oakland City Police Department recently arrested seven persons for underage drinking, four of them being juveniles. One of the juveniles was charged three times in a six-day period.

A 16-year-old male juvenile from Oakland was charged with underage drinking by Cpl. Ernest Alexander on June 28 at Broadford Lake and again on July 4 in Oakland. That same day, the juvenile was also charged by the Garrett County Sheriff's Department.

Jeremy S. DeWitt, 19; Jeffrey Maddocks, 19; and Christopher Arnold, 19; all from Oakland; and three male juveniles, aged 15, 16, and 17; were all charged with underage drinking by Pfc. Shawn Groves on June 29 on Liberty Street in Oakland.

In other Oakland City Police news, Debra A. Hinebaugh, 34, Oakland, was charged with assault and battery and malicious destruction of property. Pfc. Shawn Groves noted that the charges were brought by Constance Cross, Oakland, stemming from a July 2 incident.

Paul T. Everly, 23, Oakland, was charged with driving on a revoked license on July 3 in Oakland. The arrest was made by Cpl. Ernest Alexander.

Donald G. Dunlap, 43, Jeffrey, W.Va., was charged with driving while revoked by Cpl. Alexander on July 4 in Oakland.

Sgt. Roger Lewis served criminal summonses on Carolyn Cogley, 40, and Tonya Hook, 19, both of Oakland, after trespassing charges were filed by Tammy L. Friend, 22, Oakland. The incident occurred on Monday.

Unemployment Up In State, Down In County

Employment in Maryland in May increased for the fourth consecutive month. However, seasonal increases in job seekers, including the initial influx of students and other summer workers, caused the unemployment rate to inch up to 5.8 percent in May, from 5.6 percent in April, according to statistics released by the Maryland Department of Economic and Employment Development (DEED).

Garrett County jobless rate dropped, however, from 10.4 percent in April to 9.7 percent in May. The May 1990 rate was 6.8 percent.

"The increase in job seekers and employment is evidence of a strengthening economy in Maryland," said DEED Secretary J. Randall Evans. "We are looking forward to continued improvements as seasonal conditions allow more job opportunities to develop."

Unemployment in the nation during May also grew slightly to 6.6 percent from April's 6.5 percent rate.

In Maryland during the month, more than 9,000 job seekers joined the labor force as employment grew by 2,300 people to total 2,394,929. However, the number of unemployed workers also grew by an additional 6,600 persons.

Also during May, jobless workers filing for unemployment insurance benefits dropped to 54,033 from April's 60,656.

For those looking for work in May, 12,100 more jobs were noted primarily in the trade, services and construction industries. Hiring was evident at eating and drinking establishments, general merchandise and building and garden stores. Hiring activity also grew in hotels, amusements, agricultural services and construction.

In the Baltimore metropolitan area, the only region to show an employment decline, the jobless rate rose from 6.2 percent to 6.6 percent. Layoffs in health and manufacturing industries and at colleges and universities contributed to the decline. The unemployment rate grew in Baltimore City from 8.6 percent in April to 9.5 percent in May. In Carroll, Harford and Queen Anne's counties, unemployment rates declined.

In Maryland's D.C. suburbs, local employers were unable to absorb the additional 4,700 seekers who entered the labor force between April and May, causing the unemployment rate to rise from 4.0 percent to 4.4 percent.

Unemployment in Western Maryland remained steady at 8.7 percent in May. However, in Washington County, manufacturing layoffs added workers to the jobless rolls, raising the county's rate from April's 7.9 percent to 8.1 percent in May.

On the Eastern Shore and in Southern Maryland, employment increased by nearly 2,700 people, lowering joblessness in the region by more than a full percentage point to 7.1 percent in May. Seasonal recalls of workers in food processing contributed to the lower unemployment rate as did hiring at tourism-related businesses.

Locally, estimated unemployment rates in May ranged from a low of 3.3 percent in Montgomery County to a high of 11.1 percent in Somerset County, where the rate fell from April's 12.5 percent.

GCSO Arrests Two Men For CDS Violations

William H. Thoman, 18, McHenry, was arrested by Dep. J. Murphy of the Garrett County's Sheriff's Office Tuesday for possession of a controlled dangerous substance. Thoman was reportedly stopped on Rt. 219 North when he failed to dim his headlights to oncoming traffic.

After stopping the defendant, Murphy detected the odor of alcohol and proceeded to do a pat-down search. The officer then located a small pipe in Thoman's pocket which contained suspected marijuana residue.

Thoman was then charged with possession of a controlled dangerous substance and possession of drug paraphernalia. He was incarcerated in the Garrett County Jail after the 1:15 a.m. arrest.

Joseph C. DeWitt, 37, Oakland, was charged with DWI and possession of a controlled dangerous substance on Friday. DeWitt was operating his vehicle erratically when Murphy stopped him on Rt. 135 in Deer Park. During a pat-down search of the defendant, the officer found a small pipe containing suspected marijuana residue.

DeWitt was incarcerated after the 1:30 a.m. arrest.

In other Sheriff's Office news, Larry L. Sweitzer, 25, Deer Park, was arrested Saturday for driving while intoxicated (DWI) and fleeing and eluding an officer of the law.

Murphy reportedly observed Sweitzer cross the center line on Weber Road, and then locked up his vehicle's tires and skidded sideways in the road. The officer then attempted to stop the defendant, who drove across Rt. 135 into the parking lot of The Short Stop, skidded, and spun around again.

Sweitzer then drove into the Amoco Station parking lot, where the officer effected the arrest. The defendant was incarcerated after the 12:20 a.m. incident.

John H. Miller, 28, Friendsville, was arrested on the strength of a warrant on July 3. Miller was charged with battery against Gerri Powell, Friendsville, which apparently occurred on the evening of June 28 in Friendsville. There were no further details about the incident.

Donald E. Streets, 38, Elk Garden, W.Va., was charged with DWI Sunday after he was stopped on Rt. 135 in Deer Park for a traffic violation. He was incarcerated after the 1:10 a.m. arrest.

Melvin D. Davis Jr., 24, Deer Park, was operating his vehicle in an erratic manner on Rt. 560 in Deer Park when Dep. Murphy stopped him. He was then charged with DWI, signed the citation, and was released into the custody of a sober companion.

Frederick C. Sims, 55, Romney, W.Va., was arrested for DWI on July 4 after being stopped for speeding. The arrest took place at 11:45 p.m. on Rt. 135 in Deer Park. Sims was released into the custody of a sober companion after signing the citation.

Fredolen L. Wolf III, 27, Oakland, was charged with DWI on July 4. Wolf was apparently driving erratically on Rt. 135 in Deer Park when Murphy stopped him and made the arrest. After signing the citation, the officer took the defendant home.

Melissa D. DiSimone, 19, Oakland, was arrested for DWI on July 4 at 2:45 a.m. The arrest took place on Deep Creek Drive, and was effected by Murphy. The defendant signed the citation and was taken home by the officer.

Jeffrey C. Bell, 37, Oakland, was arrested on the strength of a bench warrant charging him with violation of probation. Bell's original charge was DWI, according to the report. He was served the bench warrant on July 2.

tained Thursday afternoon in an altercation with the victim.

The suspect appeared before District Court Commissioners Douglas E. Buckley Friday and was held without bond until a bond hearing Monday morning.

Garrett County District Court Judge Jack R. Turney set Beitzel's bond at $100,000, 100 percent cash at Monday's hearing.

Police said the shooting is believed to have taken place shortly after 11 p.m. on the Bill Beitzel Road near Grantsville. Beitzel allegedly shot Ilcztyn in front of the Beverly Jones residence. Jones is the sister of Beitzel and was a friend of Ilcztyn. The victim was found outside the mobile home of Jones in a pool of blood, according to police.

Shortly after Beitzel was apprehended, police found the .30-30 caliber rifle, believed to be the murder weapon, in the north branch of the Casselman River.

One source indicated that immediately following the shooting, Beitzel obtained a ride from a neighbor to the Amish road. Beitzel allegedly recounted the shooting to his neighbor and left the vehicle, fleeing on foot.

Another source said Beitzel had been drinking at the time of the altercation on Thursday afternoon with Ilcztyn. Beitzel allegedly then cut the electric and gas lines at his sister's mobile home. He allegedly told Ilcztyn not to come onto his sister's property and when Ilcztyn ignored him, he allegedly shot him. Police said the shooting was not close range and that there were no witnesses to the shooting.

will not prove to be significantly different.

Following the motion by Commissioner Elwood L. Groves II during the last Garrett County Planning Commission meeting that the high-rise alternative be endorsed, the commission has since sent a letter to the Board of Zoning Appeals in favor of granting the special exception for the high-rise building.

King told the county commissioners that he felt the Deep Creek Lake resort area "should have better than a second-class bridge," adding, "The developers of Glendale Shores should not have to compromise the architectural integrity of the development just to help the county commissioners with land acquisition."

The hearing by the Board of Zoning Appeals will be held this evening, at 7:30 p.m., in Rm. 304 (Planning Commission meeting room), of the Garrett Count Courthouse. During that time, the appeal of Ron Marc to implement a "paint ball" course along Sand Flat Road will also be heard by the board.

date, compared to approximately 22,000 sent in 1990. As a result of the increase in advertising of the region last year, as well as the dry, warm weather this year, this summer's tourist season "has been very successful," said Wolfe.

Wolfe also reported a 44 percent increase in the number of requests made by tourists over the Memorial Day weekend at the Deep Creek Lake Information Booth. She added that the annual Indian Pow Wow event, held at the Garrett County Fairgrounds this past weekend, experienced a large turnout.

The promotion council is currently working on additional regional promotions and travel shows, as well as reprinting the Western Maryland color brochure. The Garrett County Tourism Map is now available for distribution.

Effort in Futility...

A few weeks ago in this column we encouraged local citizens to utilize their freedom of speech and voice their opinions concerning the recent controversial decisions by the Garrett County Board of Education. We urged them to write letters and report to this week's Board of Education meeting where they could provide input and opinions concerning these decisions, particularly on the issue of the Board's proposal to eliminate the Gifted and Talented Program in the county elementary schools. We led people to believe that their input is important and that our decision makers depend upon such feedback.

We are saddened to report that, in this case, the letters, the presence of scores of citizens at the meeting, and well-prepared, eloquent comments by so many of our outstanding citizens were nothing more than a grand effort in futility. We believe they were of no value whatsoever because the Board had made its decision to slash the GT program long before the meeting was even called to order.

It was also outrageous that so many persons, who arranged their busy schedules in such a way that they could be there, were rudely forced to wait outside the door for literally hours on end before being "granted admission." The courteous thing for the board chairman to do would have been to change the agenda in order to accommodate these constituents.

The Board probably believes it has made a nice compromise and has restored some of the public's faith by just cutting the GT program in half, rather than eliminating it altogether. However, we believe that cutting it in half is the same as a death sentence, because it cannot possibly be an effective program with just two teachers for the entire county.

We believe that things are drastically out of control at the Board of Education and, since the present elected board pays no attention to its constituents, it is high time to begin efforts to get rid of these incompetent members in the next elections.

We also believe that one or two administrators, not including Superintendent Dr. Ryscavage, are in control of things at the board, which is not the way it should be.

Once again, the board is not entirely to blame for the present state of affairs. Many of the problems are the direct result of a lack of appropriate funding by the county commissioners. Thus, we believe efforts should also begin now to replace our present board of commissioners, or at least the two who voted against providing more funding for education.

We must rid our system of those responsible for the damage that is being done to our education system. Simply speaking out is obviously not enough.

Letters to the Editor

To the Editor:

Have you ever noticed that anytime a state agency experiences a cutback in funds, that they do anything to get the public upset and writing letters to the legislators to restore funding?

New Germany State Park is a good example of this. New Germany made over $50,000 more than Deep Creek State Park last year, but to get the outcry to the legislators that the state needed, they decided that New Germany State Park was the one needed to be closed. Deep Creek State Park was not used by enough local residents to generate the outcry that our State Park Superintendent needed.

We all are experiencing economical problems, but we have to continue on managing with what we have, whether it be our business or our income. We have no recourse. We could write letters to our legislators, which some have done, but we are individuals and our letters are nothing compared to a whole community of upset citizens.

I feel that the people in Annapolis who made these decisions should be replaced along with our Superintendent of Parks. We have enough park rangers and technicians to man these parks and all state employees know this to be true. I asked why this park was picked and not Deep Creek State Park, and I was told that New Germany had a full staff, and they were needed at parks that did not have a full staff. Even an idiot would not close a place that generated money, and put them at a place of less income, except to get residents upset.

There was over $400,000 spent on construction of a building at New Germany last year. Even when our Governor came to tour the park and pick a few strawberries, he should have had an elected official with him, rather than a losing opponent. Could this be another in a long line of bad decisions? What could a losing opponent accomplish by hearing remarks that need to be addressed at higher levels?

I went to Savage River State Forest Office and received the income from timber — cuts for last year, and the total was over $484,000, and that these funds go into the state's general fund and it's up to our commissioners to determine that twenty-five percent of these funds return back into our county.

In closing, I wonder what are the plans for these parks in the future? Could it be that the state has plans to turn them over to private enterprise? When the state says "Trust me," I worry.

Thank you.

L.L. "Buddy" Duckworth

To the Editor:

Take a close look at your new phone directory. The town of Mountain Lake Park no longer exists, according to the person or persons of the C & P Telephone Company creating the service map for Garrett County.

The directories delivered to me were addressed to 813 K Street, Oakland, MD 21550. There is no 813 K Street in Oakland, or if there is, I've never seen it.

The U. S. Census assigns a larger population figure to Mountain Lake Park than to Oakland. And the U. S. Postal Service ignores the town as a legal municipality although it does condescend to print "Mtn. Lake Park" after my street address.

For a town 110 years old, I'd think we'd get a bit more courtesy in accepting our municipal and legal existence.

To the Editor:

This letter is written to you to praise the Garrett County Humane Society, Inc., and to openly request the county commissioenrs to financially support a spay/neuter program.

My reason for writing occurred on June 23, 1991, at the dumpsters on King's Run Road. When I pulled in to deposit household garbage, what did I find but a puppy and a kitten who had been abandoned and were flea infested and starving to death. The puppy had been eating gravel, and the kitten was chewing on a piece of plastic wrap. I took the poor things home, even though I knew I could not keep them, having several cats (former strays) myself. I contacted Mrs. Bernadine Friend of the Humane Society about finding homes for them. By the end of the day, good homes were found for both animals, where they will hopefully live long, happy, spayed/neutered lives despite their previous treatment.

Now, I am aware that the county commissioners provide money for the Animal Shelter (a misnomer, I believe), so that the shelter can keep animals for a period of three days before they are killed. Even though I do not agree with this means of animal control, as the above incident indicates, not all animals end up at the shelter to be killed. Some are left off at dumpsters to die of disease and/or starvation, certainly a painful death. A better solution exists.

The answer to the problem of unwanted animals does not lie in an animal shelter, but in a spay/neuter program. The number and suffering of unwanted animals would be reduced significantly. Persons who cannot normally afford the veterinary costs would be able to have their pets spayed/neutered, thereby reducing the animal population.

Instead of spending money to kill unwanted animals, the commissioners could put our tax dollars to better use. Fund a spay/neuter program and stop the problem before it exists. This makes more sense and is certainly more humane.

Animals feel pain and hunger like we do.

Sincerely,
Carolyn S. Hegeman

To the Editor:

On Saturday evening, July 5, I being the designated driver, drove friends from the Lake to their home near Green Glade, which was approximately 6 miles from the Lake. I made sure they were home safe and sound.

When I left their home, heading toward my son's home, a truck started following me - too close for comfort. I, being a woman, alone on a desolate back road, became concerned. The truck followed me onto Glendale Road (still close) across Glendale Bridge to Route 219. I stopped to observe traffic (which was heavy at 11:30 p.m.) and, seeing everything was clear, I made a left turn onto Route 219, proceeded toward Oakland, and made a right turn at J.R.'s Restaurant, only to look in my rear view mirror and observe the truck still close behind me. I made two more turns (of which I did not have to) and the truck still followed me.

At this point, I was really becoming quite nervous and upset not knowing who this could be obviously following me, and I ruled out the police because I was not driving in a reckless manner and was observing all traffic rules. I realized that this truck was purposely following me.

The road to my son's home is dark and desolate. The homes that are scattered along the road are few and far between and all of them were dark at that time of night. I was at this point, driving fast, and trying to get away (not knowing who was in the truck). I observed a stop sign at the top of the hill and, debating whether to stop or not, I approached the stop sign observing both ways. Seeing no traffic lights, I ran through the stop sign without stopping and still driving fast! Well, up jumped the devil - it happened - red and blue lights.

I cannot begin to tell you how relieved I was to see that it was a policeman, but as I thought about it, I became so angry - why did he follow me for such a long way and why so close? Why did he not at some point and time let me know he was the law? He was the one who prompted me to drive fast and unsafe trying to lose him. I even told him before be approached my car how happy I was to see that he was the law and not someone who might have been following me for some devious thoughts or act.

So my point is given - policemen, let the citizens know you are out there for their safety, not to scare the wits out of them! And I hope my point is taken!

To the Editor:

On behalf of our local association's leadership and membership, we acknowledge the support received from our local delegations to the Maryland General Assembly during the 1991 session.

In the House, on nine key votes, Delegates Betty Workman and Cas Taylor had 100% voting records in support of legislative issues of statewide importance to educators. Delegate Kevin Kelly's voting record was 78%, and Delegate George Edwards's voting record was 67% on Maryland State Teachers Association positions listed on its legislative scorecard.

Of eight key votes in the Senate, Senator John Hafer's and Senator Don Munson's voting records were 75% in support of issues of particular interest to our members statewide.

We note our appreciation for their support of legislation important to teachers and look forward to their continued support in the Maryland General Assembly. Overall, our Annapolis delegation's voting record in support of public education was 83%.

Gov. Schaefer Speaks Out

PROTECTING MARYLAND'S CHILDREN
by Governor William Donald Schaefer

Some of the saddest stories I read in the newspaper involve children -- children who are injured or killed in accidents involving guns. Sometimes it's a child who gets hurt playing with a gun when it accidentally goes off. Other times it's a child who is injured while playing with a friend who has a gun. Whatever the setting, each is a tragedy -- usually because it could have been avoided. Statistics tell us that on average in the United States, a child under the age of 14 is killed with a handgun every single day of the year.

During the past session of the General Assembly, I proposed two bills to limit access to guns. One would have banned assault weapons, which I continue to believe have no useful purpose -- except to kill. The second would have required anyone who owned a gun to prevent it from being accessible to children. There were a number of ways to comply with the child protection law. A gun owner could store the gun in a lockbox, add a trigger lock to prevent the gun from firing accidentally, or lock away the ammunition separately from the weapon.

Unfortunately, neither bill was adopted by the General Assembly, in part, because the gun lobby is very powerful in Annapolis. Gun control legislation always sparks a debate, because opponents of gun control are worried that efforts to curb access to some guns will harm their constitutional rights to arm themselves. But the purpose of the bills -- both of which I continue to believe are needed in Maryland -- is to protect the citizens. I had hoped to gain passage of the assault weapons ban to reduce the number of powerful automatic weapons available on the streets of Maryland. And in the case of the child protection legislation, I had hoped to make sure that harmful guns stayed out of the hands of children.

Since the end of the legislative session in April, there have been at least six incidents of children being injured or killed by guns in or near their homes. In looking at the incidents, it didn't seem to matter what age the children were, or where they lived. They all shared one thing in common, though: they either died or suffered serious injuries because a young person was able to get his or her hands on a gun.

Two incidents occurred the same day in June: a 13-year-old Baltimore City boy was shot in the back of the head and seriously injured when a friend accidentally fired a gun, and a 16-year-old Calvert County girl was injured when a loaded gun fell off a refrigerator and fired.

A 3-year-old Harford County boy was shot and injured in June when his 6-year-old brother found a loaded gun in their home.

An 11-year-old Anne Arundel County boy died by a rifle he was playing with, along with his brother and cousin.

Those are just four examples of senseless accidents involving children and guns. All of them could have been prevented if the weapons had been locked away, or stored without ammunition easily available.

We don't have a state law on the books requiring safe storage of guns, but local jurisdictions are beginning to consider such legislation. Baltimore City already has approved a bill that resembles the state legislation we tried to pass, but the measure won't be effective enough until every county has a safe gun law. I plan to continue urging passage of statewide legislation to protect our children. I don't think it's too much to ask to ensure that adult-owned guns remain in the hands of adults -- and not in the hands of young people.

If you have thoughts about how we can make Maryland safer, write me: Governor William Donald Schaefer, State House, Annapolis, Md 21401.

PROPAGATION OF PERENNIALS
by A. G. Coddington

The term "perennial" used by gardeners refers to hardy herbaceous plants which tend to rejuvenate themselves, year after year, such as the peony, phlox, primrose and other non-woody plants with roots that live throughout the winter. Usually their tops die, although some, such as candytuft, alyssum and ivy may be evergreen.

Perennials can be started from seeds, stolons, layers, divisions, root cuttings and stem cuttings. Some perennials can be started successfully only in one or two ways.

Propogation from seeds is not always the wisest way to produce perennials. For example, the seeds of English primrose may take 150 days to germinate, and some perennials require a high temperature to germinate properly, while others need cool temperatures. When propogating from seeds, it is important to sow in sterilized soil, and the soil should be drenched with "Banrot" or some other fungicide before seeding.

Many perennials, such as chrysanthemums, pyrethrums, dianthus, myosotis, etc., are commonly started from cuttings. When cuttings are practical, they offer a satisfactory method of increasing the plants in a hurry. Stem cuttings from perennials can be taken at various times during the growing season; the best time to take them is during the spring when the stock plants are from six to eight inches high. Three- or four-inch cuttings are ideal, but one must be sure to remove the growing shoots below a node. Cuttings can be rooted in sand, vermiculite, perlite, or various combinations of sand, peat or vermiculite. Remove only the foliage which will interfere with the placement of the cuttings in the medium. Keep the frames fairly warm, allowing more air as cuttings begin to root. A little shade may be necessary if the weather is bright. Plants may be transplanted when well-rooted.

Root cuttings can be taken in early spring or late summer. Pieces two or more inches long are simply placed horizontally in the open ground.

Layering can be done successfully with a number of herbaceous perennials. For this method, select a young shoot, then press it back as though taking a heel cutting. Sever it about halfway, and fasten the cut section down on sandy compost with a piece of bent wire. Keep it moist until rooted.

Dividing clumps is the most popular method of increasing most perennials and is easy to do. Lift a three- or four-year-old clump from the soil and shake the soil from the roots. After noticing how it grows, you can decide whether it is necessary to slice, pull or break off the newest, freshest growth. As the clump is divided, take all of the roots belonging to each section. Plant the new sections in properly prepared beds where the plants are to be grown.

Dividing stolons or rhizomes is another method of increasing perennials. The stolon, or shoot, is actually a new plant which needs only to be severed from the mother plant, and removed to a spot of its own to be grown. Either divided clumps or stolons, once on their own, require the same sort of early care as given to established plants, but with some moderation in regard to fertilizer until the plants are well rooted.

Dividing your perennials and sharing with a friend can be an easy and inexpensive way to add beauty, color and variety to your gardens.

FRIENDS OF THE RUTH ENLOW LIBRARY

Friends of The Ruth Enlow Library
By Sull McCartney

After cutting salaries, reducing hours, and making what few other adjustments that can be made to nonfixed expenses, guess what is the only way to keep the library open and comply with next year's budget? That's right reduce book purchases. As most of you know the letters BYOB normally mean, bring your own bottle. Thanks to the budget for the coming fiscal year, BYOB may mean bring your own book to Garrett County libraries.

Betsy Fowler was elected to the Board of Directors at the May meeting. She replaces Adele Naylor who resigned in order to care for her growing family.

Friend's is planning a used book sale for August and needs books. Anyone having books to donate may leave them at the library. This is an opportunity to thin out your stacks and recycle volumes which you will never reread. Please do not bring textbooks or Reader's Digest condensed books.

The eighth book in the alphabet series featuring female private detective Kinsey Milhone by Sue Grafton is *H is for Homicide.* Although this is more of a thriller than a mystery, it is very good and, judging by the time it took me to get it after putting my name on the list at the library, Grafton is becoming quite popular with local readers.

If you are one of those misguided people who think baseball is boring, don't bother to read any further.

At the time of his death in 1988, Michael Shaara had published four novels, including the Pulitzer Prize winning *The Killer Angels* which is about the battle of Gettysburg. The manuscript for a baseball novel, *For Love of The Game,* was found among his papers and published this year. Billy Chapel is pitching the last game of a 17-year career and it is a good one. Shaara has added another name to the list of memorable fiction baseball characters.

Baseball & The Game of Life edited by Peter C. Bjarkmas is a collection of stories by current authors such as Robert Coover, W.P. Kinsella, and Jay Neugeboren. I especially enjoyed "There Ain't Enough Mustard" by Jay Feldman.

Uniontown Man Found Guilty Of Indecent Exposure

A Uniontown, Pa., man was found guilty of indecent exposure by Judge Jack R. Turney in Garrett County District Court proceedings last week, according to court dockets.

Turney ordered a presentence investigation for Gordon R. Fike, who was also found guilty of harassment.

Fike reportedly exposed his genitals to a woman on repeated occasions last January and February at various locations on U.S. Route 48. He was arrested by the Maryland State Police.

In other District court news, Joseph M. Baker, 31, Oakland was found guilty of possession of a controlled dangerous substance (CDS). He was handed a 90-day jail term (all but 48 hours was suspended), fined $100, and placed on six months of unsupervised probation.

Charges of concealing a deadly weapon and possession of CDS paraphernalia were not prosecuted by the State because of a plea agreement.

Baker was charged on April 28 by the Garrett County Sheriff's Department after being stopped on the Boiling Springs Road. A search revealed a knife in Baker's jacket, along with marijuana seeds and a small wooden pipe used for smoking marijuana.

Michael L. Tasker, 18, Elk Garden, W.Va., was found guilty of CDS possession and given a 90-day jail term (all but 48 hours was suspended), fined $100, and placed on six months of unsupervised probation. In a plea agreement with the State, a second charge of possession of drug paraphernalia was not prosecuted.

Tasker had been arrested by the Garrett County Sheriff's Department on April 12 after being stopped in the parking lot of Par-Mat Lanes. A search revealed a metal pipe used for smoking marijuana in the jacket of Tasker's companion, James M. Pinner, 18, Elk Garden.

Pinner was also found guilty of CDS possession and handed the same sentence as Tasker.

Mark A. Hollis, 33, Arbutus, was found guilty of CDS possession and being disorderly on private property. He was given a 90-day suspended jail term, fined $100, and placed on six months of unsupervised probation.

He had been charged on January 28 by the Garrett County Sheriff's Department after they responded to the Walter Poyer residence at Youghiogheny Mtn. Club for an attempted breaking and entering. When police arrived at the scene they found Hollis still attempting to gain entry into the Poyer home.

A search of Hollis revealed a marijuana cigarette in his shirt pocket.

A pre-sentence investigation was ordered by Turney for Jeremy S. DeWitt, 19, Oakland, who was found guilty of CDS possession, possession of CDS paraphernalia, and a license restriction violation.

DeWitt had been charged on May 4 after being stopped by the Garrett County Sheriff's Department for a traffic violation. Police found marijuana seeds and rolling papers in DeWitt's jacket pocket.

Lafe L. McKenzie, 57, Salisbury, Pa., was found guilty of theft and handed a 90-day suspended jail term, fined $50, and placed on six months of unsupervised probation. He was also ordered to make restitution of $60 to George Meese.

McKenzie reportedly stole a lamb from a locked stock pen belonging to George Meese. McKenzie had requested that Elsworth Broadwater butcher the lamb and told him that Meese had given him a lamb. The investigation revealed than McKenzie had stolen the lamb.

McKenzie was found not guilty of breaking and entering.

A West Virginia man and a Delaware woman were both found guilty of theft in a telephone service scam.

Jerry L. Kalbaugh Jr., 27, Carpendale, W.Va., and Beverly A. Snoberger, 22, Claymont, Del., were both given suspended six-month jail terms, fined $100 each, and placed on six-months of unsupervised probation.

Charges of continuing the course of a crime, conspiracy, and avoiding paying telephone charges against the two were not prosecuted.

Court documents stated that Kalbaugh conspired with Snoberger to commit felony theft by obtaining telephone services without payment of charges. They obtained access codes from ProCom Inc., Oakland. As of April 2, they had logged a total of 788 calls which resulted in a loss of $1,476.12.

THE FISHER FAMILY BAND, of Dawson, Pa., will perform during intermission at the 27th Annual Old-Time Fiddlers Contest and the third Annual Banjo Contest at Friendsville Elementary School, July 20. Family members include Carol Ann, who plays fiddle and sings; mother Judy, who plays piano and sings; father Cal, who plays guitar; and Uncle Harry, who plays banjo and sings. The family has recorded two albums and has performed at numerous fairs, festivals, and malls throughout a six-state area. Besides teaching the fiddle and banjo, the family promotes fiddle and banjo contests throughout Pennsylvania, Ohio, Maryland, West Virginia, New Jersey, and Kentucky. See story for more details on the July 20 contests.

Earl J. Clark Jr., 31, Oakland, had a previous guilty verdict of theft against him revised to probation before judgment in court last week. A motion to revise a guilty verdict of doing home improvements without a license was denied. Clark had initially been given a one-year suspended jail term, fined $100, and placed on one year of unsupervised probation.

Christine L. Tucci, McHenry, had her guilty verdict for theft changed to probation before judgment. She had initially been given a one-year suspended jail term, fined $100, and placed on one year of supervised probation.

Studies Find Many Are Unaware Of S.S. Benefits For Those Under 62

There is more to Social Security than benefits for persons over 62 years of age. Consumer Education Research Center, a national non-profit consumer group has been researching the Social Security system and the benefits it provides since 1972. One finding is that, of the 50 million persons now collecting benefits, more than 15 million are under 62 and, surprisingly, the average age is only about 30.

Robert L. Berko, consumer writer and executive director of the Center, says the organization has been publishing and updating a complete list of available benefits (and how to qualify for them) for the past 18 years. The guide offers consumers of all ages an awareness of the benefits they are entitled to under the latest laws. The 12th update (a complete revision) is now available.

The book contains a form to get a copy of your Social Security account showing all credits to your account and an estimate of the amount you will get upon retirement or disability. Workers must check their Social Security accounts frequently since any errors more than three years old will not be corrected. Often, the study found, workers have had too much deducted from their wages and were due a refund. In other cases, employers had not sent the correct amount to be credited to accounts. If you have records of the amount of earnings and deductions, you will be credited with that money and the employer's share whether or not he ever sent the money to the government.

The 240-large-page "Consumers Guide to Social Security Benefits Including Medicare" is available for $9.95 (plus $2 P&H) from Consumer Center, 350 Scotland Rd., Orange, N.J. 07050, or by calling 1-800-USA-0121 (with credit card).

"Billions of dollars go unclaimed," says Mr. Berko, "because many workers do not realize they are eligible for benefits." Among the findings of the study group and included in the Guide are:

•In some cases, parents of a deceased worker are eligible for benefits even if they never paid into the system.

•Many children are eligible for benefits even though their parents never paid into the system.

•Minor children and surviving spouse of a person who has worked under the SS system for as little as one day in each of six annual quarters can collect benefits.

•Income from investments, interest, annuities, rentals and royalties are not considered in determining eligibility, nor is income from a business in which the person was owner or partner if payments are made as retirement benefits, purchase of equity or any of the above. Only income listed as payment for actual work will affect retirement benefits. And after age 70, even that restriction is lifted.

•A divorcee (either sex), 62 or older, who was married 10 years or more is eligible for benefits when the ex-spouse starts collecting retirement or disability payments. If the divorcee was later married and that marriage ended in death or divorce, this will not affect eligibility.

•The Supplementary Security Income (SSI) program provides benefits to aged, blind, physically disabled and even those with language handicaps. Even if these recipients own cars, homes or other assets, no lien is taken against these assets and a person cannot be disqualified because relatives are financially able to support the recipient.

•Some benfits, such as SSI, do not require any work record by the recipient or his or her family.

Recognizing the problem of millions who were missing out on agency-administered programs, Social Security Commissioner Gwendolyn S. King said in a recent interview, "I believe very strongly that we need to do more by way of outreach."

Commissioner King's statement was applauded by Ron Pollack, executive director of the Families USA Foundation, because he says "a good number of people do not know about the program." Many people, he found, "try to make inquiries, but do not get through or receive erroneous information. And there are many who go to an office to apply but don't get the assistance necessary to fill out their applications."

Mr. Berko tells us that, "Even if you are eligible, you will not receive checks unless you apply." For that reason "Consumers Guide to Social Security Benefits" tells you how to apply and what to say.

The agency does not publish a comprehensive book for consumers that would inform them of all benefits due under Social Security and who is eligible. In past years there were many pamphlets available which described various phases of the program. Now, under the present austerity budget, many of these have been discontinued and plans for new booklets scrapped. No office has a complete set of the few pamphlets that are supposed to be available.

"Dear Friends"

Continued from Page A-1

The ensemble regularly tours throughout the mid-Atlantic region and performed last year at the Smithsonian Institution during American Music Week. Among the programs "Dear Friends" present are "Home Sweet Home," a sampler of 19th century parlor music; "Londonderry Airs," America's legacy of Irish music; "The Blues and the Grays," American Civil War music; "Come With Thy Sweet Voice Again," melodies of Foster; and "Victorian Christmas," Christmas in the home 100 years ago.

Director and flutist of "Dear Friends" is Jean Thomas, one of the group's founders, who holds a PhD in musicology from the University of Pittsburgh and who has produced tapes and a record album of American music. Other members of the ensemble are tenor Guy Russo, who has performed with the Pittsburgh and Cincinnati operas and the Wheeling Symphony orchestra; pianist Mark Graf earned an MA in coaching and accompanying from the University of Illinois, where he studied with the internationally acclaimed John Wustman; classical guitarist James Ferla, a founding member of "Dear Friends," who teaches at the University of Pittsburgh and who has appeared in solo and ensemble concerts throughout the United States and South America; soprano Kate Young, also a "Dear Friends" founder, has appeared as both actress and singer with major symphony orchestras and leading regional theatre; guest performer Kathryn Logan, has appeared as cellist with "Dear Friends" and is head of the Music and Art Department of the Carnegie Library of Pittsburgh.

In addition to the exhibit of water color paintings by Robert Yonke on display in the Bausch and Lomb Art Gallery of the college, a special display will be presented by the Adonna Doll Company of Oakland the evening of the concert.

Tickets for the "Dear Friends" concert may be purchased at Englander's Pharmacy, Deep Creek Pharmacy, Beachy's Pharmacy, and the GLAF box office at the college. Persons not purchasing tickets in advance are encouraged to make reservations by calling the GLAF Box office at 387-6666 (800-695-4221). Reservations will be held until 7:30 p.m.

Programs presented by the Garrett Lakes Arts Festival are funded in part by the Garrett County Arts Council and the Maryland State Arts Council.

Charter Board Explains Mission

The Garrett County Board of Commissioners recently appointed a Charter Board to write a proposed home rule charter for Garrett County, which, if accepted, would significantly change the present form of county government. In order to explain its mission to the general public, the Charter Board recently published a brochure, the contents of which are as follows. The brochure is also available at all local libraries.

HOME RULE CHARTER FOR GARRETT COUNTY

WHAT & WHY

With the appointment of a Charter Board (April 23, 1991) to write a proposed home rule charter for Garrett County, many have asked what is a home rule charter and why do we need it? The following will briefly address those two questions. For more complete answers, and answers to any other questions you may have you are invited to get in touch with a member of the Charter Board. You are also invited to attend charter board meetings where your questions may be answered and you may participate in charter discussions. See last page for names of charter board members and meeting dates.

Over the next year, while the charter is being written, you will hear all kinds of reasons for and against a home rule charter. Some will be valid. Some will be fictitious. Some may result from fear of the unknown. Some may result from fear of loss of position, power, and income. In the final analysis it will be you the voter who will decide on the merit of charter home rule. Any decision on your part, for or against, should be made only after the proposed charter has been written, you have a copy in hand, and can personally evaluate what is written therein.

What is a Home Rule Charter?

Perhaps this can be briefly answered by stating it may be like a pamphlet you can carry in your hip pocket or purse, written in plain language, which sets forth how the county government is structured, how it is organized, how it operates and how it provides for home rule. It will delineate the functions to be performed by the county government together with safeguards for the personal and political rights of its citizens. It will have been prepared in accordance with guidance for charter home rule as contained in Article XIA of the Maryland Constitution and Article 25A of the Maryland Annotated Code.

Why do we need charter home rule?

Many reasons can be stated as to why Garrett County should move to a charter home rule government. Some are more important than others. It would be helpful if they could be prioritized. However, what one person may consider the more important reasons another person may have other reasons he/she considers more important. To a considerable extent this depends on the persons experience with and his/her out look on our present form of county government. These reasons will be covered later. For now two of the more important reasons for a home rule charter follow:

Right of Limited Self-Government

A Garrett County proposed charter will, no doubt, differ considerably from those of other counties in that it will be written to address the specific and unique requirements of the county. Even so, a basic premise of a charter government, as set forth in the Maryland constitution, is the transfer of legislative power with regard to most local matters from the Maryland General Assembly to the local county government. The General Assembly would no longer be empowered to enact local public laws relating to the county alone in the areas where the county is empowered to act. In plain words the county is given the right of limited self-government in that the county would make it's own local laws.

This premise becomes all the more important when considering how our delegation to the General Assembly has and will be further diluted in the near future. No longer is Garrett County represented by its own Senator and Delegate. Representation must now be shared with Allegany County. As a result of the 1990 census, which requires redistricting of the Maryland legislative districts, Garrett County's representation will be further diluted. Our State Senator will be representing Garrett County (population 28,138) and practically all of Allegany County (population 80,548). Our State Delegate will be representing Garrett County and a considerable portion of Allegany County (approximately 7,773 of Allegany's population). From a political viewpoint our State Senator and Delegate will now be more and more concerned with matters in Allegany County and, in view of their heavy work load during the 90 day session of the General Assembly, cannot be expected to give their undivided attention with respect to local matters .

Today half (12) of the Maryland counties are under home rule and make their own local laws, yet their Senators and Delegates vote on local Garrett County laws. There is no compelling reason for their voting on local laws applicable only to Garrett County. Our Senator and Delegate do not vote on their local laws. Then why should they be making decisions on local laws for Garrett County; a rural area with little shared in common with the heavy populated counties down east? The answer is they should not be so required. The citizenry of Garrett County are best equipped to decide on laws applicable to Garrett County.

It can be rationalized that the overriding reason for adopting home rule is for the county to gain control of its own legislation. Legislating through the county's representation to Annapolis is a time-consuming process that hinders our county government's ability to act during the short period each year when the General Assembly meets to enact legislation. Long distance legislation through Annapolis limits the direct participation of county residents in the discussion and adoption of legislation which affect them.

Under charter home rule the legislation process involves several stages of introducing, reading, amending and voting on proposed legislation. The notice of pending legislation and the hearings on it would be held in Garrett County, not in Annapolis. Charter home rule also provides the right of referendum where voters have the right, through petition, to place an amendment or recision of a local law on the ballot at the next general election.

Increased Representation in County Government

Today Garrett County is divided into three (3) county commissioner districts. One Commissioner is elected from each of the three districts. This has not provided dispersed area representation in county government. Many voters in areas such as the Friendsville, Accident, McHenry area, the Swanton, Kitzmiller, Bloomington, Deer Park area and the Finzel, Alviton, Elbow, Bittinger area feel orphaned and without commensurate representation in county government.

Under charter home rule consideration may be given to dividing the county, for example, into five (5) or seven (7) districts with a commissioner elected from each district. Under charter home rule they would be identified as council districts and instead of commissioners as council members. Citizens in each area would then have their own local representative in the county government.

Goals

The charter provisions will aim toward goals of better governmental services, greater efficiency in the use of manpower and public funds, and adequate democratic controls over powers of government. The Garrett County Charter Board is optimistic their charter will be the tool to achieve these goals.

Twelve (12) of our twenty-three (23) Maryland counties are now under home rule and it is being considered by five other counties. Because of advantages achieved under home rule it has been predicted that within two decades all counties in Maryland will be under home rule.

Will Garrett County be the next or the last to become a charter home rule county? Will the charter be acceptable to the voters? The next election will answer these questions. You will be voting for or against charter home rule for Garrett County on the 1992 ballot.

Charter Board members are: DeCorsey Bolden, Richard C. Browning, William F. DeWitt, John E. Hinebaugh, Dorothy Leighton, Jessie McCullough, Theodore Raynovich Sr., Charlotte Sebold, and Spencer R. Schlosnagle. The board meets every other Monday from 11 a.m. to 2 p.m. at Garrett Community College. All meetings are open to the general public and citizen participation is welcomed and encouraged by the board members.

THE U.S. POST OFFICE, Oakland, is the newest in the village series on sale at various businesses. The series is sponsored by the Greater Oakland Business Association (GOBA), and monies are placed back into the community for various projects. The Oakland Post Office was dedicated in 1940. Others in the series include St. Peter's Catholic Church (1902), St. Matthew's Episcopal Church (1884), the B&O Railroad Station (1868), Garrett County Courthouse (1907), Our Father's House (1933), Friend's Store (1769), and Casselman Bridge (1813). Pictured above in front of the Post Office with the replica of that building are postal employee, Bill Nemith, and GOBA's promotional chair, Constance Margison. The village series units may be purchased at the Small Pedlar, Presentations, or Marvin's Men's Wear.

Local "Candidate" In Hospital For Psychiatric Check

Jerome Walter Cox, an Oakland area resident who has already proclaimed himself a candidate for the not-yet-created position of county executive, was recently admitted to Sacred Heart Hospital in Cumberland for a psychiatric examination.

At the request of his wife, Carol, Cox entered Sacred Heart about 10 days ago to "allay her fears" about his manic depression. He was released from the hospital Monday with what he said to be a "clean bill of health." He added that he also had a complete physical examination, which he also passed.

Cox, who is supporting the present move to change the present system of county government to charter government, has already announced that he is a candidate for the position of county executive, which would be created if charter government is accepted by county voters on the 1992 ballot. A commissioner-appointed Charter Board is presently writing a charter for the county.

Cox, who is an attorney, informed The Republican about his recent hospitalization and requested a story because he said he wanted to be "up front from the very beginning" concerning the condition of his health. He said he is confident that the "middle and poor classes" in Garrett County will pass the charter and that he will be elected county executive.

The cast, directed by Bobby Anderson, consisted of Jean Clark, D.J. McIntyre, Shirley Berkshire, Betty Malloy, Bobbie Henderson, Faye Denison, Sue Riley, Agnes Dzendzel, and Polly Hanst.

The play was entitled "This Is Your Life" and was drawn from information of a history of the club written by Pat Filsinger. It was adapted for video by Bobby Anderson and taped by her husband, Alden Anderson.

Many of the club's activities since 1911 were outlined in the play, such as: support of the American Red Cross and other charitable organizations, the Antique Show, cooking school with the Junior Women's Civic Club, the Charity Ball, paperback books to the hospital, Drug and Alcohol Abuse Directory, membership awards from the national club, efforts in recycling, the origination of VIVA volunteers at Garrett County Memorial Hospital, and the upcoming seminar on Long Term Care.

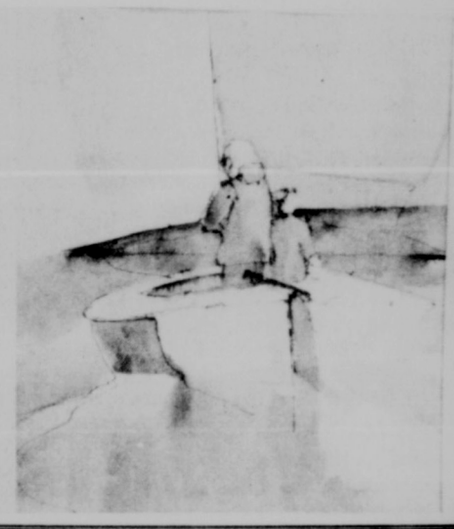
A special cake was baked and the 80 candles on it were blown out by Martha Jachowski, president, assisted by four past presidents, Marin Day, Marge Hamill, Mabel Hauser, and Ruth Calderwood.

Thank you letters were read by Marin Day, corresponding secretary, from Hospice of Garrett County, the Boy Scouts of America, the Garrett County Arts Council, Garrett County Memorial Hospital, and the Garrett County Council on Alcohol and Drug Abuse.

Carole Glotfelty, a scholarship recipient, sent a letter of thanks and appreciation to the club.

Faye Denison, chairperson of the Crafts Committee, noted that the afghan will be raffled at the July meeting. Sue Riley has made baskets for the club to sell. Betty Malloy is arranging calling committees for the coming year.

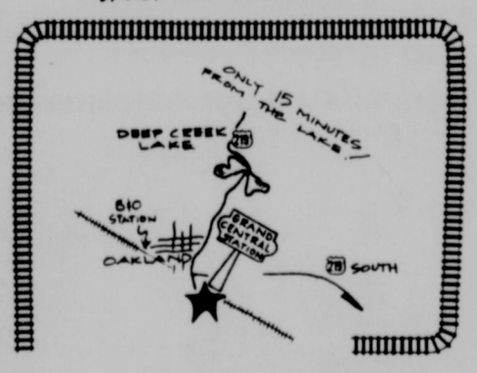
All members were reminded that several recycling containers are in place throughout the county and to inform others to use them. A field trip to Mountain Playhouse and the Oakhurst Tea Room has been scheduled by Sue Riley for July 24.



Plans are being finalized for the Autumn Glory Antique Show slated October 10-13 at the National Guard Armory in Oakland. All booths are filled and a quilt made and donated by Helen Nordeck was displayed. Chances are now available.

The next regular meeting will be held July 30 with a Long Term Care committee meeting scheduled August 9 at the Ruth Enlow Library. A planning meeting of the board and chairpersons will be held August 14 at Martha Jachowski's home in Sky Valley.

Betty Malloy reminded members to collect paperback books for VIVA to be distributed at the hospital, VIVA has 48 members and is always looking for new members.



ARTIST'S WATERCOLORS ON DISPLAY AT GCC GALLERY -- A new exhibit of watercolor paintings by Robert Yonke, Pittsburgh and Deep Creek Lake, is currently on display at the Bausch & Lomb Art Gallery at Garrett Community College through the month of July, according to Ron Skidmore, coordinator of the gallery. A reception for the artist, to which the public is invited, will be held Saturday, July 13, at 7:30 p.m. Yonke, who operates R.H. Yonke and Company in Pittsburgh, has had a life-long interest in drawing and painting, and his work is frequently exhibited in western Pennsylvania galleries. He has donated paintings to the Garrett Lakes Arts Festival benefit gala for the past four years. He began watercolor painting while a student at Slippery Rock State University, and has perfected his craft by attending seminars and workshops throughout the years, according to Skidmore. His work represents Garrett County and regional images. Shown above are two examples of his work. The exhibit may be viewed during gallery hours Monday-Friday, 9 a.m.-5 p.m., and during evening events of the Garrett Lakes Arts Festival.

Noted Children's Authors To Speak

Linda Shute

Three well-known authors of children's books are scheduled to speak at Frostburg State University, according to Dr. Bill Bingman of FSU's Department of Educational Professions. The talks are free and the public is invited.

Phyllis Naylor, Linda Shute, and Will Hobbs will discuss their books, their personal experiences within the world of publishing and how they became writers. Ms. Naylor will speak Monday, July 29; Ms. Shute, Wednesday, July 31 and Mr. Hobbs, Thursday, August 1. Books by the authors will be available for purchase and autographing and the talks will begin a 7:30 p.m. in the Guild Center.

Dr. Bingman says the three were invited to FSU to participate in a week-long workshop, "Utilizing Children's Authors in Language Arts" a three-credit class for graduates and undergraduates which he teaches.

Phyllis Naylor, who lives in Bethesda, is the author of over 60 books for children and young people and four books for adults. First published at age 16, Ms. Naylor says, "My mother. . . read aloud to us every night. . . I could hardly wait to read and write my own books. Getting an idea (for a story) is not hard for me. . . when a character (or place) comes alive on paper. . . there are no bands playing. . . no audience applauding. . . but it's what I like most." Her popular titles include her three witch books. *Witch's Sister, Witch Water and The Witch Herself.* Humorous books include *Eddie, Incorporated,* about a boy who longs to be his own boss; and How Lazy Can You Get?

Phyllis Naylor

Author/illustrator Linda Shute lives in Coral Gables, Florida. She has spoken on the creation and production of picture books to audiences in the Washington metropolitan area, Pennsylvania, and at FSU and the University of Florida. She has also served as past president of the Children's Book Guild of Washington, D.C. It was while she and her engineer-husband were living in Washington that she "summoned the nerve to build a portfolio of illustrations" and visited every art director and editor "who would see me." She realized her goal of making "that word/picture connection" when the publishing company Little, Brown asked her to illustrate her first manuscript. In the past eight years she has illustrated and/or authored more than ten books, including *Momotaro the Peach Boy,* and *Clever Tom* and the *Leprechaun,* both of which she authored and illustrated and *We Adopted you, Benjamin Koo,* written by Linda Walvoord Girard and which Ms. Shute illustrated.

The workshop's third featured writer, Will Hobbs, has been living in southwestern Colorado since 1973. After teaching English to junior high and high school students for 17 years, he now writes full-time, and speaks at conferences and participants in writing workshops throughout the country. His three novels for young people are on the FSU workshop's reading list. *Changes in Latitudes* won runner-up honor for the Earthworm Children's Book Award sponsored by the UK Friends of the Earth, *Bearstone,* a "coming of age" story, describes the friendship of Ute Indian Boy and a widowed rancher and was honored as the 1990 winner of the Mountains and Plains Booksellers Association Regional Book Award. Just published in the spring, *Downriver* is the story of what happens when seven teenagers leave an outdoor education program and attempt a river trip through the Grand Canyon on their own.

Hobbs is excited to see new writers develop. He's discovered his writing style "mostly by trial and error" and enjoys "sharing what I've learned."

For more information or to register, persons may call the FSU Office of Graduate Studies and Extended Education, 689-4299 or Dr. Bingman, 689-4420.

Personal Water Craft Safety Seminars Set

In an effort to keep personal water craft owners and users on Deep Creek Lake better informed regarding the new (and established) regulations set forth by the Maryland Department of Natural Resources (DNR), two seminars will be held at Deep Creek Lake State Park, one on Saturday, July 20, and one on Sunday, July 21.

This does not include kayaks, canoes, rowboats, and other traditional hull designs.

Advance reservations are required for class participants by calling the Lake Management Office at 301-387-4111, and registration will begin at 9 a.m.

New Law Provides For Extra Unemployment Insurance Benefits

Maryland legislation, enacted during the 1991 legislative session, provides an additional 13 weeks of unemployment insurance benefits for certain unemployed Desert Shield/Desert Storm veterans, effective July 7. This legislation enables these unemployed ex-military personnel to collect unemployment insurance benefits for 26 weeks, rather than 13 weeks, by combining the new state program with the federal program.

Unemployed Desert Shield/Desert Storm veterans eligible for this new Maryland program must be former full-time members of the armed forces who have exhausted their initial 13 weeks of benefits under the federal Unemployment Insurance Program for ex-service personnel.

Charles O. Middlebrooks, assistant secretary for employment and training of the Department of Economic and Employment Development (DEED), said, "Until now, all former armed forces personnel eligible for unemployment insurance were entitled to only 13 weeks of benefits under the federal program. Civilian jobless workers collect up to 26 weeks of benefits under the state Unemployment Insurance Program."

"State Delegate Hattie N. Harrison (D-45) introduced the legislation and DEED supported the bill establishing this additional benefits program in Maryland," said Middlebrooks.

Maryland is the first and only state nationally to establish a 13-week additional benefits program for unemployed Desert Shield/Desert Storm veterans. Currently, federal legislation is being considered which will establish a maximum of 26 weeks of benefits for all eligible former full-time armed forces personnel nationwide.

Middlebrooks stated that about 95 percent of all ex-military personnel who filed new unemployment insurance claims in Maryland on or after August 5, 1990, and who exhausted their original 13 weeks of federal unemployment insurance benefits before July 6, 1991, are being notified by DEED's Office of Unemployment Insurance of their possible eligibility for the additional state benefits.

Eligible ex-military personnel who were connected to Operation Desert Shield/Desert Storm and who are currently filing weekly claims for unemployment insurance benefits will be automatically placed in the additional benefits program by DEED after their original claim period has been exhausted. Claims may be filed by eligible unemployed ex-military personnel under the new program starting with the week of July 7. Periods of unemployment claimed before that date are not covered under this new program.

Unemployed ex-military personnel should visit their local Unemployment Insurance office of DEED for more information about this new Maryland Additional Benefits Program.

Garrett Closes Gap In Pursuit Of Lead In Mountain District

Charlie Plaugher GNB/Loch Lynn Service Center Player of the Week

Garrett County remains in second place in the Mountain District standings of Junior American Legion baseball this week, but could jump into a tie for first place with Farrady Post 24 of Frostburg with a win there this afternoon. The local team is currently one game behind Farrady after losing to them last Friday, 6-5, in McHenry and then coming back for easy wins over visiting Fort Cumberland on Saturday, 18-7, and over Victory Post 155 Tuesday, 17-1.

Last week's game against Farrady Post took 11 innings to complete, as the score was knotted at 4-4 after nine innings. A two-run double by Frostburg's John Cutter in the top of the 11th proved to be the winning hit, although Garrett County did come back for a single run in the bottom of the inning.

Cutter was also credited with the win on the mound, as he tossed the final two innings. Scott DeHaven led off the winning 11th with a walk and Shannon McKenzie was then hit by a pitch to put two runners on and set the stage for Cutter's winning double.

Garrett's single run in the bottom of the inning came as Garth Glotfelty, Charlie Plaugher, and Chad Sines walked to load the bases with one out. Kevin Green followed with a sacrifice fly to score Glotfelty, but Cutter got Ryan Harman to fly out to end the game.

The Garrett players had another opportunity to score several runs, but managed to record only one in the sixth inning when they had the bases loaded. McKenzie relieved Frostburg starter Rick Burley and struck out two Garrett batters and recorded the third out on a squeeze attempt. Garrett County scored one run on a wild pitch.

Garrett managed only four hits in the game, including a triple by Britten Martin, a double by Sines, and a two-run single by Green. Harman pitched all 11 innings for Garrett County, allowing just seven hits.

McKenzie tripled and singled, while Cutter rapped two doubles for Farrady, who upped their record to 10-1.

Charlie Plaugher, who was named the Garrett National Bank/Loch Lynn Service Center Player of the Week, drove in four runs with two doubles and a single in Saturday's win over Fort Cumberland. Green also finished with three hits, including a double, while Ritchie Baldwin added a triple and a double, Martin singled three times, and Brian Free singled twice. Garrett finished with 19 hits.

Bubba Conis doubled and singled, while Chris Cassell singled two times for Cumberland.

Chad Cooper, who relieved Baldwin in the seventh, was credited with the win over John Natolly.

Plaugher continued with a hot bat in Monday's crushing of Victory Post, as he rapped three singles and scored three times. Martin also knocked home three runs with a single, double, and triple. Green added a double and two singles, while Shane Skipper smacked a two-run double.

Harman, Randall Ours, and Green yielded only two hits, both of which were by Buck Lough.

In commenting on Plaugher's performance for the week, Garrett Coach Ed Wildesen noted that he has recorded nine hits in 17 at-bats the past three games. "We moved Charlie from the outfield to second base, and he has been playing like he owns second base," Wildesen said.

Wildesen also commented on the efforts of Kevin Green and Ryan Harman, as well as his starting catchers, Dave Kurtz and Shane Skipper. "Those two have thrown out more runners as catchers this year than I've seen in my previous years combined," Wildesen said.

Central Garrett, Grantsville Win In Pony Action

Central Garrett maintained its slim lead in the Bi-State Pony League this week by whipping Midland on Saturday, 8-3, as Jeremy Brenneman and Derek Mason combined for a one-hitter.

Meanwhile, Grantsville split a pair of contests, rolling over Westernport Friday, 17-8, in Westernport, and then falling to visiting Ellerslie, 5-1, on Monday.

Ellerslie is now 9-2, while Central Garrett is 10-2.

A two-out single in the second inning by Jeremiah McKenzie off Jeremy Brenneman was the only hit Midland (1-9) was able to record against Central Garrett on Friday. Brenneman aided his own cause by smacking a pair of doubles, as did Mason, who singled and doubled. Bill Younkin added a pair of singles in the 11-hit effort.

Paul Edwards was the star for Grantsville in its game against Westernport Friday, as he rapped three three-run homers and a two-run triple to give him 11 RBI. Josh Cutter added two singles in the 13-hit performance.

Leading Westernport's hitting was Mike Bennett, who tripled and singled, while Evan Orndorff stroked a three-run double.

Grantsville was held to just four hits on Monday by Ellerslie's Terry DeHaven, who also struck out a dozen batters and walked three.

Four of Ellerslie's runs, three of which were unearned, were scored in the first inning. One was recorded on a double by Steve Cook, while the other three were results of Grantsville errors.

Alan Sebold accounted for Grantsville's only run with a sixth inning double. Josh Kutler and Paul Edwards also doubled.

Jeremy Kennell singled twice for Ellerslie.

Taxidermists Hold Regional Events At FSU

The first Eastern Regional Taxidermists Convention and Competition, sponsored by the Maryland Taxidermists Association and sanctioned by the National Taxidermists Association, was held at Frostburg State University June 14-16. The awards ceremony which took place on Sunday, June 16, featured many of the 100 mounts registered for the competition and recognized many taxidermists. HEARING AIDS

DO YOU HAVE FEEDBACK OR WHISTLING WITH YOUR HEARING AID?
ARE YOU CONTINUALLY ADJUSTING THE VOLUME?

This is a common complaint that we hear from many hearing aid users. With the new Cleartone hearing aids you will not have feedback once the hearing aid is completely in your ear. You will not have to continually adjust the volume control, because the hearing aid will automatically reduce the loud noises for you.

We have found that it even helps those who have Tinnitus "ringing ears".

Come in today for a no-cost hearing evaluation and demonstration of the hearing aid!

Education Board

Continued from Page A-1

follows: A one and one half percent increase for education employees instead of the previously agreed upon six (administrators will receive no increase); deletion of the Southern High driver simulator; Accident paving; Hickory food service; property appraisal; and the transfer of transportation funding from local to state for the planetarium, Hickory, allied health, and College and Me program.

Deletion of activity bus; one half physical education teacher; VICA funding; connecting corridor at SHS, maintenance supplies; special education summer camp; and mock trial extra-duty positions; deletion of SHS furnishings; SHS floor tile, paving, physical education storage, and NHS bleachers; deletion of an additional elementary guidance counselor and one additional elementary teacher.

Deletion administration consultants; various pieces of instructional equipment; transfer of funding for band and athletic trips from local to state monies; elimination of general field trip monies; custodial supplies reduction; electricity and heat reduction; deletion of summer work crews; and air quality work at Southern Middle School.

Approximately $20,000 has been retained to provide a match to Potomac Edison for the Chrysalis project, which is an innovative computer server that will assist science teachers in obtaining the latest developments in the field.

The tiling, physical education storage, and chimney work at Southern High, as well as chimney work at Kitzmiller and Bloomington Schools, may all be required by the health department, so the costs of these projects were included in the final needed total. Although they were also listed as cuts, Ryscavage noted in a memorandum that the resultant balance accurately reflects the need.

Two programs on the list of options that were not cut were the foreign language program at the middle schools and the career education program. The career education program was not cut because there is no current position available for the teacher of that program, and the board is not permitted to dismiss any teacher in these budget proceedings.

One teacher of the foreign language program spoke on the merits of the program and urged the board to keep it intact. The program was not mentioned during the late-evening discussion of the options, and was not reduced in any way. Ryscavage stated later that the program was a new one, and that the board had been behind it from the start and that it was important to the members to keep the program going.

Board member Mikal Moomau stated that the language program was not discussed partly because of the lateness of the hour, but also because the program reaches more students than the gifted and talented program does, and that the students then use the valuable cultural and social knowledge in high school. She also stated that she felt more investigation would have to be done by the board members into the ramifications of cutting the foreign language program before they could actually eliminate or reduce it. Thus, the gifted and talented program was chosen, with difficulty, Ms. Moomau said.

When asked of the effects of the GT cut, Ms. Moomau stated she trusted that Dr. McCartney and Al Ringer would do their best at keeping the program intact, and that it will flourish again. Dr. McCartney was not available for comment this morning.

However, the teachers involved in the GT program feel that this decision will make it virtually impossible to meet the needs of the 178 students involved. The two remaining teachers will have to deal with 80 students each, and will have to conduct the first grade testing alone. This testing with four teachers usually lasts until November, so with the cut of two, the testing will most likely continue through January. The teachers must conduct the testing while maintaining the program throughout all the elementary grades as well.

Critical thinking skills in the GT program are built year by year, explained one GT teacher, beginning in the second grade. With the reduction of staff, this building method will be lost. The teachers feel that there is no way this cut will enrich the program, but will instead ruin it.

Before the board began the decision-making process, Charlotte Sebold, president of the Garrett County Council of PTA's, presented the members with a petition against the cutting of the program. The petition had 188 signatures.

Further information on the Garrett County Board of Education meeting will appear in next week's issue of *The Republican*.

GCC Office Tech Students Intern Locally

Three Garrett Community College students completed internships in the Office Technology program during the spring semester, according to Tammy Manthos, director of the program. The students and their supervisors were guests recently at a luncheon hosted by Manthos and Dr. Stephen Herman, GCC president.

The students were Jennifer Myers, who worked as a secretary to Elmer Selby, owner of Lakeside Services; Dawn Tichinel, who worked as secretary to Dave Bardsley for the Potomac Valley Farm Credit Office; and Marcia DeBerry, who worked for Jean Tressler in the Continuing Education Office of GCC.

The Office Technology internship is a three-credit course that is generally completed during the semester prior to graduation. Student interns are hired by various business offices and must complete a minimum of 106 hours working in an office.

Through these internships, students have an opportunity to integrate their academic background with professional work experience, In addition to practical application of skills learned in the classroom, students learn to develop characteristics of dependability, cooperation, and pride in their work, according to Manthos. They also gain "valuable insight" into how a particular office operates and see first-hand some of the policies and procedures involved in running that type of business.

Manthos commented about the program which is now in its second year, "I am excited about this new program. The office of the 1990's will require that office workers know more than basic secretarial skills, such as typing and word processing. They need to be knowledgeable in all areas of computer application and familiar with electronic equipment and programs, such as voice processing and electronic mail. They need to be 'take charge' people who can make decisions and work effectively with others in supervisory roles."

She continued, "Our program in Office Technology goes beyond the basic secretarial skills and instructs students in all areas of computer application -- in office management and in supervision. Graduates of the program will be at the cutting edge of technological advances so they can assume leadership roles as office managers."

Persons desiring further information about the Office Technology program are invited to call Manthos at 387-6666.

LUNCHEON HELD -- A luncheon was held recently at Will O' the Wisp for Garrett Community College office technology interns and their supervisors. During the spring semester, each intern completed a minimum of 106 hours working in an office. Pictured above seated with their respective supervisors standing behind them are Dawn Tichinel and Dave Bardsley of Potomac Valley Farm Credit; Marcia DeBerry and Jean Tressler of GCC's Continuing Education Office; and Jennifer Myers and Elmer Selby of Lakeside Services. Also attending the luncheon were Dr. Stephen Herman, president of GCC; and Tammy Manthos, director of Office Technology.

Cook Art Work Now On Display In Baltimore

Hillsong, an outdoor sculpture installation by local artist Donald Cook, will be featured in Baltimore City's Artscape '91 Festival, July 18-/ ugust 11. Built on a steep hillside overlooking the Maryland Institute College of Art's Mount Royal Station, *Hillsong* is a synthesis of sculptural and architectural elements and represents a continuation of the artist's ongoing preoccupation with house-vessel shapes.

The *Hillsong* site work is one of nine outdoor works selected by Richard Ellsberry, curator for Artscape's Neutral Ground project. The Neutral Ground project's unifying theme is environmental issues and impact. Cook's Hillsong, composed of three distinct elements - Tipple, Wash House, and Marker, suggests the mining and industrial shapes present within his native Allegany Mountain region, and comments on the environmental degradation which has so often been a factor in Appalachia's history.

The work's central element, Wash House, is a house-vessel of corrugated sheet metal which collects rainwater, passes the water through a layer of coal and charcoal and then empties the blackened, silted water onto a bed of river stones. The work's two flanking elements, Tipple and Marker, represent the extremes of aspiration and reality within the Appalachian experience. Tipple, a wooden frame structure covered with tar and topped by a string of lights rises 15 feet above the hillside and is capped by a small, gilded house at its highest point. Tipple's gilded cap signifies hope and aspiration; literally the "house of gold at the end of the tipple." Below this gilded cap, and marking the lowest end of the site, is Marker a sheet metal structure resembling a common mile marker or tombstone.

Coinciding in part with the Artscape project, Cook will also be exhibiting work at Baltimore Knight Gomez Gallery through July 27. At Knight Gomez he will be showing works from his recent *Moundsville Project*, a group of watercolors and sculpture centered on the prehistoric Grave Creek Mound site in Moundsville, W.Va.

Cook, a native of Midland, currently resides in Oakland.

HILLSONG, a site sculpture by local artist Don Cook, is presently being featured at the Baltimore Museum's Artscape '91.

Oakland resident Constance Margison, president of the League of Women Voters (LWV) of Garrett County, was recently presented with a certificated of appreciation at the 1991 League of Women Voters of Maryland Convention, held in Towson. The league had written a brochure, at the request of Md. Governor William Donald Schaefer, entitled "Redistricting and Reapportionment in Maryland." Copies of the brochure are available to the general public at the local league office, located at 202 E. Alder Street, Oakland.

Also speaking at the convention was Joan Hasse, LWV/US Nominating Committee and president of the Deleware league, who spoke about the methodical process in the selection of league officers on the national level.

It was also reported at the convention that the state league budget of $59,860 for 1991-92 is only $6,815 more than last year's budget.

State programs adopted for the coming year include the following:

-- A study of the election process (a survey of election laws and procedures in Maryland and other states, paying particular attention to changes which might lead to greater voter participation).

-- Continue the study of the state's role in managing growth and development.

-- Informational updates and monitoring of the process of redistricting and reapportionment (action to achieve equitable legislative and congressional reapportionment and redistricting based on standards of compactness, contiguousness and equal population).

The LWV is a non-partisan organization which works to promote political responsibility through the informed and active participation of citizens in their government. The league does not support or oppose any political party or candidate.

Local program studies for the coming year include charter home rule, with emphasis on educating the voters; recycling, and zoning and land management.

Membership in the league is open to all citizens, 18 years of age and older. Interested persons are asked to call Connie Margison at 334-3826.

In the Kitchen

America's BACKYARD CLASSICS

Uncover the lawn furniture and fire up the barbecue grill. It's time to relax with old-fashioned favorites... all-American hot dogs and refreshing summer drinks.

The Picnic Planner

If you are picnicking away from your own backyard, here are some practical hints you'll want to remember:

- Use a plastic drop cloth or inexpensive shower curtain liner under your picnic blanket to protect against moisture on the ground.
- Instead of the traditional "blanket," spread out a colorful, large flat bed sheet. Sheets are less bulky to carry and easier to wash.
- Stash a trash bag in your picnic basket so you can keep the picnic area clean if a trash container is unavailable.
- Select a site that is close to shelter so your picnic can continue if the weather turns bad.
- Try a covered grill for faster cooking and to maintain a hotter fire on windy days.

This summer Americans are slowing down to enjoy the simple pleasures of long, lazy days in their own backyards. Kids are riding their bikes or whirling on swing sets while dad lights the grill and mom spreads out the picnic tablecloth.

When temperatures soar and the days grow long, that's the time for a light, crowd-pleasing menu. Sizzling hot dogs and cool lemonade drinks are a classic way to relax with family and friends this summer. And with that simple menu, it will be easy for you to take time for summer pleasures, too.

Are you ready for delicious topping alternatives to the all-American favorites, ketchup and mustard? Just spread out the condiments for one or more of these regional wieners and let everyone fix their own. Start with the classic frank America has grown up with, *Oscar Mayer*® Hot Dogs. An even lighter choice is 80 percent fat free (20 percent fat) *Oscar Mayer* Light Hot Dogs which have one third less fat than regular hot dogs, but all the great taste your family loves.

Pair these sizzling wieners with the old-fashioned taste of Country Time lemonade flavor drink. Try it freshly mixed or as one of these summertime refreshers. They are all fast to fix and perfect for steamy summer days.

Hot dogs and lemonade drinks--classics for every backyard.

"Frank"ly Speaking

Americans do love hot dogs. In fact, 95 percent of us serve them in our homes. That comes to more than 14 billion a year or 80 hot dogs per person. Figuratively speaking, when laid end to end that's enough to reach the moon and back three times or circle the globe more than 16 times. More than 5 billion of these hot dogs are eaten during the peak summer months - Memorial Day to Labor Day - making the hot dog and its history an important part of American folklore.

Why is it called a hot dog? The legend began in 1901 when Harry Stevens, owner of the refreshment concession at the New York Polo Grounds, decided to serve warm sausages to chilly sports enthusiasts. His salesmen tramped through the stands shouting, "They're red hot! Get your red hot dachshund sausages!" Sports humorist Tad Dorgan was at that game and was inspired to create a new cartoon - a talking sausage. He named his character "hot dog" because he couldn't spell dachshund. The rest, as the saying goes, is history. Today hot dogs come in many guises, such as wieners and franks, and in many flavor varieties. But when all is said and done, they're still hot dogs.

Lighten up your family favorites. Responding to today's nutritional trends, meat-loving Americans can now choose hot dogs that range from 80 to 90 percent fat free. Even hot dog buns and potato chips come in lighter varieties. If you're looking for the perfect excuse to eat your favorite hot dog and other summer foods, check out the "light" labels. You'll find that many of these products have cut the fat without sacrificing flavor. In fact, they might come to be your new family favorites.

Southern Wieners

Dixie has its own style for jazzing up hot dogs. First the bun is brushed with a sweet and spicy barbecue sauce, then add the *Oscar Mayer* Wiener, and a finale of chopped sweet onions.

Heartland Hot Dogs

This fabulous frank may have started in Chicago, but it's become a favorite all over the midwest. Just slide the wiener into a poppy seed bun and top with mustard, relish, chopped raw onion and tomato slices.

Pacific Sun Dogs

All over the Pacific beaches they're dressing up their *Oscar Mayer* Light Beef Franks with freshly made guacamole, chopped red tomatoes and alfalfa sprouts. Pure gold!

Yankee Franks

Street vendors in the big city sure know what their frank fans love. They load up their plump hot dogs with plenty of sauerkraut, onions and mustard. A curbside feast!

Rio Grande Salsa Dogs

Desert lovers want it hot! That's why they smother their *Oscar Mayer* Beef Franks with a zippy salsa, refried beans, and shredded lettuce and cheese. Great in a toasted hot dog bun or taco shell.

Headed In The Right Direction

One small sailing vessel sits on the horizon, surrounded by the vastness of the sea. The sky is becoming threatening, its azure blue surrendering to churning clouds of blackness. No longer is the sea an expanse of liquid sapphire, sparkling in the sun. It has become a manipulative gray monster, violently tossing the little sailing ship with angrily waving arms.

Just as it appears that the tiny ship will forever become a prisoner to the depths of the sea, a white cloud of billowing sails floats triumphantly from the mast of the frenzied craft, and it begins its voyage back to the safety of the shore . . . headed in the right direction.

We all encounter storms and crisis at some time in our lives. Yet, we need not succumb to them, for like the billowing sails, God is always there if we call on Him, waiting to rescue us . . . to head us in the right direction.

Look to God this week as you worship in your church or synagogue.

BEYOND THE ODDS

July 14, 1991

Background Scripture:
Nehemiah 4.
Devotional Reading:
Zechariah 9:1-13.

The odds were very much against the returned exiles in Jerusalem. True, they had the permission of King Artaxerxes and even his commitment of resources to rebuild the walls of Jerusalem. That made it official.

But it was on the unofficial level that the greatest obstacles lurked. Nehemiah tells us that their Samaritan enemies—the Arabs, Ammonites and Ashdodites, particularly the governor of Samaria, Sanballat—were "very angry; and they all plotted together to come and fight against Jerusalem and cause confusion in it" (4:8). The Jews were greatly outnumbered, were surrounded on all sides and poorly equipped to defend themselves.

The Samaritans' anger turned next to ridicule: "What are these feeble Jews doing?" scoffed Sanbalat. "Will they restore things?...Will they revive the stones out of the heaps of rubbish and burned ones at that." And Tobiah was just as disdainful: "Yes, what they are building—if a fox goes up on it he will break down their stone wall!" (4:2,3).

So, those were the odds.

INTANGIBLES

But sometimes, not everything shows up in the odds. Sometimes there are things that cannot be counted—one, two, three—that are no less powerful because they are not tangible. Commitment never shows up when we count the odds, but it can have a great deal to say about the outcome. And the people of Israel were committed. "So we built the wall," says Nehemiah, "and all the wall was joined together to half its height." Why? "For the people had a mind to work" (4:6).

There was another intangible that did not show up on the odds listings: prayer. While their enemies plotted to attack Jerusalem, Nehemiah informs us, "we prayed to our God..." (4:9). Prayer doesn't show up in the computerized odds, the organizational charts, the ratings game, or the inventories' of material might. But that doesn't mean that prayer does not affect the final results. The Jews didn't have well-trained troops, the latest weapons, or military experience; what they had was the power of prayer.

SUPPLEMENT YOUR PRAYERS

Sometimes, however, we must supplement our prayers with practical, effective action. To pray for God's help in passing an examination matters little if we are also unwilling to study. To pray for improved health is likely to be futile if we continue the same poor health habits. The Israelites under Nehemiah need both to pray and to keep their eyes on their enemies. So Nehemiah, refusing to choose between prayer and action, brings the people to do both: "And we prayed to our God, and set a guard as a protection against them by day and night" (4:9). To beat the odds, we need to pray and we need also to back up our prayers with our most effective action.

The small groups of Jews were not enough to cover the whole wall, so Nehemiah said, "In the place where you hear the sound of the trumpet, rally to us there. Our God will fight for us" (4:20).

That's good advice for us, too. We can't be everywhere, doing everything. But, when we hear it, we need to run to the sound of God's trumpet, for he has something for us to do there.

COVER STORY

'Golden Years' role is felicitous for Huffman

BY LYNN HOOGENBOOM

If Felicity Huffman's role in Stephen King's "Golden Years" seems unusual, there's a good reason for it. (The summer series premieres Tuesday, July 16, as a two-hour movie, then moves to Thursdays for a six-episode run.)

Felicity Huffman

"She was written as a man, Otis, two weeks before they cast me," Huffman reveals.

Her character, now named Terry Spann, is the head of security at a secret government lab in which an explosion injures elderly janitor Harlan Williams (Keith Szarabajka). Not long afterwards, Harlan's wife, Gina (Frances Sternhagen), notices some puzzling changes in her husband – he actually seems to be getting younger. With the government ready to pounce on this most unusual specimen, Harlan and Gina make a run for it and find an unlikely ally in Terry.

"What happens to him is what everybody wants," says Huffman. "Those aches start to disappear. You start to have energy. At first it seems like a blessing. Then I think he realizes that what he's giving up is growing old with – if you'll excuse me – his soul mate. And the price is incredibly high."

Huffman enjoyed Stephen King's writing long before she landed the role. "But what attracted me wasn't, 'Oh, a Stephen King project; sign me up!' " she says. "What attracted me was the character."

Huffman is intrigued by the fact that Terry was created without sexist assumptions. "I hope she will be a new kind of woman on television, one that doesn't need to be conniving, one that doesn't have to be manipulatively weak, one who is given her due," she says. "I hope that it comes off as it's written, because it's possible that it won't. And I hope that it's appreciated as such if I played it right, which it's possible that I didn't."

If Huffman sounds a little uncertain, it's because she has worked primarily in theater (she was Madonna's replacement in "Speed-the-Plow" on Broadway), and working in front of the camera requires an entirely different mind-set.

"You go in with something prepared, and the director gives you blocking that is the antithesis of that," she says. "So in 10 minutes – literally – you've got to reanalyze the scene and refigure out what you're doing. I watch Keith Szarabajka, who has done a lot more television than I, and Frannie Sternhagen, who's done quite a bit of film work, and you can see them dancing around the process. They're really facile at changing things and being impulsive."

For Huffman, it's more of a struggle. "It's like playing a tennis game in the dark," she says. "When you hit the ball it feels good, but you can't see where it went."

Felicity Huffman – here with executive producer Richard Rubenstein (l.) and writer Stephen King – stars in "Golden Years," premiering Tuesday, July 16, on CBS.

Expansion offers chance to realign NL divisions

BY CHRISTOPHER HULL

When the 1993 season rolls around, there will be two new teams in the National League: one in Miami and one in Denver. The addition of the new franchises presents commissioner Fay Vincent with an opportunity to rectify the National League's convoluted divisional alignment.

As things stand now, Atlanta and Cincinnati are in the Western Division, even though both cities are farther east than Chicago and St. Louis, which are in the Eastern Division. This odd alignment has existed since the divisional format was first instituted in 1969, when the Montreal and San Diego franchises were added to the league.

Fay Vincent

At the time, the idea of putting Chicago and St. Louis in the West was brought up, but it was rejected by Chicago. The Cubs' president, the late Philip K. Wrigley, protested that, "Too many of our games would have to be televised late at night because of the West Coast time difference." Wrigley was able to insist on the Cubs and their regional rivals, the Cardinals, going into the East, while relatively cloutless Cincinnati and Atlanta were put in the West.

But a look at the Cubs' 1991 television schedule suggests that the old argument for alignment with the East is no longer valid, if it ever was. This year, playing an unbalanced schedule (each National League team plays teams within its division 18 times and teams outside it 12 times), Chicago has 11 games that air after 8:05 in the Central time zone. If the Cubs were in the West and playing a balanced schedule (each team plays 13 games against teams within its division and 12 against teams outside it), as the American League now does, the number might not be any higher than 12 or 13.

Sure, problems would remain even after any realignment and a switch to a balanced schedule: The West would cover three time zones and the East only one, and teams would play more total games against teams in the other division than they would against teams in their own (since they don't play themselves). But common sense demands that the change be made.

• CBS airs two games this week: On Sunday, July 14, Baltimore visits Oakland, and on Saturday, July 20, the network airs either Los Angeles at New York or Detroit at Kansas City. On Sunday night, ESPN has Texas at Toronto.

• ESPN has live and taped coverage of the U.S. Olympic Festival every day this week.

TV DIALOGUE

BY TONI REINHOLD

WILL ROGERS – Did Will Rogers have any children? When and where was he born? When did he die? I say he was born in this century, but my wife says he was born in the 1800s. – W.G., Birmingham, Ala.

Will Rogers

Humorist and actor Will Rogers was born William Penn Adair Rogers on Nov. 4, 1879, in Oologah, Indian Territory (now Oklahoma). He married Betsy Blake in 1908, and they had three children: Will Jr., Mary and James. He died in a plane crash with aviator Wiley Post Aug. 15, 1935, in Point Barrow, Alaska. His films include "State Fair" (1933), "Judge Priest" (1934), "Life Begins at Forty" (1935) and "Steamboat 'Round the Bend" (1935).

SEE YOU REAL SOON – I have tried to follow the Mickey Mouse Club over the years, but it has been almost impossible to keep track of it. How many times has it been revised? – J.W., Hendersonville, Tenn.

The first Mickey Mouse Club ran in movie houses in the early 1930s. A new version aired on TV for four years beginning in 1955. Syndicated reruns of those shows led to yet another version in 1977. The current version on cable's The Disney Channel began three years ago.

'MISS' SAWYER – Was Diane Sawyer a beauty queen? Where is she from? Didn't she have something to do with the Nixon administration? – D.C., Englewood Cliffs, N.J.

Diane Sawyer, who comes from Glasgow, Ky., and is the daughter of a judge, was America's Junior Miss of 1963. During the Nixon administration, she worked in the press office and eventually as a staff assistant to the president. After Nixon's resignation, Sawyer spent the next four years working with him on his memoirs.

MUNSTER MAIL – What was the address for the Munster family in the original series? – K.N., Rutland, Vt.

The unusual family resides at 1313 Mockingbird Lane.

FAZENDA FILM – I remember the fine actress Louise Fazenda being in something called "Gunsmoke." Was it the TV series or something else? – P.C., Raleigh, N.C.

Fazenda appeared in a 1931 film titled "Gun Smoke," but not the long-running television series.

IN FOCUS

This year marks the 50th anniversary of two of the most remarkable feats in baseball history: Joe DiMaggio's 56-game hitting streak and Ted Williams' .400 season. On **Tuesday, July 16**, A&E's "Biography" airs "Joe DiMaggio: The Way It Was," a look at the player's career and the thrilling 1941 baseball season. Interestingly, DiMaggio hit safely in 61 straight games with the minor-league San Francisco Seals eight years earlier, in 1933.

IN FOCUS

When PBS's epic 11-hour documentary "The Civil War" premiered last fall, it struck a powerful emotional chord in critics and viewers alike. Filmmaker Ken Burns found incredible life and drama in photos and lithographs of that era and used a series of voices reading the actual words of the participants, including Ulysses S. Grant (pictured), to drive the story. A national rebroadcast begins **Wednesday, July 17**. (Check local listings.)

SUNDAY

Patrick Duffy ("Dallas") and Rue McClanahan ("The Golden Girls") star in "Children of the Bride." They play an engaged couple whose marriage plans are complicated by the problems of her four grown, troubled children. The 1990 TV movie is rebroadcast **Sunday, July 14**, on CBS.

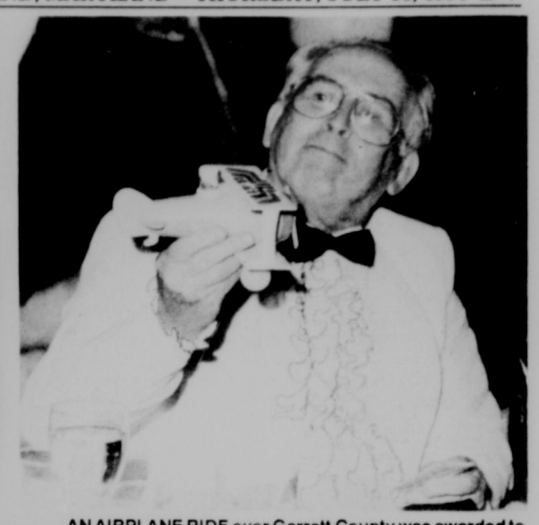
GLAF Dinner, Auction Nets Record $12,000



The recent annual Garrett Lakes Arts Festival Gala Benefit, which included a dinner, entertainment, and auction of arts, antiques, and specialties at Wisp Resort, McHenry, netted a record $12,000 for the 1991 summer season of cultural events held at Garrett Community College. Over 250 guests attended the affair, for which the theme was "What's Black and White?" A committee of 10, working with the benefit's founders, Ferne Belmonte, Ann Englander, and Diane Thayer, staged the gala. Photos by Joanie Johnston.

"WE'RE SO HAPPY that so many are here tonight," stated an elated Jim Harvey, president of the GLAF board of directors.

Edwin Stitt, winner of the door prize season tickets to Cumberland Summer Theatre, is congratulated by Shirley Giarritta.

AN AIRPLANE RIDE over Garrett County was awarded to the top bidder, Bob Feller.

HAVING A GRAND TIME at the Gala were, seated left to right, Naomi Oliver, Rita Watson, Robert Watson, Delegate Betty Workman, and Mr. Workman. Standing, same order, are Douglas Schmidt, Shirley Giarritta, Mike Belmonte, and Dr. Nicholas Giarritta.

"SOLD, to number 214!" barked local auctioneer Tom Henline, who donated his services for the GLAF benefit auction.

ORIGINAL WORKS OF ART by regional artists were among the items on sale via auction, samples of which are being displayed here by Oakland area residents (left to right) Mary Lantz, Mary Jane Berry, and Suzanne Conger.

KICKING UP THEIR HEELS to the music of Susan Williams, George McDowell, Charlie Morris, and Tom Tressler were Carol and Dan Muss.

AMONG THE SATISFIED CUSTOMERS at the GLAF Gala auction were Gail and John Quigley, pictured center. Also pictured are Jenianne Stitt, one of the Gala organizers, and Marshall Stacy.

"A GREAT PARTY, FERNE!" exclaimed Senator John Hafer. Ferne Belmonte was the coordinator of the GLAF Gala.

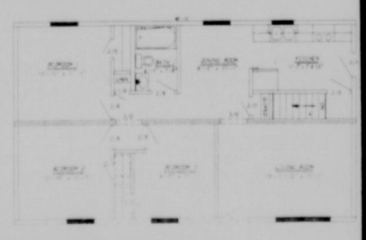
Most Fatal Auto Crashes Not The Fault Of Truckers

The majority of fatal crashes involving large commercial trucks in Maryland are not the fault of the truck driver, according to a report prepared by the Maryland State Police Commercial Vehicle Enforcement Division.

"In 58 percent of the fatal crashes involving large trucks, the passenger vehicle was reported as being at fault," said Lieutenant Richard H. McGee, author of the report. Appearing on the Maryland State Police Radio Program, a weekly public service broadcast, Lieutenant McGee said approximately one-third of the crashes were caused by the truck. "Large trucks were at fault in 33 percent of the fatal crashes surveyed." McGee added.

The 38-page report entitled Large Truck Involvement in Fatal Crashes, concluded that in nearly 80 percent of the crashes, the mechanical condition of the large trucks was found to be without safety defects. The preliminary findings list defective brakes as a contributing factor in 7.6 percent of the 157 fatal collisions involving large trucks during 1989 and 1990.

"When people see a large truck involved in a crash, they have a tendency to prematurely conclude that the large truck was at fault," added McGee.



The Maryland Motor Truck Association says the report points to the need for motorists to do a better job in sharing the highway with large trucks.

"Trucks are not as maneuverable as cars," said Edward Gallagher of the Maryland Motor Truck Association. "Large trucks cannot stop or turn as easily as cars." The Maryland Motor Truck Association, which represents more than 1,000 trucking companies in Maryland, has supported several highway safety programs including Maryland's Preventive Maintenance Program. The program requires trucking firms to perform safety inspections on trucks annually, or every 25,000 miles.

Unique Career Of Local Artisan Keeps Memory Of The Civil War Alive

By Mary Sincell McEwen

Approximately 130 years ago, the United States of America was thrust into a bloody Civil War which often pitted brother against brother, literally. This phenomenon of families against families was suffered a great deal in the Garrett County and surrounding West Virginia area, as the actual battle line fluctuated from northern Virginia, up through Maryland and parts of West Virginia. This area was torn, as residents differed on which side they supported, the North or the South.

In fact, the town of Oakland was captured in the early part of the Civil War by a Confederate Cavalry. The rebels had held the town for 24 hours when the U.S. Sixth West Virginian Company regained power. Approximately one third of the Sixth Company was made up of Garrett Countians. (Actually Allegany Countians, as Garrett was not yet established.) This episode is one of many that signifies how torn the area truly was.

Many people are quite fascinated with this war, and one Garrett Countian in particular is able to make a living by aiding those who wish to keep the memory of it alive. He is David Terrant, and he creates reproductions of Civil War uniforms and other items. Terrant then sells his wares to suppliers, who in turn sell them to Civil War re-enactors. These "soldiers" use the uniforms as well as other reproduced items including muskets, knapsacks, tents, and utensils, while replaying battle scenes from the great war.

Terrant, who resides on Turkey Neck Road with his wife, Crystal, and one son, has been constructing these uniforms as his living for approximately four years. He said he began the craft as a hobby and an extension of his interest in Civil War history. As the demand from suppliers grew, Terrant realized that he would have steady work as a uniform producer.

THE "WAR BETWEEN THE STATES" REMEMBERED - David and Crystal Terrant give readers a flash from the past in the photo above as they display reproduced clothing from the Civil War era. Terrant makes his living producing such clothing and selling it to suppliers who then sell to Civil War battle re-enactors. Terrant, who is dressed as a Union Second Lieutenant, is currently organizing a local re-enactment group to re-create Company B of the Seventh West Virginian Infantry. All interested persons are invited to contact Terrant at 334-4437.

The manufacturer makes both Union and Confederate uniforms and caps. He explained that blue dye was difficult to come by in the 1860's, thus the more affluent Union army was dressed in blue while the poorer South used cheaper gray dyes. Terrant has recently been deluged with cap orders, he said, and is turning out one cap per two and a half hours, or 12-20 caps per week.

When the orders for jackets and pants come in, the artisan explained that with the assistance of his wife, he can produce approximately 10 coats per week. The couple also works together in reproducing Union and Confederate flags. They work on whatever the suppliers may need, he explained.

Terrant is also a re-enactor, having served with the Second North Carolina for several years. He is currently striving to assemble a local re-enactment group. The group would re-create Company B of the Seventh West Virginia Infantry. The company was of the Union Army, and was made up of men from this area and the surrounding West Virginian towns. Terrant explained that although West Virginia did not officially become a state until 1863, this group was organized in 1861 as the Seventh Virginia Infantry, and was indeed a Union company. This again shows the disparity between the area's people, as many of Virginia's residents were obviously southern sympathizers.

Terrant said that the Seventh West Virginia joined the Army of the Potomac in Winchester, where they stayed for the early part of the war. The group was then involved in every major battle from '62 until '65, including Antietam, as well as the final battle against Robert E. Lee at Sayler's Creek. Terrant is currently gathering further information on the company and its experiences.

Terrant's wish is to form a group of re-enactors from this area who will participate in re-enactments during the summer months. The members will train by learning drills in practice sessions, which will be held once a month to every six weeks. The participants will be required to purchase uniforms, shoes, and equipment. During the actual re-enactments, participants live as the Civil War soldiers lived, in tents and around campfires at night, dressed at all times as the soldiers would have dressed. They will have drill practice, and they will engage in authentic re-enactments of famous battles.

Wives of participants also have a place in the re-enactments, as they may dress as women of the day dressed, and attend various functions with other wives during the events. Occasionally during the war, an officer's wife would be allowed to stay with him at the actual camp, and the re-enactors do this as well. Children, too, may be seen dressed in 1860's garb during these re-enactments.

Any person interested in joining the re-enactment group is urged to call Terrant at 334-4437. He said there are approximately 10 persons who have already voiced an interest, and more are invited.

For those whose hearts are with the South, a re-enactment group of the Confederate 26th Regiment of Virginia Infantry is also forming in Piedmont, W.Va., and persons may receive more information on this regiment by contacting Shane LaRue at 304-355-2613.

Through joining these unique groups, whether it be for the North or South, each participant may become a part of living history.

Health Dept. Confirms Ninth Rabies Case

The Garrett County Health Department confirmed the county's ninth rabies case on July 3, according to a department spokesperson.

Richard Bailey of Finzel Road, eastern Garrett County, told the health department personnel that he had heard his dog barking throughout the night, and in the morning he discovered a dead raccoon in his yard. He suspected that his dog had killed it. Bailey took the raccoon to the health department where it was confirmed rabid.

Bailey's dog was currently vaccinated at the time of the altercation, and was re-vaccinated shortly afterwards. There was no human exposure in the incident.

All rabies cases this year have occurred in raccoons, the health department spokesperson said.

There will be a "cats only" rabies clinic in August, the spokesperson announced, and a regular clinic for all pets will be held in September. Definite dates have not yet been set.

Chapter I PAC Honors School Volunteers

The third Garrett County Chapter I Parent Advisory Committee (PAC) meeting of the 1990-91 school year was held recently at the Will O' the Wisp at which time parent volunteers were honored. There were 49 persons in attendance.

Guests were welcomed by Linda Fleming, resource teacher at Dennett Road Elementary School. Minutes of the February meeting were read by Joan Whetsell, resource teacher at Friendsville Elementary School.

Nominations for the 1991-92 PAC officers were announced by Carole Ann Lovett, resource teacher at Crellin Elementary School. The nominees are: president, Elizabeth Shiflett and Mary Stanton; vice president, Celeste Brenneman, Ruth Ann Hinebaugh, and Nita Upton; and secretary, Diane Lucas and Naomi McKenzie.

The awards ceremony was hosted by Charlotte Ward, resource teacher at Loch Lynn Elementary School.

Volunteers receiving 400-hour certificates were Sharon Broadwater, Barbara Moore, Chris Palmer, Marla Harvey, Sandy DeWitt and Betty Eaton, Broad Ford Elementary School; Wendy Crosco, Jackie Sereno, and Judy Tusing, Crellin Elementary; Pat Bowser, Donna Durst, Hala Laverdure, and Randy Cook, Dennett Road Elementary; and Denise McFarland and Charlotte Resh, Grantsville Elementary School.

Parents with 800 volunteers hours included: Barbara Snyder, Broad Ford; Kayla Cathell and Barbara Schick, Dennett Road; Ada Beachy, Olen Beachy, and Sherrill Meyers, Grantsville.

Others recognized were Betty Gerwig, Grantsville; and Debbie Paugh, Kitzmiller, for volunteering 1,000 hours; Ruth Ann Hinebaugh, Broad Ford; and Linda Bowman, Red House; for 1,400 hours; and Elizabeth Shiflett and Dotty Folk with over 2,000 hours.

The awards were presented by Beverly Murphy-Sines, president of the Garrett County Board of Education.

Dr. Michael Yura from West Virginia University, Garrett County Chapter I's parent liaison, spoke about volunteering and how giving must be balanced by taking -- taking some time for one's personal interests. This was the conclusion of his series of presentations for parents given throughout the year at various Chapter I schools.

The program concluded with door prizes being given, followed by a luncheon. Dusty Stanton, resource teacher in Media, served as photographer. Jayne David-Nestor, resource teacher at Kitzmiller and Red House was in charge of the registration.

Arrangements for the event were coordinated by Mrs. Judith Paugh, Chapter I secretary, and Dr. Charleen Evans-Thomas, supervisor of Chapter I.

The event is a component of the parenting program of the Chapter I project, a federal program operated by Garrett County Board of Education.

C&P To Address Surcharge Problem

C&P Telephone Company of Maryland announced last week that it has taken action to make certain that customers do not pay a surcharge for C&P calls placed through the company's operators on June 26, the day of the telephone network problems. Calls will be charged at the lower direct dialed rate.

"During the service problem, many of our customers were able to complete local and short-distance toll calls only through our operators," said J. Henry Butta, president and chief executive officer of The Chesapeake and Potomac Telephone Company of Maryland. "Normally, there is an additional charge for operator assistance, but we have taken action to remove those charges from customer bills."

Butta said charges for calls made on June 26 normally would begin appearing on customer bills as early as Friday, July 5. A surcharge of $1.55 per call is applied to operator-assisted local calls.

If customers wish to discuss any additional C&P charges for calls placed on June 26, they should call the Business Office upon receipt of their telephone bills.

"We apologize to our customers for any inconvenience caused by this service problem," Butta said.

Arby's To Give Boost To Big Bros./Sisters

Arby's Restaurant of Oakland has decided to make a contribution to the Garrett County Branch of Big Brothers/Big Sisters of the Alleghenies, and the amount of the contribution will be decided by Arby's customers. Mac Browning, owner of Arby's and John Kunis, manager, have informed Big Brother/Big Sister coordinator, Dan Seib, of their intention to help the organization.

During the week of July 15-21, Arby's will make a donation to Big Brothers/Big Sisters for every large order of French fries they sell. Twenty-five cents for every order will be given to the local youth organization.

"I knew that Arby's Corporation was a national donor to Big Brothers/Big Sisters of America" said Seib, "so for them to donate on the local level also, is extremely generous. I'd like to encourage everyone to stop by Arby's during the week and enjoy some French fries."

For information on the services offered by the Garrett County Branch of Big Brothers/Big Sisters, persons may contact Seib at 334-3591 on Monday, Wednesday, or Friday from 9 a.m. to noon, or leave a message at that number. Persons may also write the Garrett County Branch, Big Brothers/Big Sisters, P.O. Box 122, Oakland, Maryland 21550. Seib said the local chapter is seeking both children and volunteer adults who would like to become involved in the program.

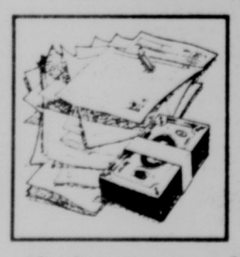
Otitis Externa is "Swimmer's Ear"

An infection of the ear canal brought on by the presence of too much moisture in the external ear is commonly referred to as "swimmer's ear." The technical or medical name for this condition is *otitis externa*, meaning inflammation of the external ear canal.



Very often otitis externa results from water entering the ear during diving or swimming. Water may become trapped in the ear due to the presence of excessive ear wax. The moisture softens and wears away skin lining the outer canal. This makes the canal more susceptible to infection. Other causes of otitis externa include hair dye, hair spray, or excessive cleaning of the ears with cotton swabs. The ear canal may itch and become inflamed. Fluid may drain from the ear at night and often can be seen on pillows the next morning.

Although nonprescription ear cleaners are available, many authorities recommend professional removal of ear wax. Ear drops may be effective in relieving pain and itching. Aluminum acetate drops may help decrease swelling and ear canal crusung. Oral pain relievers may help. Antibiotics or antifungals sometimes are needed.

Ohio Legislature Asked To Establish Minimum Milk Prices For Dairy Farmers

"Dairy farmers are facing the most dramatic price swing in history with milk prices currently plummeting to the lowest level in thirteen years. This means that dairy farmers in Federal Order 36 will suffer a 15 percent loss of income in 1991 while their production cost continues to rise. Under these volatile pricing conditions, the dairy farmer board of directors of the Producers' Equalization Agency (PEA) have requested Ohio state legislators to establish minimum milk prices for Ohio dairy farmers," says Robin Boggs, secretary of the PEA board and a dairy farmer from Ashtabula County, Ohio.

"New York, Pennsylvania, New Jersey, and most of New England, have established regulations calling for minimum milk prices. However, Ohio dairy farmers do not have a mechanism to implement minimum milk prices to help stabilize the dairy industry. We feel there is a critical need for a state regulation to establish minimum milk prices which can help maintain a healthy dairy industry in the area," adds Robin Boggs.

John Siglow, general manager of PEA, explains, "We feel the need exists for such action which can be supported by the fact that Ohio has slipped from the seventh largest milk producing state to the eighth largest milk producing state. During the last several years, dairy processors as well as cooperatives have gone to New York, Pennsylvania, Indiana, Michigan, and at times, even as far as Wisconsin to procure sufficient milk supplies for our market. As this trend continues, Ohio dollars are flowing out of the state to obtain additional milk supplies while revenues which could have been produced by Ohio dairy farmers are diminishing.

"PEA was established by dairy farmers in eastern Ohio, western Pennsylvania to allow dairy farmers in Federal Order 36 to price their milk. Currently, PEA had over 3,300 dairy farmer members. However, in order to effectively negotiate or legislate prices, we need at least 5,000 dairy farmer members, which would provide the ability for dairy farmers to establish their milk price. For more information, those interested may call 1-800-875-2250," concludes Siglow.

Farmers' Markets To Accept WIC Coupons Again

For the third straight year, Maryland is participating in a national pilot project to expand the awareness and use of retail farmers' markets by participants in the supplemental food program for Women, Infants, Children (WIC). Selected Maryland WIC clinics began distributing farmers' market coupons to eligible participants on July 1.

Eligible WIC recipients within participating areas of the state will each receive ten dollars worth of coupons. These coupons can be used to purchase fresh fruits and vegetables at authorized Maryland farmers' markets.

Maryland is one of ten states selected by the U.S. Department of Agricultue (USDA) Food and Nutrition Service to participate in the three year Farmers' Market Coupon Demonstration Project. The USDA provides 70 percent of the funding for the program with participating states paying the balance. The Maryland project is coordinated by the Maryland Department of Agriculture in cooperation with the Department of Health and Mental Hygiene's state WIC office. The Maryland Food Committee processes the redeemed coupons and mails checks to participating farmers.

Since the project started, more than $110,000 in coupons have been redeemed at Maryland farmers' markets. The project coordinators expect to distribute $192,000 worth of coupons to eligible WIC participants in 1991. Eighteen Maryland farmers' markets have agreed to accept the coupons this year, up from seven when the project began. The farmers' markets authorized to accept coupons are: Mountain Fresh in Oakland; Cumberland; Rockville; Takoma Park; South Carroll County in Eldersburg; Oakland Mills in Columbia; Bel Air; Essex; Towson; Howard Park in Baltimore City; 32nd Street in Baltimore City; JFX in Baltimore City; Irvington in Baltimore City; Gardenville in Baltimore City; Anne Arundel County in Annapolis; Southern Maryland in Cheltenham; Waldorf; and Dorchester County in Cambridge.

Surveys conducted by the project coordinatora indicate that the coupon project has been very popular with participating farmers and WIC recipients. A large majority would like to see it continued, however, funding has only been appropriated through 1991. Congress is currently considering legislation which would expand and continue the program for an additional five years.

OAKLAND CHAPTER PLACES FIRST IN FFA AG BOWL — The Oakland FFA Chapter placed first and the Middletown FFA Chapter, second, in the Production Ag Bowl Contest which was held on June 19 during the 63rd Annual Maryland State FFA Convention at the Ramada Inn in Hagerstown. The Institute of Applied Agriculture at the University of Maryland in College Park sponsored the contest as a special project of the Maryland FFA Foundation. Members of the Oakland first-place team, pictured left to right, are: Brian Friend, Elaine DeBerry, Jim Rhodes, Ty Miller and Advisor Steve Kisner. According to Contest Superintendent Roy Walls, instructor at the Institute of Applied Agriculture at the University of Maryland, College Park, there were seven teams in competition with 28 FFA members participating. Each of the participating teams were scored by the judges on the quickness and accuracy of their responses to specific questions related to production agriculture.

House Subcommittee Marks Up Dairy Bill To Raise Support Price

The House Dairy, Livestock and Poultry subcommittee has completed mark up of a dairy policy bill. The legislation now moves to the full House Agriculture committee for further review.

The present bill includes all of the major elements of the National Milk Producers Federation policy position with several additional issues which will be discussed further in the committee proceedings.

The major points of the marked-up dairy bill include:

•Support price would be adjusted to $12.60 in 1992 and 1993, $12.10 in 1994 and $11.60 in 1995 and 1996.

•Commodity Credit Corporation would be responsible for five billion pounds of surplus purchase each year.

•A producer-elected Dairy Inventory Management board would be created with responsibility to purchase and dispose of all excess milk over five billion pounds. The cost to be uniformly assessed to all producers on all milk marketed in the U.S.

•Marketing two-tier inventory adjustment program triggered at seven billion pounds surplus.

•The solids-not-fat standards for fluid milk would be increased to the "California" standards.

Action in the full House committee is expected this week with a House floor vote by August 1. Farm organizations and dairy cooperatives feel there is much work that must be done to many elements of the bill before it is acceptable to the dairy industry.

Action on dairy legislation has not been scheduled on the Senate Agriculture Committee as of this date. Although it's expected that the Senate will mark up a bill shortly after the July 4 recess.

Processing Vegetable Acre Up 1 Percent

Vegetable processors have contracted with farmers for 1.52 million acres planted to the four major vegetable crops (snap beans, sweet corn, green peas, and tomatoes). Acreage is up one percent from last year and nine percent above acres contracted in 1989. Snap beans processors have contracted for 237,340 acres of snap beans in 1991, down two percent from last year and six percent below two years ago. Canners planted 170,690 acres, a gain of two percent; while freezers acreage, at 66,650 acres, is off 10 percent.

Sweet corn planting for processing is contracted on 555,650 acres this year, a gain of four percent from a year ago and 15 percent above 1989. Canners are looking for 336,980 acres, an increase of eight percent; while freezers plantings, at 218,670 acres, dipped one percent below last year. Green peas producers planted peas on 362,700 acres this year, down two percent from last year but nine percent above two years ago. Canners contracts covering 168,800 acres, are down one percent from last year and freezer plantings totaling 193,900 acres, are down two percent.

Oakland FFA Members Score Well At Annual State Convention

The 63rd Annual Maryland Sate FFA Convention was held on June 19 and 20 at the Ramada Inn in Hagerstown. Over 300 FFA members and guests participated in convention activities including delegate sessions, committee meetings, leadership contests, and chapter competitions. The convention activities were directed by the 1990-91 State FFA Officer Team under the leadership of President Melinda Horner from the Walkersville FFA Chapter in Frederick County.

Special activities of the convention included presentations by the National FFA Vice President, Ben Nessmith, and the retiring addresses of the state officers. Other activities included a Record Book Awards Program sponsored by Maryland Farm Bureau and the American Royal Ambassador Scholarship Program sponsored by Farm Credit Bank.

Two special VIP awards were presented to recognize outstanding contributions to the Maryland FFA Association. The Blue and Gold Award was given during the third convention session to Dr. Ivar Holmberg, agricultural education instructor at the University of Maryland, Eastern Shore. The Distinguished Service Award was also presented during the third convention session to the Maryland Department of Agriculture, the award was accepted for the Honorable Wayne A. Cawley by Dr. Arch Park, assistant secretary of agriculture for Animal Health.

The Maryland FFA Foundation, Inc. gave special recognition to the Sponsors of FFA Activities during the third convention session. The Behnake Nursery Company was selected to receive the Outstanding Sponsor Award. According to Dr. Boyd Robinson, Jr., chairman of the Foundation Board of Trustees, "the FFA Foundation had a banner year in solicitations for support of Maryland FFA Activities." During the session 28 contest sponsors and 17 convention sponsors were recognized. Dr. Robinson further noted that "the generosity of Maryland's agricultural industry and agricultural organizations in providing financial support for the sponsorship of the various FFA contests is genuinely appreciated by FFA members across the state."

The American Royal Ambassador Contest has been one of the highlights of the annual State FFA Convention in the past. This year that contest included both male and female contestants who were interviewed on Wednesday morning and winners were announced during the American Royal Ambassador Dance that evening. This year's American Royal Ambassador Candidates who will represent Maryland at Kansas City in the American Royal Ambassador Contest are Jennifer Daugherty of the Brunswick FFA Chapter and Troy Eyler of the Catoctin FFA Chapter. As state winners they will each receive a $500 scholarship from the Farm Credit Bank.

Candidates for the 1991-92 Officer Team were interviewed on Saturday, June 1, and installed during the awards banquet by the outgoing team. Members of the 1991-92 state FFA Officer Team are Scott Page, president, Frederick FFA Chapter; Howard Meredith, vice president, Queen Anne's FFA Chapter; George Bollinger, secretary, Catoctin FFA Chapter; Trey Myers, treasurer, Brunswick FFA Chapter; and Kelly Clagett, reporter, South Carroll FFA Chapter.

MARYLAND FFA CREED CONTEST — Denise Bee and John David Beckman were the sixth and eighth place winners, receiving silver and bronze medal awards respectively, of the State FFA Creed Contest held June 19 at the 63rd Annual Maryland State FFA Convention at the Ramada Inn in Hagerstown. The Maryland Council of Farmer Cooperatives, Frederick, sponsored the contest as a special project of the Maryland FFA Foundation. Contestants were all first year agriculture or horticulture students and FFA members. Each contestant was required to recite from memory the FFA Creed, without any opening or closing comments or background effects, and to answer questions asked by judges to test their understanding of the creed. Both Bee and Beckman are members of the Oakland FFA Chapter.

FFA EXTEMPORANEOUS SPEAKING WINNER — James Rhodes, of the Oakland FFA Chapter, was the fourth place and silver medal winner of the Maryland FFA Junior Extemporaneous Speaking Contest June 19 at the State FFA Convention in Hagerstown. Participants in the contest were in 10th grade or below, and drew three specific topics related to the industry of agriculture. They selected one topic and had 30 minutes in which to prepare their speech. Each four to six minute speech was scored by judges according to how well the content was related to the topic, knowledge of the subject, organization of the material, voice, stage presence, power of expression, general effect, and their response to questions from the judges.

National Animal Health Monitoring System To Conduct Dairy Study

Maryland is one of 28 states selected for a USDA study of dairy heifer health conditions and diseases. The National Animal Health Monitoring System (NAHMS) is sponsored by the National Agricultural Statistics Service (NASS) and the Animal and Plant Health Inspection Service (APHIS), within the U.S. Department of Agriculture. The NAHMS program has been developed to collect, analyze, and report information about the occurrence and costs of disease and impaired productivity in livestock.

The 1991 Dairy NAHMS study will focus on the collection of health and production information of dairy heifers. The study will take one year to complete and will include approximately 2,000 dairy operations in 28 states.

A random sample of producers is selected and asked to keep records of all animal health events for a three-month time period. Events such as births, deaths, illnesses, and other health problems are recorded. In addition, each producer will be given the opportunity to have heifer blood and feces tests performed. The identity of each participating producer is kept strictly confidential.

After the end of the data collection cycle, participating producers will receive an individual report showing their operation's results compared with the results of the state average of other farms. At the end of the year's data collection, all producers will receive a summary report of the national statistics.

These reports will provide information that will help producers make decisions on farm management improvement, and disease prevention, control, or eradication actions. They will also point out areas to emphasize in veterinary education and in securing funds for animal health research.

FFA PREPARED PUBLIC SPEAKING WINNER — Trish Marple, of the Oakland FFA Chapter, won third place and a gold medal award in the Maryland State FFA Junior Prepared Public Speaking Contest held in conjunction with the State FFA Convention in Hagerstown. Central Maryland Farm Credit of Frederick sponsored the contest as a special project of the Maryland FFA Foundation. Participants in this contest are limited to 10th grade or lower, and was required to prepare and speak on any subject of their choice currently related to the field of agriculture for not less than six or more than eight minutes. Participants scored points based on the content and composition of their manuscript, their voice, stage presence, power of expression, general effect, and their response to questions from the judges.

1991 State Envirothon Held At 4-H Center In Garrett County

A team from Cambridge-South Dorchester High School on the Eastern Shore of Maryland recently won the Maryland State Envirothon. The Envirothon is a natural resource competition for high school students. Chris Willey, Mark Asplen, Laszlo Ambrus, and Robert Allen will be traveling to Presque Isle, Maine, from August 10 to 14 to represent the state of Maryland in the National Envirothon.

The Maryland State Envirothon was held at the 4-H Center in Garrett County on May 17-18. It is sponsored by the Maryland Association of Conservation Districts and the State Soil Conservation Committee. Five conservation districts (or counties) participated in the competition this year: Allegany, Washington, Frederick, Prince George's, and Dorchester.

Participating students are tested in five natural resource areas: aquatic environment, forestry, soils, and wildlife, plus a fifth area that will incorporate a current environmental issue. In 1991, the environmental issue was waste management.

The Envirothon began in one county in Pennsylvania in 1979. By 1991, over 15 states had initiated the program and will be sending a team to the National Envirothon in Maine in August. Also included in the National Envirothon in 1991 is a team from Canada and Australial In Maryland, the program began two years ago in Allegany County and has now been adopted in four adidtional counties. The sponsors of the Maryland Envirothon said several other counties are beginning the program in the 1992 school year. These counties include Talbot, Harford, Baltimore, and Garrett.

The objectives of the Envirothon are twofold: to test the environmental knowledge and understanding of high school students of state resource issues; and to cultivate within students in high schools across the state a desire to learn more about their natural world.

STATE ENVIROTHON HELD IN GARRETT COUNTY — Project Forester Ernie Metz, (far left) with the Department of Natural Researces, Forest, Parks and Wildlife, is pictured preparing teams from five counties in Maryland for testing in forestry at the 1991 State Envirothon held recently at the Western Maryland 4-H Center near Bittinger. See separate story for more information.

At the state level, the Envirothon is coordinated by a steering committee composed of representatives from the soil conservation districts, the U.S. Fish and Wildlife, the Sea Grant Program and Cooperative Extension Service, the Soil Conservation Service, the Maryland Department of Agriculture, the Maryland Department of the Environment, the Department of Natural Resources, the Alliance for the Chesapeake Bay and several other interested environmental groups.

During the summer of 1992, the state of Maryland will host the National Envirothon. Approximately 30 states and several other countries are expected to participate in this event in 1992.

For further information about either the Maryland State Envirothon or the 1991,1992 National Envirothons, those interested may call Kathleen Diehl, Soil Conservation Service, at 301-757-3079.

Court Pesticide Ruling Could Create Regulatory Chaos

The American Farm Bureau Federation has blasted a June 21 Supreme Court ruling allowing local governments to adopt their own pesticide regulations.

"The Supreme Court's ruling in favor of the township of Casey, Wis., is a bad decision which could result in regulatory chaos among the various legal jurisdictions," said AFBF President Dean Kleckner.

Farm Bureau filed a friend of the court brief in the case that opposed Casey's efforts to place exclusive control of pesticide-use decisions in the hands of its township board. The town thus bypassed the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

The Supreme Court ruled that since the federal law does not bar states from enacting laws more stringent than those of the federal government, that right also extends to local units of government.

"Under the ruling, if a farm spans several political jurisdictions, that farm could fall under several different pesticide laws," Kleckner said.

"Counties, cities, towns, townships and other governmental entities are now free to enact their own pesticide regulations, putting a tremendous burden on farmers and ranchers who could find it virtually impossible to comply with every level of jurisdiction."

According to Kleckner, the ruling will essentially undermine FIFRA.

"It will create a patchwork of different restrictions on the use of pesticides, unless local government units can be made to understand that federal regulations are adequate. Separate regulations are unnecessary," he said.

MARYLAND AG STATISTICS SERVICE NAMES OUTSTANDING ENUMERATOR — Carolyn Ganoe, of Finzel, was recently recognized by the Maryland Agricultural Statistics Service for "Outstanding Work as a First Year Enumerator." As an enumerator, Ganoe conducts surveys to collect data concerning crop acreage as well as livestock numbers and grains in storage on farms. Her territory includes one segment in Allegany County and nine segments in Garrett County, for a total of 11,557 acres. Maryland, as part of the National Agricultural Statistics Service (NASS), helps provide the basis for the season's crop production estimates, these estimates supply basic information needed by farmers to make decisions for both short-term and long-range planning. Ganoe stresses that information received from farmers remains confidential and is used only in combination with other reports to arrive at state and national estimates. These crop and livestock reports provide reliable information that place farmers on an equal footing with buyers of their products, bankers, credit associations, agricultural economists, farm organizations, and federal, state and local policy makers. Reports from the results of these surveys are received by this, and other newspapers across the state, weekly to keep farmers and the general public updated on the agricultural situation statewide. Ganoe stated that the cooperation of local farmers, and help from the Garrett County Tax Assessment Office and the Agricultural Stabilization and Conservation Service all helped make her award possible.

Eglon Farm Service To Hold Annual Membership Meeting

Since its founding 68 years ago, "Southern States Cooperative has been innovative in the agriculture industry, and it continues to introduce new products and services to improve the livelihood of farmers," says Carroll Gilbert, the co-op's director of member and institutional relations.

According to Gilbert, the cooperative's strides and aims are reflected in the theme selected for this year's annual membership meetings: "Cultivating Innovation."

Among the highlights of the annual membership meeting for Eglon Farm Service, Inc. will be the election of local board and Farm Home Advisory Committee members, along with operations reports, which will be presented at 7:30 p.m., Wednesday, July 24, at Farmers Wildlife Park, Horse Shoe Run, W.Va.

In keeping with this year's theme, the local planning group has tried to be innovative in developing ideas and features for the meeting.

The Southern States district manager will present a taped report from President and Chief Executive Officer Gene A. James, discussing the co-op's supply and marketing operations for the most recent fiscal year.

Local operating statements and services rendered to agriculture in the community will be discussed and there will be a special recognition ceremony for local board and FHAC members who retire this year.

Nominees for election to the local board are the following: Carl Bachtel, Stanley Harsh and Claude Winters.

FHAC nominees are: Joyce Dixon, Marcia Spade and Patty Wilt.

Alfalfa Update

Potato Leafhopper populations remain very high throughout the county. Many growers are questioning the economics of spraying alfalfa which is not growing especially drought-stressed stubble where the regrowth has been delayed. The important point to keep in mind is that hopper-burn injury can reduce potential yields of future cutting and lower winter survival. Thus, it is important to keep leafhoppers under control, even though the short-term gains are low. This also applies to fields which have some regrowth but have stopped growing and, in some cases, are blooming prematurely. It would be advised to harvest the second growth if it has stopped growing since we have received some rain. Poor control with Cygon has been reported, especially in situations where the alfalfa is not actively growing. Although this chemical has some direct contact toxicity, it is a foliar systemic and thus, must be absorbed by the leaves to have any major impact on leafhopper populations. If you have to have immediate control, it may be better to use Lorsban, Penncap-M, Ambush or Pounce.

Rolling Tomato Leaves

I have had several calls from people concerned over the tomato leaves rolling up. Several varieties of tomatoes, such as Better Boy, roll their leaves up as daily temperatures rise. This is a normal reaction. Tomato leaves that have rolled, usually remain this way for the entire season. It does not have any effect on the fruit set.

Spider Mites

Under dry conditions spider mites thrive. They are so small that they are difficult to see with the naked eye. They can do a lot of damage to plants, especially late planted snap beans. Symptoms are small holes with a brownish appearance on the leaf. The mite injects a toxin into the leaf. You can check for spider mites by shaking a leaf over a piece of white paper and watch for a small speck to move. If in doubt, bring a leaf into my office for a microscope check.

Western Corn Rootworm

Last week I found the adult beetles of Western Corn Rootworm. The transfer from the larvae to the adult beetle is ahead of schedule. For fields heavily infested, this could be bad news because the beetles are silk feeders. I would recommend that you scout your corn fields for the rootworm adult. The beetle is black with yellow stripes.

NO. 20

School Schedule Will Return To Normal In Sept.

Students will return to a normal school schedule at Southern High School with the opening of schools in September 3, 1991, according to Michael Sines, Director of Transportation for the Garrett County Board of Education.

Sines stated that sufficient progress in the renovation of Southern High School has been realized to enable students to safely return en masse to the school facility. Although construction work will continue, it will not unduly hamper instruction or require an adjustment in the school schedule comparable to the 1990-91 school year.

Sines also explained that school bus routes will be adjusted as a result of the return to a regular schedule. He explained that in order to stay within state allocated funding for pupil transportation, it was necessary to eliminate nearly 30,000 miles from school bus routes on the southern end of the county. The proposed routes should offer comparable service to most students and prove to be more cost effective for the Board of Education, Sines said.

Sines indicated that the pupil transportation program has not required local funding for the past nine years because of improved route efficiency achieved through the county-wide elimination of 13 route contracts and over 200,000 annual route miles, resulting in an annual savings of approximately $350,000.

Sines attributes the success of the pupil transportation program to the strong support of the school bus contractors/drivers, students, and parents. He stated, "I'm particularly gratified with the demonstration of cooperation and support from the school community during the Southern High School renovation. It's apparent that the community can pull together to accomplish major projects when the need is sufficiently demonstrated."

New school bus routing information will appear in *The Republican* during the week of August 14, 1991.

RESTORING A PIECE OF COUNTY HISTORY - Several workers in the Maryland Conservation Corps worked hard recently to restore one of Garrett County's first landmarks, the Washington Spring. The spring is located off Route 39 in Rosedale and once quenched the thirst of General George Washington as he passed by on McCullough's Path in 1784. The town of Oakland purchased the Oakland Hotel grounds in 1989, and in the process acquired the spring area, which had been severely vandalized. The restoration project was funded by the town, and labor was provided by the Md. Conservation Corps. Now cleared of brush and restored to its original appearance, the Washington Spring is once again inviting to all passers-by. See story and photo of finished project on page A-3.

Md. Conservation Corps Workers Restore Historic Washington Spring

Approximately 12 persons from the Maryland Conservation Corps worked for several days recently to restore the historic "Washington Spring," located off of Route 39 in Rosedale. The spring has a lengthy history, as it has been in existence for centuries. It was given its name because General George Washington once stopped at the spring to quench his thirst on September 26, 1784, and wrote about it briefly in his journal.

The spring has quenched the thirst of "many a wayfaring stranger," according to an article in the Glades Star by Felix G. Robinson. "McCullough's Path" was at one time located along the water source. The path followed a buffalo trail from the Ohio to the Potomac Valleys, and was traveled by Native Americans as well as the first white men in the area. Later, in 1787, the states of Maryland and Virginia built a road from Westernport to Morgantown which passed by the spring.

Eventually, the Oakland Hotel stood near the spring and visitors used the water and frequented the spring area where they could sit on benches, have picnics, or walk about the grounds.

Now Oakland citizens and visitors may do the same, as the area is once again restored. The Town of Oakland purchased the Oakland Hotel grounds in May of 1989, thus acquiring the spring. The mayor and town council have funded the restoration project with the Md. Conservation Corps providing the labor.

Vandals had severely damaged the original structure, according to Deb Clatterbuck, site supervisor.

Emergency Appeal For Blood Donors Issued By American Red Cross

The Johnstown Region of the American Red Cross Blood Services made an emergency appeal this week for blood donors of all types. The blood service has a critically low blood supply, and therefore must curtail the amount of blood supplied to the regional hospitals, according to Marianne Spampinato, public relations director for the Johnstown Region. Most of the hospitals are operating with 50 percent or less of the desired minimum inventory.

To help support its efforts to increase donations, special blood drives have been scheduled to occur within the next two weeks, during which time the region must collect an additional 2,300 units beyond its previously scheduled collections.

The special blood drive in this area will take place on Wednesday, July 24, at Garrett Community College. The donations will be taken in the Student Service Building from 11 a.m. until 5 p.m. Persons of all blood types are urged to donate.

"We always refrain from using the words 'critical' and 'emergency need' when asking people to donate. We are now saying these words for the first time in several years," Spampinato said.

Blood collections are usually low during the summer, she explained, but the blood inventory has now reached a critical point. To further the dilemma, there

Education Board Pleased With GC Test Scores

The Garrett County Board of Education observed and discussed student test scores at their monthly meeting last week and commended county teachers for the positive results on the tests. Garrett County students took the Comprehensive Tests of Basic Skills (CTBS) in April of this year, and according to the scores, fared well. The board also discussed a significant expansion of the Head Start program in the county.

Test Scores

Grades three, five, eight, and 11 took the tests on a battery of subjects, including math, language, reading, vocabulary, word analysis, spelling, science, study skills, and social studies. Only the spelling category was consistently low in each grade, and Paul Harr, coordinator of accountability and assessment, explained that the students all apparently had difficulty understanding the format of that specific test. All other scores were average, above average, or slightly below.

The county's third graders scored slightly above average in all subjects but spelling, which was slightly below. They scored at the average in reading vocabulary, language mechanics, and math concepts and applications.

The county's fifth graders scored fairly high above average in math mechanics, above on total language and total math. All other scores were at the national average, except spelling, which fell below.

Grade eight had the lowest scores of the four grades, but still achieved above average scores on reading, language mechanics, total language, science, and social studies. Average scores were in reading, language expression, study skills, and total battery. Lower than national average scores were in reading vocabulary, math computation, math concepts and application, total math, and spelling.

Grade eleven fared well with only one score falling slightly below the national average, which was again in

The Dear Friends ensemble, which will be appearing in concert for the Garrett Lakes Arts Festival this Friday, July 19, at 8 p.m. in the auditorium of Garrett Community College, has been widely acclaimed throughout Western Pennsylvania and the Mid-Atlantic region.

"its performances have the modest ring of historical truth . . . that goes to the heart of their subjects with quiet, graceful flair."

EVERYONE CAN BE A CHILD AGAIN next week when the Bennington Marionettes perform "Hansel and Gretel" for the Garrett Lakes Arts Festival on Friday, July 26, at 8 p.m. and on Saturday, July 27, at 10 a.m. in the Garrett Community College gymnasium. For these two performances, all tickets of admission will be $2. The story of "Hansel and Gretel," whose origin is in the ancient German oral tradition of storytelling, was first written down in the early 19th century by the brothers Grimm. At the end of the century, German composer Engelbert Humperdinck transformed "Hansel and Gretel" into what is recognized as one of the world's great operas. The Bennington Marionette production of the story is a musical adaptation of the Humperdinck work. The story concerns two children who venture into the dark and dangerous forest looking for food until they are finally ensnared by the Cookie Witch who threatens to bake them in her oven. They are finally rescued by their pet goose and awakened from the witch's spell. Together, they use their wits to defeat the witch, who meets the same fate she had planned for the children. When the family is finally reunited, they make a wondrous discovery from the ashes of the witch that will end their cares forever. Tickets for the Bennington Marionettes performance of "Hansel and Gretel" may be purchased at Deep Creek Pharmacy or Beachy's Pharmacy. Reservations may be made at Englander's Pharmacy (reservations only, no tickets will be available at Englander's) or by calling the GLAF box office at 387-6666. Funding for the Garrett Lakes Arts Festival is provided in part by the Garrett County Arts Council and the Maryland State Arts Council.

B&L EMPLOYEES SUPPORT GCC - The employees of Bausch & Lomb have once again demonstrated a strong sense of caring for their community and the future of education in Garrett County by pledging over $13,000 to the endowment fund of the Garrett Community College Foundation. The funds raised by the Foundation help insure that programs not typically funded by tuition, as well as merit scholarships that are made available to students without other financial alternatives. Each dollar raised locally by the Foundation is matched by the state of Maryland. "Our people understand the importance of education and recognize that we can't just wish it to happen," stated Richard Schick, local B&L plant manager. "It must be properly funded. This show of support is another example of the impact that a quality workforce can have on a community. It should serve as a great source of pride for everyone." Pictured left to right, front row, are: Richard Schick, plant manager; Norma Hinebaugh, Judy Workman, Virginia Harding, Bea Winters, Rhonda Bach, Marion Hinebaugh, Claudia Tasker, Rita Braithwaite, Barbara Coddington, and Dr. Steve Herman, president of GCC. In the second row, same order, are: Donnie Horner, Bob Issacson, Leo Britner, Gary Cook, Tammy Skiles, Harold Upole, Bruce Ahern, Cathy Hinebaugh, and Helen Shaffer.

RECEIVES CIVILIAN CERTIFICATE OF HONOR -- John A. Savage, Oakland, pictured center, recently received a Civilian Certificate of Honor from James P.G. Flynn, M.D., director of the Maryland Institute for Emergency Medical Services Systems, left, and Ameen I. Ramzy, M.D., Maryland's director of emergency medical services. Upon seeing a smoke-filled car outside his house, Savage called 9-1-1 and then raced to the car to offer help. The driver seemed to be asleep inside. Since the car doors were locked and he was unable to get the driver's attention by banging on the windows, Savage kicked in one of the windows and pulled the driver from the car, at great risk to himself.

ers. He also explained a bartenders/server training program the Miller Brewing Company will do free of charge.

Elaine McDonald distributed information and materials available through MADD. She outlined, through group input, what a designated driver program for Garrett County would entail.

Robert Shahan described a program Checkers Restaurant has in place for about two years, giving the advantages and disadvantages they have observed.

Paul Durham, DNR, reviewed the Designated Skipper program the Park Service has initiated.

The group decided to assemble a package to present to all establishments serving alcoholic beverages. This package may include a slogan, emblem or logo, materials such as bracelets, napkins, table tents, a publicity package, financing, and standards and restrictions. A committee meeting was set for July 17 to begin assembling this information, incorporating ideas presented by the group.

The meeting concluded with a presentation by Jay Cross, Garrett County deputy health officer. Cross discussed the role of the alcohol beverage industry in the prevention of abuse of their products. He also gave statistics concerning drunk driving in Garrett County and showed a video tape describing a successful Designated Driver Program.

HOSPICE YARD SALE SUCCESS - With the help of many people, Hospice of Garrett County, Inc., had another successful yard sale, with proceeds totalling over $1,400. Many area people donated items for the sale and a number of Hospice volunteers worked the sale. Foundation Purchases New Equipment For Hospital Progressive Care Unit

The Garrett County Memorial Hospital Foundation recently purchased 10 new pieces of equipment, bringing the total Foundation purchases to $270,265 over the past 31 months.

The new equipment includes two non-invasive blood pressure monitors, two central station cardules for heart monitoring via telemetry transmitter, a monitor/defibrillator, and 5 pulse oximeters, all of which is used in determining the patient's condition by constant monitoring of their blood pressure, heart rate, pulse rate and respiratory status.

These newest pieces of equipment were purchased to assist the hospital in the June 3 opening of a new progressive care unit. According to a hospital spokesman, this unit is designed for patients needing more care than is available on the medical/surgical units, but who do not require the type of care provided in the intensive care unit.

"I think it's great that the Foundation has been able to assist with the opening of the Progressive Care Unit." stated William B. Grant, Foundation chairman. "These purchases, and future purchases, would not be possible without the overwhelming public support of the Foundation. The Foundation has been able to assist the hospital with its equipment needs since 1988 when our community united to support a capital fundraising campaign."

"Because of third party reimbursements and our constant objective to increase the number of cost effective services we provide, the Foundation's continuing role in providing the hospital with a supplemental funding resource will continue to be a major contributing factor to the hospital's future viability," stated Ben Rosenthal, hospital president.

Information on how to make contributions for equipment purchases can be obtained by calling the Foundation office at (301) 334-2155.

Garrett Multiple Sclerosis Group To Hold Special Meeting Tonight

The Maryland Chapter of the Mulitple Sclerosis Society, in conjunction with Johns Hopkins Medical Institutions, will be administering an Employment Survey at a special meeting of the Garrett County MS Self Help Support Group, on Thursday, July 18, from 5:30 to 8:30 p.m. in room 306 of Garrett Community College.

The purpose of the study is to obtain descriptive information on the employment experiences of individuals with multiple sclerosis and relate these to his/her level of disability and psychosocial adjustment to MS. Information obtained may be useful in designing service programs. Participants who have multiple sclerosis and are at least 18 years of age are invited to attend.

It will take about 40 minutes to complete the questionnaire. Clara Clow, branch services coordinator for the National Multiple Sclerosis Society, will be available to help those with questions. All information will be kept anonymous and confidential.

The first meeting of the Garrett County MS Self Help Support Group was held on June 13 at Garrett Community College with 22 people attending. According to organizers, the meeting was such a success that they have decided to meet on a regular basis. Guest speaker for the meeting in September will be Dr. Darrell Buchanan.

Those wishing more information should contact Judity Smith at 387-4926 or Clara Clow at the Western Maryland Branch Office at 791-5754.

LOCAL PHARMACIST RECOGNIZED - Gerry Beachy, a Grantsville pharmacist, was recently recognized by the Maryland State Police for assisting the MSP in a case that led to the arrest of a prescription fraud suspect. In July of last year, Beachy contacted the MSP to report a fraudulent telephone call he had received concerning an attempt to illegally obtain prescription drugs. His cooperation with the police led to the arrest of a suspect, the same suspect in a similar case in Howard County. Beachy also supplied similar assistance to the police in two previous prescription fraud cases, both of which led to convictions. Presenting the certificate of appreciation to Beachy was 1st Sergeant Dan Stanton, acting commander of the McHenry MSP Barracks.

SHS VICA Safety Team Takes Third Place In Nationals

The Southern High School Vocational Industrial Clubs of America (VICA) safety committee recently placed third in the National VICA Skills Olympics, held recently in Louisville, Ky., for the work completed by members of the committee in the area of safety during the 1990-91 school year.

The competing committees were required to carry out four projects related to safety. Projects the SHS team completed included a survey of all vocational shops in the school for safety, working during the school renovation to make sure all students in the school became more aware of safety, participating in a safety lecture and tour of Bausch & Lomb facilities, and organizing a series of safety lectures that will be presented to the vocational students.

The committee also kept a scrapbook documenting all of the activities of the committee. The book was then entered in the Olympics this spring where it received first place honors, making it eligible for the national competition.

Members of the award winning committee were Todd Fearer (chairperson), Richard Hetrick, Michael Stauffer, Mike SanJulian and Billy Bittinger. Fearer and Hetrick traveled to the ceremony to accept the award on behalf of the committee.

Other Southern High School VICA students also competed in the Olympics, including Lynn Savage in electronics and outstanding club; Dave Biser in action skills demonstration; Heather Baker in vocational display, and Richard Hetrick, Nathan Dixon, Vickie Harvey, Ben Reeves, Jennifer Reeves and Jeanine Shank in the opening and closing ceremonies. Steve Cosner and Mary Ann Shipe served as advisors for the trip.

The advisors noted their appreciation to the Garrett County Board of Education, and many businesses and individuals, for their support in making the trip possible.

Local Student Touring With National Band

Maria Massi, a student at Southern High School, was selected for membership in the American Musical Ambassadors Band. This highly select concert band, composed of outstanding high school students from all over the United States, is presently touring several European countries. They will return home July 26.

Maria, daughter of Tom and Wilda Massi, Mtn. Lake Park, is a member of the Southern High School Band, directed by Richard Clever. She is the first-chair flute in the Ambassadors Band.

The tour group is visiting Paris, Lucerne, Lugano, Milan, Verona, Venice, Innsbruck, Salzburg, Heidelberg, Bonn, Amsterdam, Windsor, and London. Highlights of the tour will include concerts in the concert halls and major parks of Europe and a two-day visit in the homes of Dutch families. Students will visit many sites of musical and historical importance as well as the popular tourist attractions.

The American Musical Ambassadors have taken over 400 outstanding young musicians to Europe in the 19 previous years. Conductors of the bands are among the most prestigious band directors in the U.S. 1991 conductors include Dr. William Gora, director of bands at Appalachian State University in North Carolina and Professor Gary Hill, director of bands at the University of Missouri at Kansas City. The tours are organized and directed by Professor Maxine Lefever, a member of Purdue University's band staff for 25 years.

The purpose of the tour is to foster cultural and personal relationships between students of the United States and the people of Europe. AMA students, through their high standards of musical excellence and equally high standards of personal excellence, have indeed served as fine representatives of American youth and as ambassadors of good will through their music for audiences throughout Europe.

Oakland Man Guilty of Theft; Sentenced To Three Years In DOC

An Oakland man was found guilty of theft in Garrett County District Court last week by presiding Judge Paul J. Stakem from Allegany County District Court. He was sentenced to three years in the Maryland Department of Corrections.

David P. Savage, 24, had his jail term suspended by two years, 10 months, and 18 days. He was also given credit for time already served in jail. He was placed on three years of supervised probation and ordered to pay restitution.

Reports indicate that Savage stole a Kawasaki four-wheeler from Larson Harvey on September 28, 1990, and then sold the all-terrain vehicle to Donald Duckworth, 44, Swanton, for $800. The four-wheeler was valued at $2,300.

A theft charge against Duckworth was not prosecuted by the State's Attorney. He had been charged by the Maryland State Police for the theft after the vehicle had been found in his possession on April 7.

In other District Court news, Rhea A. Broadwater, 44, Grantsville, was initially found guilty of battery on a 12-year-old male, but Judge Jack R. Turney changed the verdict to probation before judgment. She will serve six months of unsupervised probation and pay a $10 fine.

A charge of child abuse against Broadwater was not prosecuted as the State's Attorney decided to try only the battery charge.

Broadwater had been arrested by the Maryland State Police after striking the youth in the face with a telephone receiver.

Timothy D. Bradley, 23, Westernport, was found guilty of two counts of battery, one count of trespassing on private property, one count of malicious destruction of property, and one count of being disorderly in a public place.

His sentences for each crime are to run concurrently. On the battery charges he was given one-year suspended jail terms, ordered to pay $25 fines for each count, and placed on one year of supervised probation.

For the trespassing charge he was given a 90-day suspended jail term, fined $15, and placed on one year of supervised probation. He was given 60-day jail terms, fined $15 each, and placed on one year of supervised probation for the destruction of property charge and the disorderly charge.

Bradley had been charged following a March 16 incident in which he broke into the home of Roberta Abernathy and battered her and Geraldine Abernathy. He also broke a door and used obscene language.

A second charge of being disorderly in a public place against Bradley was dismissed and he was found not guilty of breaking and entering.

John A. Shaffer, 24, Corinth, W.Va., was found guilty of possession of drug paraphernalia and fined $50. A charge of possession of a controlled dangerous substance was not prosecuted.

Shaffer had been charged by a Garrett County Sheriff's Office deputy on March 17 when he was a passenger in a vehicle that had stopped in the middle of an intersection. A search by police revealed a small metal pipe and marijuana.

Judge Stakem pronounced sentence on Sharon A. Porter, 43, Oakland, last week. She had been found guilty of one count of battery and one count of malicious destruction of property late last year. At that time, the battery charge was amended to resisting arrest.

At her sentencing hearing last week, she was given a 60-day suspended jail term, fined a total of $250, and placed on two years of supervised probation. In a plea agreement with the State's Attorney, a second charge of battery, and charges of trespassing on private property and disturbing the peace were not prosecuted.

Numerous cases of selling alcoholic beverages to persons under 21 years of age were also heard by Judge Stakem in District Court last week.

Deepak Bhatnager, 41, Mtn. Lake Park, owner of C.P. Martin & Son, was cited when an employee of his sold beer to a 20-year-old Maryland State Police cadet on February 8. His case was placed on the stet docket, which means the case is active for one year, pending any other criminal activity.

Melvin A. Fike, 28, Mtn. Lake Park, employee of C.P. Martin & Son, was charged with selling alcohol to a minor cadet on February 8. His case was placed on the stet docket.

Betty S. Crosco, 46, Kitzmiller, owner of R&B General Store, was cited for selling alcohol to a minor cadet on February 8. Her case was also placed on the stet docket.

Brent F. Liller, 48, Mtn. Lake Park, employee, and Albert Devine, 48, Oakland, owner of Town Beverage Center, were both cited for selling alcohol to a minor cadet on February 23. Their cases were both placed on the stet docket.

Dennis W. Beckman, 33, Oakland, employee of Ringer's Gas Mart, was cited for selling alcohol to a minor cadet and his case was also placed on the stet docket.

Oakland Police Investigating $3,000 Theft

Pfc. Shawn Groves of the Oakland City Police Department is currently investigating a reported theft at a house on Oak Street in Oakland being renovated by Dr. William J. Savage, Swanton. Total loss has been estimated at over $3,000.

Groves stated in his report that Savage had not been to the residence between Friday and Sunday. When he returned, he found that his tool box and miscellaneous tools were missing. The tool box is described as brown plastic with "Ardsley Farms" printed on it. Also missing was a Sears garage door opener.

It was discovered that a window had been pried open in the rear of the house. The window was dusted for fingerprints.

The following day, it was discovered that one of the carpenters working on the house also had numerous tools stolen, totaling $2,733.

Taken were a Mikita miter saw, drill, another saw, grinder, planer, circular saw, belt sander, and other miscellaneous hand tools.

Persons with any information are asked to call Garrett County Crime Solvers at 334-1975.

ARRESTS NOTED

Groves also noted this week the arrests of Christopher J. Arnold, 18, Oakland; and Ethan J. Bever, 19, Swanton, for underage drinking. In that same incident, Jack C. Fitzwater, 19, Oakland, was arrested for driving while under the influence of alcohol and/or drugs.

Fitzwater had been stopped for a traffic violation at Oak Street in Oakland on Sunday at 12:15 a.m.

In another DWI arrest, Stephen J. McGreevy, Swanton, was apprehended by Groves Monday at 1:10 a.m. after being stopped for driving on the wrong side of the road on Fourth Street

McGreevy was charged with driving while under the influence of alcohol and/or drugs and disorderly conduct after resisting officers at Sheetz Parking lot.

Another Suggestion...

While some of our readers may be growing weary of our recent continual use of this column to address situations involving our county's education system, we hope they bear with us at least one more week. While we recognize there are always other things upon which to write editorials, few are more important than education.

We thought we would drop a minor, perhaps major, bombshell this week by making another suggestion to those involved. This one is directed to our teachers.

We suggest that they voluntarily give up their one and one-half percent salary increase that has been granted them by the Board of Education. Now before some of the more zealous GCTA (Garrett County Teachers Association) officials prepare to firebomb our office, we offer the following reasoning.

Yes, our good teachers should not be among the lowest paid in the state of Maryland, as they are now. And yes, teaching is, in our opinion, the single most important job and one of the most difficult jobs in the world. And yes, the discrepancy between their salaries and those paid to our administrative personnel, some of whom have far less education than our teachers, is outrageous. But under the present circumstances, with a board of county commissioners that refuses to provide more funding for education, we believe that a sacrifice like this by our teachers would be a wise and admirable gesture.

First of all, a one and one-half percent pay hike amounts to only about seven dollars per week of actual take-home pay for the average teacher. Giving up the raise would immediately give the Board of Education an extra $400,000-plus which they could use to immediately restore the gifted and talented program, purchase sorely needed books and materials, and finance a variety of other priority items. Perhaps the board would even be willing to let the teachers earmark some of the extra funds for these purposes.

Yes, this would be cash right out of the pockets of our teachers, who should not have to bear this financial burden in this manner. But the fact of the matter is, the majority of the general public in Garrett County believes that our teachers are paid well for their services. The teachers would score a lot of points with the public and the board for giving up their meager raise, and more importantly, it would probably better position them for a higher raise next year. If they take the raise this year, they might get a similar increase next year. If they give back the raise this year, who knows, maybe they will get a five or six percent raise next year.

In all fairness to the members of the Board of Education and the administrative personnel, who have endured our wrath for several weeks, we wish to point out a few steps they have taken to help alleviate the situation. The A&S personnel have rejected their one and one-half percent raise and the board, which has been accused of having a top-heavy A&S staff, has elected to not fill the position of Dr. Charleen Evans-Thomas, who resigned last week. Although we recognize that a one and one-half percent loss of salary for A&S personnel only slightly narrows the above described discrepancy, and that some top-heaviness probably remains, at least they are making an effort.

How about it, teachers?

Letters to the Editor

To the Editor:

I'd like to commend a group of people I've had the pleasure in getting to know the last three months -- Home Health.

Probably if you know anyone caring for a loved one in their home you've heard of Home Health. But until you've experienced caring for someone in your own home with special needs, you do not realize their value.

I brought my mom home here to Garrett County from a nursing home in Pittsburgh, not knowing how I was going to manage, with my home, a business in my home, and knowing nothing about taking care of her, just knowing that I had to give it a try.

Home Health was in my home two days after she arrived here -- taking care, doing their job, nurses visiting, aids coming in three days a week, bathing, seeing to her needs.

We are very fortunate here in Garrett Co. to have such a group of very dedicated, caring people here for the elderly and their families.

They all have been an answer to prayer because I started this venture with a lot of doubts, but with their gracious help we have managed three months now.

I just wanted to give them a big pat on the back and say, "Thank you, Home Health. - You are very precious."

God Bless

To the Editor:

The next time Commissioners Braskey and Groves talk about support of local business and increasing employment in Garrett County, put your thumb to your nose, extend your fingers, stick out your tongue, and blow!

For the first time in almost a decade a local accounting firm, Rodeheaver & Associates, decided to enter a competitive bid on auditing the books of Garrett County government. Rodeheaver & Associates bid was competitive, its principles have provided charitable community services several times, they already audit the Board of Education's, which accounts for over 50% of our tax expenditures, so our local firm had every reason to believe they could be awarded the competitive bid to be County Auditor -- wrong!

Our Commissioners Braskey and Groves decided to continue to retain a "experienced" accounting firm in Montgomery County at the advice of their audit selection committee, which they had no obligation to follow. Could their decision be because it's more comfortable to have someone over 100 miles away so there could be no tough questions asked by a local firm, more knowledgeable of the counties needs and problems? Should the commissioners have considered that Rodeheaver & Associates may have hired an additional person to fulfill the terms of the contract, thereby adding a taxable salary to over tax soles?

Isn't our commissioners' role to support Garrett County business?

Maybe we need to change more than our auditors, via the ballot box.

To the Editor:

As supporters of all programs that promote academic challenge, we would like to express three concerns over the Board of Education's recent decision to cut back the elementary Gifted and Talented program to only two teachers.

These two individuals are now faced with teaching approximately 178 children in 12 schools throughout the county. Include travel time in between schools for these two teachers, and one can easily see that the Board's decision is in reality a lethal blow to the program. It is a monumental if not impossible teaching task. The Board would have done equal damage had it eliminated the program all together.

Our middle school advanced program, encompassing over 150 students last year, relies heavily on the crucial building blocks established at the elementary level. To try to begin to teach critical thinking and research skills inherent in the elementary program at the sixth grade level is asking another monumental task for our middle school teachers. The virtual elimination of the program at the elementary level quite adversely affects the program at the middle school level.

We are equally dismayed that the lack of public support for the educational needs of this county has fractured parents and educators into special interest groups that felt compelled to go to task in order to save their own programs. We feel that all of our established programs are of vital importance in offering the broadest possible base for filling the needs of our students. It is time for the Board and the county commissioners to end this ludicrous "who's-to-blame-game." It is their shared responsibility to see that adequate funding for all of our school programs is readily available.

Thank you,

Letter to the Editor:

Last week I sent a birth announcement to be printed in The Republican. As a proud grandmother I waited with anticipation for the paper to arrive. To my surprise, when I saw the announcement all the important facts like, his weight, name, etc., were missing.

When I called The Republican to ask the reason why, I was informed that you can't print all that information about every baby born because it would take up too much space, but if I wanted to pay for an advertisement you would be happy to print the information I wanted.

As I continued to read The Republican I see where this person motored to Morgantown to shop and dine with that person, and that this and that person had dinner at so 'n so's home Friday night and etc. I guess these facts are very important, therefor space is made available at no cost.

It's your paper, therefore your decision to print what you want.

Maybe if I had worded the announcement differently and stated one hour after Nicklaus was born the nurse motored his crib to his mother's room for lunch, all the information would have been printed at no cost.

Aah, but what's a few dollars to tell everyone about Nicklaus' birth? To me he's that important and it's money well spent.

Thank you,
Fay (Me'Me) Tichnell

To the Editor:

I wish to thank The Republican for its fine coverage of the Mountaintop Youth Soccer League's first season last fall. Your newspaper included every aspect of our program, from action shots to awards dinner. MYSL appreciates your journalistic support of our program.

This year MYSL is expanding. Last year the league held practices and games for 100 youngsters. This year we expect to have another sound program for 150. The divisions (all co-ed) will be 14 and under, 12 and under, 10 and under, as well as an instructional division for 6- and 7-year-olds.

The season will begin in early September. The location for practice and games will be the Open Space fields adjacent to Southern High School.

We have received registrations and fees for 75 returning players for the 1991 season. We now offer registration to any boy or girl in the area ages 14 and under. The fee is $10.00.

We are very excited about the sponsors for this year. Checks have been received from A&A Realty, Arrowhead, First United National Bank & Trust, Pizzeria Uno, and State Farm Insurance. Each sponsor will receive the company name on team shirts, picture of team, recognition in MYSL handbook and local newspapers. If you would like to sponsor a soccer team, please call President Tom Peterson at 334-8367 or Vice President Brad Stewart at 334-2166.

With the expanding program, we will also need more coaches - no experience necessary. A coaches' clinic is planned for August. Contact the above officers if you would be interested in coaching or volunteering in other ways.

Interested persons may send a self-addressed stamped business envelope to: MYSL, Rt. 1, Box 66AA, Swanton, Md. 21561, to receive registration information.

The MYSL looks forward to another exciting soccer season for the youth of Garrett County and surrounding areas.

Sincerely,
Carole Ann Lovett

United Cerebral Palsy held their First Annual Yard Sale on June 1 to benefit our Adult Services Program. UCP operates a home for three disabled adults in Oakland. Through the hard work and countless volunteer hours of UCP's staff in Oakland, our residence was recognized as the recipient of an award for raising the largest amount of money throughout the entire state of Maryland.

We must add that our success was not self achieved. Local businesses and friends who contributed to this event made our success possible. It is really nice and we feel proud to be part of a community where neighbors are willing to lend a helping hand to fellow neighbors. Due to the overwhelming response we received, we fell that everyone should be recognized and commended for their support. We have provided a list of those who gave to our yard sale. Once again we would like to take this opportunity and "Thanks."

To the Editor:

I'd like to tell you about a little 4-year-old girl who just lost her best friend.

Her friend is a little dog she got as a puppy last year. He's a little white curly haired dog. She named him "Lover Boy". He's so friendly to everyone. If you would pet him or even speak to him he'd go all wild and you couldn't get away from him.

He just disappeared Monday night, 7/8/91, or Tuesday morning, 7/9/91. We've looked everywhere for him. We live along Route 50 in the Brookside area, Aurora, W.Va. He's nowhere to be found.

As a grandmother to this little girl (and there're two other children in the family), I beg anyone who may have taken this little dog to please bring him back. They are heartbroken over him. If someone killed him (he's been shot once before and run over by a motorcycle) I just hope their conscience lets them sleep at night.

Can you think of anything more sad than to hear these children stand on their porch at 11 p.m. calling "Lover Boy come home"? That's what I hear from my house since he's been gone.

I pray we find him, but hope is running out for this little dog and his friend.

Thank you for printing this. I'm writing this for Tabitha because she is only 4 and can't write yet. But she's old enough to feel the loss of her dog.

It is pretty bad when a child cannot have a pet and friend without something happening to it. That little dog harmed no one.

REVIEW . . .
The Mapmaker's Daughter
Written by M.C. Helldorfer
Illustrated by Jonathan Hunt
Bradbury Press 1991

Suchen, the mapmaker's daughter, longs to on an adventure of her own rather than merely chart the course for others. The place she wants most to see is Turnings, a land from which few return after being captured by the evil witch who rules it. Only after the Prince comes to Suchen at night for one of her maps showing the way to Turnings and fails to return, does her dream of adventure become real. When no one else in the kingdom is brave enough to venture after the Prince, the King scoffs but allows Suchen to go. Armed with her mother's cape, her father's map and a lock of her father's hair, Suchen sets off on her quest. Along the way she meets with three obstacles, each of which forces her to part with something she values greatly. At last she reaches Turnings and the witch and must use her ingenuity to outwit the witch and save the Prince.

The book is beautifully illustrated, rich with detail and color. M.C. Helldorfer has written a modern fairy tale with a heroine who demonstrates the courage and resourcefulness which young and not-so-young readers can admire. It is especially appropriate that the protagonist of the tale is a female possessing a longing for and love of adventure. As a parent I particularly liked Suchen as a role model and I appreciated the non-traditional ending to the tale. The book would certainly serve as a good read-aloud story to kindergartners and as a read-it-myself book for older children.

MOST BEAUTIFUL PARENTS -- Jack and Crystal Shaffer, Kitzmiller, were honored this week by the Garrett County Commissioners as "Maryland's Most Beautiful Parents for Garrett County." With four biological children, one adopted daughter and two foster children, the couple has exhibited parenting skills worthy of the honor. Pictured above, seated, left to right, are the Garrett County Commissioners, Brenda Butscher, Elwood Groves and John Braskey. Standing, same order, are Jack and Crystal Shaffer, Dr. Rex Archer, Garrett County Health Officer, and Debbie Ambrose, Garrett County Department of Social Services.

Shaffer Couple Named Maryland's Most Beautiful Parents For Garrett County

Jack and Crystal Shaffer are young, energetic, and sincere parents, according to a spokesperson at the Garrett County Department of Social Services. The Shaffers were recently named Maryland's Most Beautiful Parents for Garrett County.

They have four biological children, ages 10, 9, 5, and 1, and one adopted daughter, age 11. They are currently foster parents of two daughters, ages 16 and 14.

The Shaffers became foster parents in 1988. Since then, they have accepted 10 foster children into their home, two of whom returned and currently reside there.

Children who are "placed" with the Shaffers are accepted as "theirs" for whatever time period they stay. The couple has dealt with aggression, running away, false accusations made by children, bedwetting, and a host of other stereotypical behaviors in the children they have served.

They reportedly have used innovative ways to help these children, many of whom still keep in touch with them after they leave. Their biological children are all well-adjusted, polite, and intelligent. When one becomes used to the "largeness" of the family, they are a pleasure to be around.

Mrs. Shaffer is involved in P.T.A. and volunteers at the school. In the past, she has actively advocated for children with the local Department of Social Services and the Board of Education. She has requested that siblings in foster care be placed with her so that they could remain together. She also fought for a much needed bus stop and has been active in establishing teen activities. Mr. Shaffer has been a Cub Scout leader.

The Shaffers, at 30 and 31, have at least 14 children in their hearts. They are the kind of parents to whom children of all ages will return as adults to say "thanks" or to share their own children.

"They are unique, caring, sharing, and sensitive to the needs of children in their home and community," said the spokesperson. "Their part of the world is brighter because of their commitment to children."

The Shaffers, along with nominees from other Maryland counties, will be honored at the 1991 Kids' Convention in Towson, on August 17 and 18.

GCSO Cites Two For Battery, Captures Fugitive

The Garrett County Sheriff's Office arrested several persons this week on various violations, including two men charged with battery, a Friendsville man cited for being a fugitive from justice in California, and three persons charged for driving while intoxicated (DWI).

Daniel L. Schmitt, 23, Cincinnati, Ohio, was arrested Saturday on the strength of a warrant after he allegedly battered Dean Nicholson, McMurray, Pa. Schmitt and Nicholson were both staying at a Swanton residence on the evening of the altercation, during which the defendant reportedly jumped on Nicholson, who was sleeping at the time, and battered his face and kicked him in the ribs. The attack apparently arose from an earlier domestic dispute.

Schmitt was charged with battery.

Jeremy S. DeWitt, 19, Oakland, was arrested for battery on July 10 at Pizza Hut after an off-duty deputy (J. Murphy) observed the defendant grab Tabitha Lewis's arm and refuse to let her go. The two were apparently involved in a domestic argument before DeWitt used force against the victim. Murphy arrested the defendant immediately following the 5:30 p.m. incident.

William M. Helbig Jr., 19, Friendsville, was arrested on the strength of a warrant issued from Los Angeles, Calif. Helbig is charged as a fugitive from justice for "drunken driving with injuries," according to the police report. The charge is in connection with an incident that occurred on April 26.

Ivan E. Miller, 75, Grantsville, was charged with DWI on July 9 after Dep. J. Sowers reportedly observed the driver cross the center line five times. The arrest took place at Rt. 495 and Sky Valley Road at 7:30 p.m.

Stephen M. Prosser, 38, Grantsville, was charged with DWI on Saturday after Dep. Murphy observed him operating his vehicle erratically. The arrest took place on Rt. 495 in Swanton at 12:20 a.m. Murphy allowed Prosser to be released some time after signing the citation.

Steven D. Dillsworth, 24, Aurora, W.Va., was cited for DWI on Sunday on Rt. 219 South. According to the report, Dillsworth was stopped after Murphy observed him driving erratically. He was incarcerated after the 1 a.m. arrest.

In other Sheriff's Office news, Thomas J. Meyers, 18, Oakland, was arrested on the strength of a warrant issued from Garrett County District Court, charging him with theft and fraudulent conversion of rented goods. The offense, which was against the Family Rental Center, Oakland, reportedly occurred on April 30.

Wayne M. Casteel, 58, Friendsville, was arrested on the strength of three bench warrants issued from district court on the charge of failure to appear in court. Casteel was reportedly scheduled to face charges of DWI, driving with a revoked license, and driving uninsured.

A body attachment order was issued for Charlene L. Dunphy, 30, Oakland, for contempt. Further details were not available.

Linda K. Smith, 27, Mtn. Lake Park, was recently charged with four counts of hiding children contrary to a court order. Ms. Smith was released on her own recognizance. The complainant in the case was Richard Stowell, according to the police report.

James E. Moore Jr., 26, Pennsboro, W.Va., was charged on July 11 with driving with a suspended license. He was stopped by police on Oak Street, Oakland, at 7:45 p.m. when the officer noticed that the date on his license plate had expired.

Paul A. Dixon II, 30, Oakland, was served a bench warrant issued from district court for contempt. Dixon reportedly failed to report to jail to serve a weekend sentence. He was given the bench warrant on July 12.

Aaron S. DeWitt, 20, McHenry, was arrested on the strength of a bench warrant for violation of probation. The defendant apparently failed to notify his probation officer of an address change. Original charges against DeWitt were attempting to elude a police officer and assault.

Three Local Mothers Overcome Welfare Dependency Through "Project Independence"

by Sherry Frantz

Rhea George, Grantsville, arrives home every evening from her job as an electrician's apprentice a tired, dirty and grimy woman. She works with an all-male crew -- who seem to now accept her in this non-traditional role -- at the site of the Southern High School renovation.

The dirt and grime, however, do nothing to hide the soul of a spirited, proud, persevering, tough, warm, and amicable woman, whose job it is when she arrives home is to slip into the active, hectic role of mother of three.

Rhea, along with two other Garrett County women -- Jacqueline Weimer and Ann Bowser -- have now completed "Project Independence," a program designed to move eligible welfare clients into job independence and guide them through the process of obtaining the necessary skills to remain self-supporting.

In an extraordinary balancing act and cooperative effort between numerous county agencies, the program is a state-wide initiative of the Maryland Department of Human Resources that was begun in Garrett County in July 1989, and, according to Robert Shaffer, director of the Garrett County Department of Social Services, "It was a tough and challenging program to get off the ground."

But, he added, the "tremendous cooperation" the Social Services Department has received from many local agencies, including the Western Maryland Consortium, Garrett Community College (GCC), Community Action, the Garrett County Board of Education, New Horizons, the Department of Employment and Economic Development, and numerous other public and private employees, has "made the program a success here in Garrett County."

In fact, noted Shaffer, Duane Yoder, director of Community Action, designed a program, called "Operation Bootstrap," specifically to meet the housing needs of those participants in the transition program.

Beverly Beard, "Project Independence" coordinator for the county, stated that one important goal of the program is to "catch welfare recipients quickly" before they become too dependent on the welfare system and it becomes a way of life for them. She did say, however, that the program generally is more successful in urban areas only because there are more employment opportunities.

The caseworker for the program, Michelle Evans, further explained how the program works, noting that the initial meeting between her and the client is for the purpose of identifying any barriers, such as transportation, housing and day care needs, that need to be addressed. A plan is then implemented toward overcoming those obstacles, and career goals are discussed.

The Western Maryland Consortium then conducts a second level assessment. From that point, job training or the pursuit of a high school diploma is sought. When necessary, Community Action provides transportation for the enrollees.

"If the participant already has a high school diploma, we then look to Garrett Community College in the New Horizons program, a program for displaced homemakers," stated Evans, adding that the Literacy Council is also employed for vocational rehabilitation purposes. "All the agencies work together very smoothly," she said.

Evans called the "Project Independence" program a "unique" one because it includes a one-year transition period where medical benefits, transportation and day care services are provided. Also, the food stamp program, although reduced from its full benefits, is still available during the transition period.

There are two groups who receive welfare payments who are obliged to participate in the program: those under 20 years of age without a high school diploma or GED (General Education Development), and those unemployed parents who receive AFDC (Aid to Families with Dependent Children). All other participants enter on a volunteer basis.

Ann Bowser, Jacqueline Weimer and Rhea George are only three of the many local former welfare clients who have become self-supporting over the last two years, after volunteering to participate in the program. Currently, there are over 80 families in Garrett County receiving "Project Independence" services through the Western Maryland Consortium, including those who are enrolled in various programs such as GED and Adult Basic Education, office skills classes, trade skills classes, various colleges courses and on-the-job training.

Rhea George, who is single-handedly raising three children, enrolled in "Project Independence" in July 1990. After screening at The Training Place, she was referred to Garrett Community College for enrollment in Life Skills classes. Upon completion of those classes, she announced to her counselor, Bob Clark, Western Maryland Consortium, that she intended to become an electrician. She was encouraged by Clark to pursue that goal, and he assisted her in locating opportunities in the area to develop the necessary skills.

Rhea entered an Electrician Apprenticeship program at GCC in October 1990, and reportedly performed so well in the program that she was soon transferred into the second year of the four-year program. It was through this program that she obtained her present job at the Southern High school renovation project as an electrician's helper.

Sue Shockey, director of the Western Maryland Consortium, stated that one of Rhea's biggest worries was proving to her co-workers at SHS that she was serious about her goals, and could handle the job. Her first on-the-job challenge was to work on a 12-foot ladder with a 30-pound drill. Although a bit scared at first, "her grit and determination," according to Shockey, soon won her the respect of her co-workers.

Forced by circumstances to become a welfare recipient, Rhea was determined from the beginning not to let it become a way of life for her. Her husband left the marriage while Rhea was pregnant which, eventually, forced her to rely on welfare. She also relied on her parents for financial support, and although they never withdrew that support, Rhea was not comfortable being a "burden" to them.

"I'm from a family who believes in working for a living," she said, and added, "Most people who are on welfare think of it as an income. It's not. When I was a welfare recipient, I felt as if I was being held down. I felt like a slug. I don't know how anyone can get welfare and feel good about it."

SUCCESSFUL TRANSITIONS -- These three women have made the successful transition from welfare mother to career woman, with the help of the "Project Independence" program, designed to transform the existing welfare system into one which moves individuals and families from welfare dependency to long-term self-sufficiency. The program is a cooperative effort between the Garrett County Department of Social Services, the Western Maryland Consortium and numerous other county agencies and is aimed at persons who receive AFDC (Aid to Families with Dependent Children) services. Shown above is Jacqueline Weimer, who is currently employed as a secretary/receptionist at Garrett Community College. At right is Rhea George, who is working as an electrician's apprentice at the Southern High School renovation project, and below, is Ann Bowser, now a full-time employee of the Goodwill Mennonite Nursing Home. All three women are single mothers who now enjoy a life free of welfare dependency.

Rhea also stated that when she learned of the opportunity to take part in "Project Independence," she felt as though "someone had lifted a ton of bricks from my shoulders." She also noted that, while she still receives a "helping hand" from Social Services, she is no longer completely dependent on the system.

It should also be noted that Rhea is the biological mother of only her youngest son, and adopted the two oldest children, fraternal twins, in order to free them from an abusive environment. For that reason, she was unable to receive monetary assistance for them.

Jacqueline Weimer, the mother of one child, enrolled in the program in April 1990 and was referred by Evans to the consortium where she enrolled in an Office Skills class. Jacqueline "excelled" in the 14-week course and completed the program in August 1990. With the assistance of Robin Witt, a marketing specialist at The Training Place, Jacqueline obtained an on-the-job training position at GCC.

After successfully completing that assignment, she was hired as a contractual employee at the college, where she is still employed as a secretary/receptionist. According to Robert Shaffer, "Through determination and application of her new skills, Ms. Weimer has successfully worked her way out of AFDC."

Her public assistance grant was canceled in May 1991.

She is still attempting to become a full-time secretary at the college because, like Rhea, she is still somewhat dependent on the welfare system for housing and child care. Her mother currently drives her to and from work until Jacqueline can see her way clear to get her own car "back on the road."

Also the mother of one child, Ann Bowser enrolled in "Project Independence" in July 1989. Since she did not have a high school diploma, her first goal was to obtain a GED certificate. With the assistance of Eve Edwards, the training specialist at the consortium, Ann enrolled in GED classes at The Training Place and

successfully passed the GED examination in December 1989.

Ann then applied for services at the New Horizons office and, from there, successfully completed two courses at GCC, "Pre-employment Training Skills" and "Basic Nursing Skills." After receiving her basic nursing skills certificate, Ann became a part-time employee of the Henry Clay Villa Nursing Home in Pennsylvania, and by October of 1990, had landed a full-time position at Goodwill Mennonite Nursing Home in Grantsville. She is now proud to be supporting her child.

Her public assistance grant was canceled in April 1991.

Making the transition from welfare mother to career woman is, understandably, not easy. Jacqueline, Ann and Rhea each had many challenges and barriers along the way. All three had to develop day care plans for their children, and Jacqueline and Ann had to overcome transportation problems to and from classes and jobs.

They have all had trouble -- and still do -- making ends meet, but according to Michelle Evans, the program counselors "work very, very hard to place the participants in jobs that pay higher wages than minimum wage." College is stressed by the program so that the participants will be as qualified as possible to obtain the higher paying jobs.

"We have a long-term vision with this program," said Evans, adding, "The participants need someone to help them create a different lifestyle. Eventually, we hope this will present a different view of the entire welfare system."

She noted, however, that the program can be successful only up to a point if jobs in an area are scarce. "We need more employers who see the value of hiring these people who have been through the program," she said.

A life on welfare assistance is, according to all three women, a life with few freedoms. "You have no life when you're on welfare," said Ann Bowser, "because everything you do, everywhere you go and every penny you spend must be reported. The program gave me new opportunities."

As Robert Shaffer will testify, the welfare system was originally set up so that people could be assured of temporary assistance during times of unemployability or other dire circumstances. The system, however, certainly receives its fair share of abuse.

"Project Independence" is one of the most positive steps that has been taken in the welfare system that not only saves money for the state, but helps to provide at least a decent chance for those people who want a life of independence, and the choice to take themselves wherever they want to go.

Culture, Tradition & Crafts

Are Shared By All At The AIITCO POW WOW

by Bernice Kepple

Native Americans, representing approximately 32 tribes and from all areas of the country, gathered at the Garrett County Fairgrounds July 5,6 and 7 for the Ninth Annual American Indian Inter-Tribal Cultural Organization (AIITCO) Pow Wow. Residents and visitors to the area were thrilled again to view the vast display of Indian pottery, beadwork, weaving, jewelry, leatherwork, silverwork, blankets, rugs, crafts and much more.

All of this is just the icing on the cake — the dancing — the main attraction, which draws both the participants and the spectators. In addition to the traditional and the fancy dancing this year, Marty Good Bear demonstrated the hoop dance. This was his third appearance at the AIITCO Pow Wow. Also appearing again this year was Floyd Presley, of Cumberland, a master falconer, who breeds and rehabilitates birds of prey.

A new and very popular feature this year was story-telling by Dovie M. Thomason. Thomason began sharing the stories and oral tradition of her Oglala Lakota and Kiowa Apache ancestry while working as a high school literature teacher in Cleveland, Ohio. She has expanded her programs beyond the Plains stories of her home, and attracts large crowds of both young people and adults to her entertaining and educational performances.

Each day's flag raising ceremonies were especially touching this year with the memory of Desert Storm still fresh in everyone's mind. Serving as Color Guard this year was VEVITA (Vietnam Era Veterans Inter-Tribal Association). Organized in 1981, the membership is open to any recognized tribal member who served during the Vietnam Era. Appearing this year were nine members representing nine tribes. These men and women are also members of various veterans' organizations such as local VFWs, American Legions, Vietnam Veterans of America, and VEVITA.

A special story this year was that of Penny Vanni, who served as a trauma nurse in Germany during the war in the Persian Gulf. With three days off, Penny came to the Pow Wow for renewal. She came empty, she said, and left able to

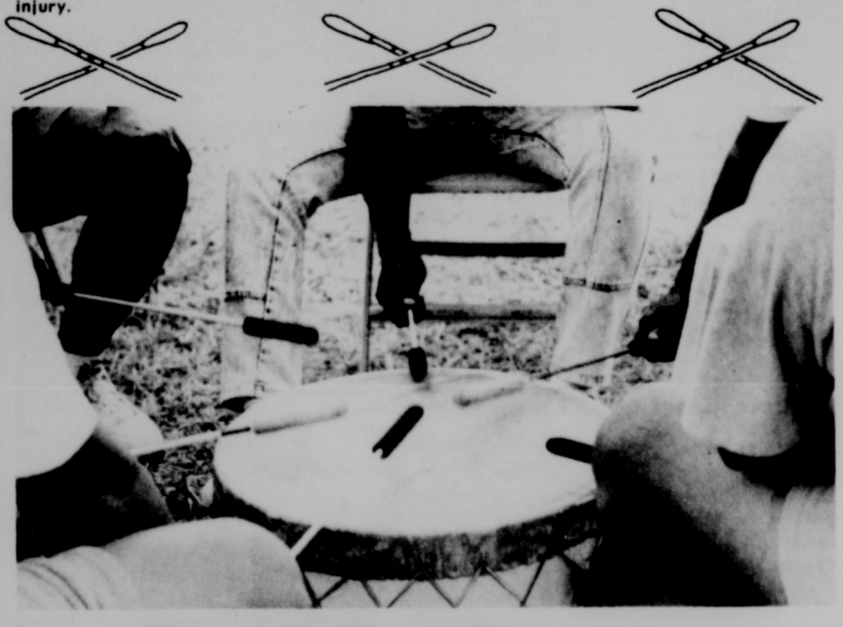
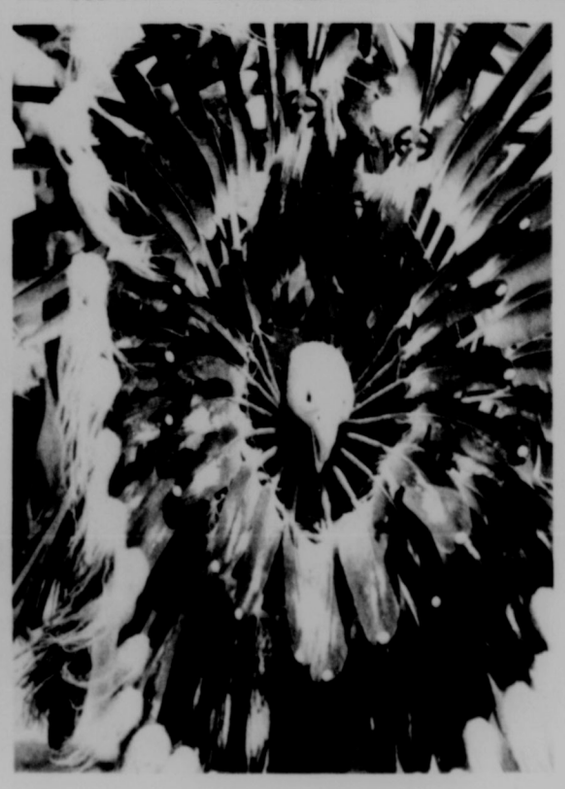
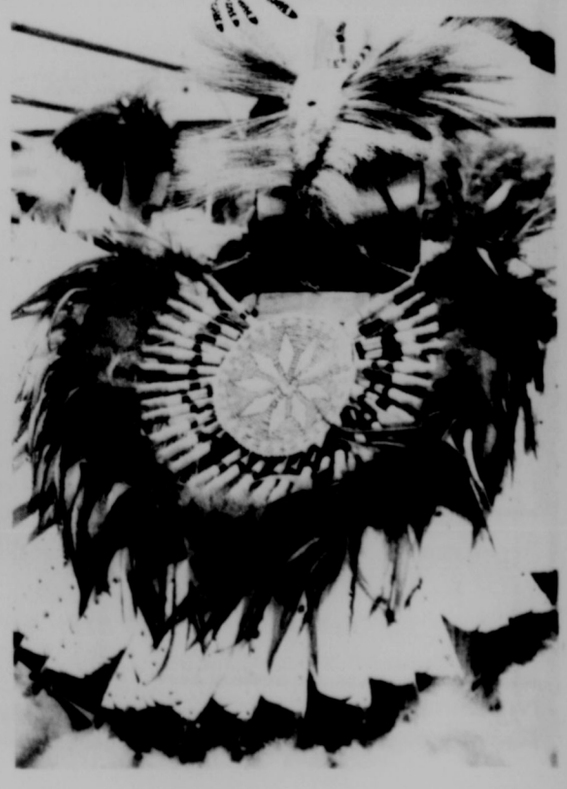
MANY CALL HER GRANDMA — Evening Star Greenhawk dances at Pow Wows almost every weekend, and is a well known face to those who have been yearly visitors at the AIITCO Pow Wow in Garrett County. Evening Star is a 76-year-young Cherokee traditional dancer who won second place at this year's Pow Wow in the Women's Traditional Class for those over 40. Her friendship and dancing are much appreciated by her people, as is evidenced by the jewelry she wears, all of it gifts from those who enjoy her dancing and her spirit. She is recognized by many who, if they do not know her name, simply call her Grandma. Below, hoop dancing is demonstrated by Marty Good Bear. This is the third year Good Bear has returned to Garrett County to perform what he calls, "a tribal celebration of the Indian way of life." His dance, which originated from the eagle, uses 30 hoops to weave intricate patterns of the dance. Most hoop dancers use between 12 and 20 hoops. Good Bear is a Mandan-Hidatsa from Ft. Berthold, N.D.





THE WARRIOR TRADITION — Military service is a major component of the culture of Indian people, expressing the warrior tradition. Operation Desert Storm saw many Indians in the ranks, and at least three young warriors are known to have died in that conflict. To show honor and respect for servicemen and women who served in all wars, each Pow Wow begins with a flag song followed by a veterans' song. Above, left, is pictured the Vietnam Era Veterans Inter-Tribal Association (VEVITA) who served as the color guard for the 1991 AIITCO Pow Wow. VEVITA is a national organization, inauguarated in 1981 at a pow wow honoring Vietnam Veterans, and is the largest Indian veterans group in the country. Pictured above is Norman Drywater, part of the VEVITA color guard, who was not able to participate this year because of a reoccurance of an old service-related injury.



THE DRUM IS VITAL TO THE AMERICAN INDIAN. It is considered to be the heartbeat of the Creator. At left, the hands of the host drum beat out the pulse of the American Indian People. The drum is accorded great respect and honor, and provides not only music, but also a means by which the singers and their listeners may reach their Creator. Below is a display of traditional feather bustles designed and worn by the men dancing as their fathers and grandfathers danced. These natural colored feather bustles differ from the multi-colored bustles of the fancy dancers, and consists of a circle or half-circle of feathers worn on the back, usually made of large tail or wing feathers. Many are individualized with the dancers personal carving, such as the wooden eagle head pictured below. Also used is the hand fan like the one held by Head Man Dancer Eddie Dimalanta, below, second from right.

Deputy Imperial Potentate To Visit Ali Ghan

The Deputy Imperial Potentate will make a visit to Ali Ghan Temple, Cumberland, during the 19th Annual East/West Shrine Football Classics this Saturday, July 20, at School Stadium in Hagerstown.

Everett M. Evans, of Tyler, Texas, was re-elected to serve on the Board of Directors of the Shrine of North America, moving one position closer to that of Imperial Potentate, the Shrine's highest ranking official. Evans was elected at the Shrine's 1991 international convention, held in San Francisco during the first week of July. He will serve this year as Deputy Imperial Potentate, part of the 13-member body which helps to regulate the Shrine.

Evans will become Imperial Potentate in 1992 if tradition is followed, and will bring the annual convention of the international Shrine fraternity, one of the largest conventions held yearly in North America, to the San Antonio area in 1993.

The Shrine is the 750,000-member fraternity which operates the 22 Shriners Hospitals for Crippled Children. The 19 orthopaedic hospitals and three burn institutes, located in the United States, Canada and Mexico, provide medical care to crippled and burned children, up to their 18th birthday, free of charge.

Evans is a Past Potentate of Sharon Temple; a former member of the Board of Governors for the Shriners Burns Institute in Galveston; past chairman of the board for the Shriners Hospitals, Houston Unit; and past president of the Texas Shrine Association.

He has numerous Masonic memberships and honors.

Evans lives in Tyler with his wife, Maxine. They have three daughters and six grandchildren.

Ali Ghan has not had such a visit since 1982.

Anyone wishing more information on the football game can call 777-5276 today and Friday from 10-4. Kickoff time is 8 p.m.

This classic has generated over $100,000 in 18 years for the sole benefit of Shriner's Hospital for Crippled Children and Burn Centers.

Surcharge Imposed To Boost Unemployment Insurance Fund

To ensure the solvency of the Maryland Unemployment Insurance Trust Fund, Maryland employers are now required by state law, in effect as of July 1, 1991, to pay an unemployment insurance surcharge of 1.7 percent to the Maryland Unemployment Insurance program, according to Charles O. Middlebrooks, assistant secretary for employment and training of the Department of Economic and Employment Development (DEED).

According to Maryland law, a surcharge is imposed on all employers covered by the Maryland Unemployment Insurance program if the trust fund balance falls below 4.5 percent of the taxable wages paid to Maryland workers. As of May 31, 1991, 4.5 percent of Maryland's wages was $549 million and the trust fund balance was $372 million.

"During the height of the recession, plant closures and layoffs resulted in Maryland employers paying less into the trust fund while, at the same time, more workers were receiving unemployment insurance benefits," said Middlebrooks.

The surcharge will be added to each employer's assigned unemployment insurance tax rate, which was determined from employment activity reports between January 1988 and December 1990. Each employer's tax rate ranged from .1 percent to 6.5 percent of the first $7,000 of taxable wages paid to each worker. As a result of the surcharge, the additional amount employers will submit in unemployment insurance payments will range form 1.8 percent to 7.6 percent of the taxable wages paid each worker.

Capping the surcharge at 1.7 percent resulted from legislation passed during the 1990 legislative session. Before that legislative action, Maryland law capped the surcharge at 2.7 percent.

During the 1991 legislative session, the Maryland General Assembly at the request of DEED changed the date for evaluating the Maryland Unemployment Insurance Trust Fund. The evaluation date, which was May 31, is now September 30 of each year and any subsequent surcharges resulting from the evaluation will become effective on the following January 1. The new date enables officials to obtain a more accurate determination of the trust fund's strength.

Also during the last legislative session, a one-year provision was adopted which states that, if on September 30, 1991, the Maryland Unemployment Insurance Trust Fund has fallen below $325 million, a 2.2 percent surcharge on unemployment insurance taxes will be required of all affected Maryland employers. This higher surcharge will become effective for wages reported by employers for the quarter beginning October 1, 1991, and payment will be due by January 31, 1992.

The most recent evaluation of the Maryland Unemployment Insurance Trust Fund indicated that Maryland employers paid $148 million in unemployment insurance taxes between May 31, 1990 and May 31, 1991. During the same period the trust fund earned $45 million in interest. However, benefit payments to jobless workers during that time totaled $403 million, reducing the trust fund by approximately $209 million to its current level of $372 million.

For further information about the surcharge, employers should call (301) 333-5330 or toll free at 1 (800) 492-5524.

Youth Commission To Meet Tuesday

The newly appointed Governor Schaefer's Youth Drug and Alcohol Abuse Commission will hold its first Western regional planning meeting for the 1991-92 year on July 23, from 10 a.m. to 4 p.m. The meeting, which is to be held at the Washington County Board of Education, is an opportunity for new members to meet with each other and discuss goals and agendas for Commission activities in the upcoming year.

The Youth Commission has been divided into five regions across the state. This was done so that Commission members may discuss their unique concerns and potential solutions for those issues in their areas.

Members of the Youth Commission are selected from local high schools. The selection is based on the students concern about the substance abuse issue and their desire to make a difference in the drug and alcohol abuse problem.

Among the members is Cindy Graham, a student at Northern High School.

First United Notes Earnings, Sets Dividend

First United Corporation, a multi-bank company headquartered in Oakland, recently announced net income of $1.16 million for the second quarter of 1991. Because of these earnings, on July 10, the Board of Directors declared a quarterly cash dividend of $.29 per share.

Richard G. Stanton, chairman of the Board and president, commented, "I'm pleased to see First United's earnings are still strong, despite the economic picture we have experienced during the first half of the year. We continue to concentrate our efforts in providing superior customer service, maintaining sound lending policies and attending to cost control and fee-based income strategies. We've found these basic banking strategies serve us well under any economic scenario."

Net income for the second quarter of 1991 represents shareholder earnings of $.68 per share. This compares to income of $1.26 million or $.74 per share during the same period in 1990.

Consolidated year-to-date earnings totaled $2.28 million. This income represents a 1.31 percent return on average assets, and a 13.29 percent return on average shareholders' equity.

Commenting on performance, Stanton stated, "Although we are marginally down from the 1.41 percent return on average assets and 15.52 percent return on average shareholders' equity earned during the first half of last year, earnings performance remains strong relative to peer banks."

Reflecting a decline in loan demand, gross interest income during the second quarter declined from $8.95 million in 1990 to $8.56 million in 1991. Year-to-date this total was down from $17.71 million in 1990 to $17.26 million in 1991.

At the same time, interest expense for the second quarter decreased due to lower balances in time deposits over $100,000. The second quarter 1991 interest expense was $4.56 million, down from $4.93 million in 1990. Year-to-date interest expense for 1991 was $9.25 million, compared to $9.83 million in 1990.

Other operating income year-to-date improved from $1.15 million to $1.19 million, or a 3.47 percent increase. Other operating expenses increased 3.52 percent year-to-date, to $5.50 million.

Stanton concluded, "Higher FDIC insurance premiums, affecting all commercial banks represented the most significant increase in non-interest expenses, rising $.18 million, or 114.94 percent over the first half of the previous year. While First United continues to be one of the stronger banks in the country, it is, nonetheless, obligated to pay hefty premiums to help cover the losses of those few institutions beset by problem loans and low performance levels."

Despite slight decreases in loans and deposits, shareholders' equity as of June 30, grew $2.7 million from June 1990 to a level of $35.0 million. Shareholders' equity represents 10.07 percent of total assets. The risk-based capital ratio, another measure of capital strength used by regulators, stood at 17.45 percent as of June 30, more than double the minimum required level of 7.25.

The recently declared dividend of $.29 per share will be payable to shareholders of record as of July 24, 1991, to be paid on August 1, 1991. The ex-dividend date is July 18, 1991.

This dividend reflects the consistent dividend policy of the Corporation. The August 1 dividend will follow $.29 per share dividends paid on February 1 and May 1 of this year.

First United Corporation has two banking subsidiaries: First United National Bank & Trust and First United Bank of West Virginia, NA. As of June 30, 1991, the Corporation posted assets of $347.0 million, total deposits of $307.8 million, and capital resources of $35.0 million.

POW WOW

Continued from Page A-7

give again.

One of the more popular items available at the AIITCO Pow Wow is always the food. Among the favorites are Indian fry bread and Indian tacos. Fry bread recipes differ slightly from tribe to tribe, but all are basically a dough made from flour, a little salt and warm water. The dough is stretched out and quick-fried in hot oil. It can then be eaten plain, sprinkled with powdered sugar or topped with honey. It can also serve as the base for an Indian taco — a stomach-filling masterpiece of fry bread, taco meat, chopped onions, lettuce and tomatoes, all topped with shredded cheese.

The Pow Wow, which will be held again next year on the weekend following the Fourth of July, is sponsored in part by the Garrett County Arts Council and the Maryland State Arts Council.

The traditions and culture displayed with reverence and respect by Native Americans shows the pride they feel for their past which was taken away from them along with their lands. Indian pride is no longer just a slogan. Today, American Indians are determined to maintain their identity as Indians and are passing that sense of self-awareness and pride on to their children and grandchildren, through activities such as pow wows. Their belief in their future is described in an American Indian proverb: "We do not inherit the earth from our ancestors, we borrow it from our children."

Every year, one out of every five American families moves.

Injuries Take Toll On Garrett Legion Team; Lose Three Straight

Injuries to some key players took their toll on the Garrett County Junior American Legion team in the Mountain District this past week, as the local hurlers dropped three straight games and saw their record drop to 9-6. Garrett was walloped by league-leading Farrady Post 24 at Frostburg last Thursday, 19-5, fell to Cumberland Post 13 on Saturday, 19-10, and lost to Victory Post 155 at Westernport on Tuesday, 9-4. Nonetheless, with two regular season games remaining, Garrett County, now 9-6, is seeded second for next week's playoffs.

Out of the line-up for the rest of the season are two of Coach Ed Wildesen's top players, as Garth Glotfelty has been benched with a knee injury and Brett Rice is out with a back injury.

Farrady Post 24, which upped its record to 12-2 with last Thursday's win over Garrett County, scored in seven of the eight innings, as Rick Burley smacked a double and two singles, Scott De Haven and John Cutter rapped home runs, Tom Shaffer hit a triple and a single, and Rick Duckworth and Jon Winebrenner each finished with two singles.

Garrett County was outhit by only four, 14-10, but also committed four costly errors in the contest. Kevin Green recorded four singles and two RBI, while Charlie Plaugher tripled and doubled.

Co-Players of the Week

Against Cumberland on Saturday it was in the eighth inning that the host team avenged an 18-7 loss to Garrett County the previous week, as the host team scored eight runs. The score had been tied at 10-10, but George Kelly cleared the bases with a single, Danny Matlick hit an RBI double, and Dave Phillips added an RBI triple.

Matlick led his team's 21-hit effort with three singles and a double, Kelly had two doubles and a single, Phillips stroked a double and two singles, and Andy Clark recorded four singles. Jake Sawyers, the winning pitcher, aided his own cause with a double and a single.

Chad Sines, Ritchie Baldwin, Britten Martin, and Shawn Ryan each singled twice for Garrett County, while Plaugher added a double.

The win was Cumberland's fifth in 13 starts.

Garrett County held a 2-0 lead over Victory Post 155 on Tuesday, but the host team came back to tie the score in the fourth inning and go ahead for good in the fifth.

Darrin Matlick hit two doubles and a single to pace Victory's offensive effort. Jeremy Blank added a two-run homer.

Kevin Green doubled and singled for Garrett County, while Plaugher picked up two RBI with a double.

Named Backbone Mt. Service Station Co-Players of the Week were Kevin Green and Charlie Plaugher. In last week's three games, Green was five-for-eight with a double and five walks, while Plaugher went six-for-14 with two doubles.

"Kevin has turned into one of the most feared hitters in the league, which is why he had five walks last week," stated Wildesen.

Coach Wildesen's team will conclude the regular season with a home game against Frostburg this afternoon and one against visiting Cumberland next Tuesday. The playoffs are slated for next Thursday at Donahue Field in Cumberland. Cumberland will play Westernport in the noon opener and Garrett County will play the winner of that game at 3:30 p.m. If Garrett wins that contest, it will play Farrady Post in a best-of-three series, beginning with a doubleheader at noon on Sunday, July 28. If a third game is needed, it will be played the following Tuesday at 5 p.m.

"The injuries to Garth and Brett have certainly taken their toll on our team," Wildesen said. "Plus, Ryan Harman is just no where near pitching the type of game he is capable of. As a team, we are just not concentrating, either offensively or defensively.

"But, with two games left, being seeded second in the playoffs, and holding a 9-6 record, we are looking forward to the rest of the season," he concluded.

Derek Mason accounted for six RBI in an 11-3 Bi-State Pony League win by Central Garrett over Hyndman Friday evening in Accident. The win improved Central's record to 11-2 and moved them into a tie for first place in the league.

Mason smacked a three-run homer and two two-run singles, while Rob Speicher earned the win on the mound and aided his own cause with a double and a single. Billy Younkin recorded three triples in the 11-hit effort.

Brad Turner singled twice for Hyndman.

Blood Appeal

Continued from Page A-1

has been an increased usage of blood by patients in regional hospitals.

Spampinato said that many people have not donated this summer because of the heat, vacations out of the area, or because they simply forget. During the Gulf War, many persons donated blood in an effort to "do something" for our troops.

"We need these same people to donate now to help us maintain an adequate blood supply.

"There is no substitute for human blood; its only source is healthy people who donate. However, it is too late to donate once an accident has happened. Blood needs to be readily available for those who need it," stated Spampinato.

Persons must be aged 17 years or older, weigh at least 110 pounds, and be in generally good health to donate blood. However, persons who have donated blood within the past five weeks should not donate at this blood drive.

The Johnstown Region supplies blood to patients in the 64 hospitals of its 40 counties in the states of central western Pennsylvania, northern Maryland, western Virginia, eastern Ohio, and West Virginia.

Restore Spring

Continued from Page A-1

Several loads of broken glass had to be removed before work could be started. The spring box was completely plugged with old shingles, mud, and glass, she explained.

The spring was opened, and rock walls and stairways previously not known to exist were unearthed by the workers. Hand split shingles were made with all hand tools in an effort to authentically restore the rounded peristyle roof.

The workers repaired all the stone work and retaining walls and replaced the sheathing. They also cut the brush and generally cleared out the area. Underwood Landscaping provided shrubbery, Ms. Clatterbuck said.

The town council hopes to develop the spring area into a small park for local residents as well as travelers, according to Ms. Clatterbuck. Strong efforts will be made to halt any vandalism that may occur.

"We're hoping that with the current awareness and concern for the environment, people will be less likely to damage the historic area," she stated.

Persons are invited to visit and enjoy the area, Ms. Clatterbuck said. The area coordinator for the restoration was Marc DeLaney, and Russ Alexander served as crew chief.

The board members and Superintendent Jerome Ryscavage were generally pleased with the outcomes of the testing, and Al Ringer, assistant superintendent of schools, accredited the competent scores to the county's teachers and their efforts.

Head Start Expansion

Another topic discussed at the board meeting was the expansion of the Head Start program of providing comprehensive services to income eligible children enrolled in the Extended Early Elementary Program (EEEP). The expansion will take place with the beginning of the 1991-92 school year.

Brenda McCartney, director of elementary education, explained the expansion to the members. The services will include comprehensive health, dental, family support, and parent education programs to children and their families.

According to a memorandum written by Dr. McCartney and Jean Tressler, Head Start director, the health component will include a broad range of medical, dental, mental health, and nutritional services; the promotion of preventive health services and early intervention; and an attempt to link the family to an ongoing health care system and increase their knowledge to meet the nutritional needs of their families.

The family support component will include assistance to the family it its own efforts to improve conditions and quality of family life, and development of parental awareness of community resources.

The parent involvement component is a planned program of experiences and activities which supports and enhances the parental role as the principal influence in the child's education and development, according to McCartney's memo. The content includes training and technical assistance in the development of parenting skills, self-confidence, and a sense of independence.

The implementation of the expanded program will begin with a September meeting of the Head Start personnel, the EEEP teachers, the principals, and McCartney at which time they will discuss the collaborative effort at each participating school.

An explanation of services available through Head Start and an application to participate in the program will be sent home with all students enrolled in the EEEP program. Head Start personnel will visit the homes of all eligible students and explain the program in detail to the parents.

sonal belongings.

Burlton Alexander, Oakland, reported the theft of a 35 mm camera, lens, flash, and carrying case. The equipment was apparently removed from the living room of his residence. He noticed the absence of the belongings on July 9, but said the theft could have occurred as early as February 9.

The camera and accessories have been valued at $800.

David A. Kurtz, Maryland Line, told police that he had placed a suitcase and duffle-bag containing several items in the bed of his truck on July 9 and parked it at the Keysers Ridge truckstop. DNR To Conduct Public Informational Hearing On State Forest Work Plans

As part of an ongoing effort to improve public participation in state forest issues, the Maryland Department of Natural Resources will conduct a series of public informational hearings concerning fiscal year 1992 annual work plans at four state forests. The meetings will provide an opportunity for interested citizens to become familiar with proposed management activities at Potomac-Garrett, Green Ridge, Savage River and Pocomoke State Forests and to ask questions or offer comments concerning the work plans.

The first hearing covering Green Ridge State Forest will be held Friday, July 26, at 7 p.m., at the Flintstone Volunteer Fire Company in Flintstone. The Potomac-Garrett State Forest hearing will be conducted Saturday, July 27, at 9:30 a.m. at Garrett Community College in McHenry followed by the Savage River State Forest hearing at 2 p.m.

The Pocomoke State Forest hearing will be conducted Friday, August 2, at 7 p.m. at the Pocomoke City Public Library.

Each meeting will consist of two parts, an informational presentation by the forest manager followed by an opportunity for public questions and comments. The annual work plan contains information on items such as proposed recreation management and timber management activities which have the potential to impact various aspects of the forest resource. The plans have been previously reviewed by the department's interdisciplinary review team, which includes representatives from fisheries, wildlife, natural heritage, forestry, and water resource disciplines. In addition, citizen advisory committees for each forest have reviewed and commented on the plans.

Following the hearing, the department will accept written comments up to one week after each hearing. Comments or questions about the annual work plan or hearing locations should be directed to the individual forest managers at the addresses listed below. Other comments or questions should be directed to Eric C. Schwaab, Supervisor of Resource Management, Maryland Department of Natural Resources, Public Lands Administration, State Forest & Park Service, Tawes State Office Building, Annapolis, Md., 21401, (301) 974-3771.

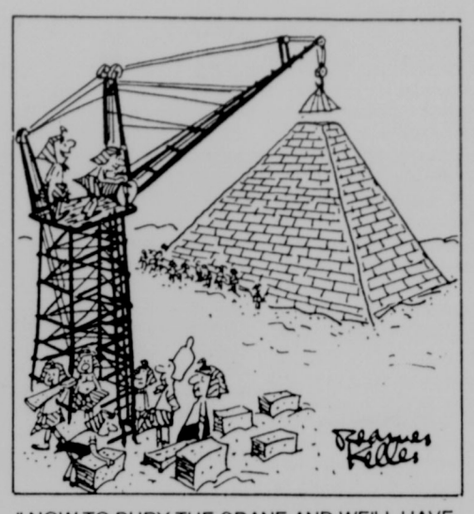
Health Dept. Confirms Two Rabies Cases

Rabies cases 10 and 11 were confirmed this week by the Garrett County Health Department, according to Tina Buckel, sanitarian. The animals were both raccoons.



The first incident occurred at the Gary Jenkins residence on Meyers Road north of Friendsville. The rabid animal entered Jenkins's land and apparently fought with his chained dog. Jenkins then killed the raccoon and contacted the health department.

The pet was not vaccinated against the disease, and has since been euthanized, according to Buckel.

The second case occurred on the property of Rondal White on the Red Oak Road in the Kempton area. A raccoon was attempting to enter White's dog's chainlink area and the dog had some contact with the rabid animal.

White then shot the raccoon and contacted the health department. The dog was currently vaccinated against the disease, was re-vaccinated, and will be observed for 90 days.

There was no human exposure in either incident.

Hit-And-Run

Continued from Page A-1

Volkswagen Jetta, was traveling down the hill road when he applied his brakes and began to hydroplane. His vehicle then struck a 1987 Cutlass, operated by Harold Williams, 46, Addison, Pa.

State police did not indicate any injuries in the mishap.

SECOND MISHAP

A second mishap on the Mattingly Hill Road was reported on Friday when an East Liverpool, Ohio, woman who was operating a Dodge Dayton skidded on the oily surface.

Cindy Muha, 20, was slightly injured when her vehicle struck an embankment and overturned.

Tfc. J.E. Foley investigated and said Muha refused treatment at the scene.

ESCAPES INJURY

A young Frostburg woman escaped injuries late Friday when her vehicle traveled off the Church Run Road and overturned in a field, according to state police.

Jennifer Hilderbrand, 18, was wearing her seat belt at the time of the accident which police feel prevented serious injury.

Tpr. G.A. Seaman and Tfc. J.K. Moore investigated and charged Hilderbrand with failure to keep right of center.

STRIKES BEAR

A Wilmington, Del., woman was injured Saturday night when the 1986 Nissan Sentra she was operating struck a black bear.

Lisa VanDyne, 31, was traveling on U.S. Route 48 when she struck the bear. She was taken to Memorial Hospital, Cumberland, where she was treated and later released.

The bear was killed in the mishap, according to Tpr. S.H. Anderson, who investigated for state police.

MAN INJURED

An Accident man was treated for injuries Saturday evening at Garrett County Memorial Hospital following a single-vehicle mishap on the Glendale Road, one-half mile from the Bittinger Road.

Clarence Hare, 49, was operating a Dodge Ram pickup truck east on the Glendale Road when he crossed the center line and struck some trees on the left side of the roadway.

Tpr. Glenn Seaman investigated and charged Hare with negligent driving and failure to keep right of center.

Hare was transported to the local hospital by the Southern Garrett County Rescue Squad.

Cooperative Extension Service

for better living in Garrett County

by Irmgard Koscielniak, Extension Agent

Last week we discussed proper storage of perishable food items - vegetables. The highest nutrition and optimal point of maturity are closely related, but nowhere is this more obvious than in fruits and berries were the sugar content quickly breaks down when the product is over-ripe. Fruits, if we concentrate on local products, will cost less, are higher in nutrients and more flavorful than fruits picked underripe that arrive weeks later at our markets. A good example are tomatoes in the winter. One can extend the season of fruits through proper storage and handling. Considering the many questions we receive on how to keep apples, bananas, etc., it seems many of us are not doing as well with food storage as we would like. This article discusses reasonably short-term storage of the fresh product, but does not mention root-cellars, food drying and other preservation methods. Request this type of information by calling me at 334-1990 or writing to: The Cooperative Extension Service, 202 S. 3rd St., Oakland, Md. 21550.

Apples, of which the United States alone has over 7,000 varieties, should be refrigerated or stored at very cool temperatures in dark areas. Frequently sort through them to remove those with blemishes or mold growth. Eat apples at room temperature though for optimal flavor.

Apricots are very fragile and keep even in the refrigerator at best a few days. Bananas (are really giant herbs) and they will continue to ripen at room temperature, uncovered. They can be refrigerated for a few days. The peel will turn brown, but not change the flavor of the banana.

Berries should be picked through to discard any damaged ones. Store them in a flat container in the refrigerator to avoid crushing the berries. Just before using, wash berries gently in cold water and hull if appropriate. Use raspberries on the same day as picked.

Cherries should be sealed in a plastic bag and refrigerated, do not wash until just before eating. Cranberries and grapes are sturdy enough to store in the refrigerator for at least one week.

Melons should be refrigerated when ripe and the cut fruit wrapped in plastic to avoid flavor transfer.

Nectarines and peaches need to be softened at room temperature until ripe, then refrigerated.

For more information on cupboard, refrigerator and freezer storage, please request Leaflets 83, 84 and 85.

Detailed information on how to shop for, keep and maintain nutrients in fruits and vegetables is available by request. Twelve factsheets on preserving a variety of fruits and vegetables are also free. A booklet titled, "Home Storage of Fruits and Vegetables" contains temperature and humidity requirements for root cellar, trench and other outdoor storage. It shows how to build storage rooms and shelves and has a multitude of helpful hints for indoor and outdoor storage. This brochure, NRAES-7, sells for $2. Please make check payable to Garrett County E.A.C., 202 S. Third Street, Oakland, Md. 21550.

Three of the original family were present; Bertha Groden, Keyser, W.Va.; Nellie Schlossnagle, Bridgewater, Va.; and Harley Spoerlein, Newville, Pa. Randall Spoerlein, New Windsor, who furnished the meal for the group, died April 26. A moment of silence was observed in memory of deceased family members.

A few remarks were made by Harley Spoerlein.

Those attending were from Maryland, Pennsylvania, Virginia, Kentucky and Washington.

Ernest Spoerlein and Clark Schlossnagle, assisted by their wives, were coordinators for the day.

beach party

Remember the great old movies like "Beach Blanket Bingo" and "Back to the Beach?"

Remember Gidget, Elvis, Frankie and Annette? These beach classics inspired millions of moviegoers to jitterbug in the sand. Now, along with the revival of 1960s clothing and accessories, beach parties are making a comeback, promising to be this summer's hottest party craze.

Adults can ride the beach party wave and throw their own splash with the appropriate summer spirit. The suggested beach party menu adds a modern touch to beach party classics. Recipe ideas include summertime favorites such as the Midori Sno-Cone, an icy concoction with an innovative twist; Goombay Chicken, a tropical taste for the outdoor grill; or any of the other following beach-inspired food and drink items.

For a cutting-edge party, feature bright, vibrant colors and festive decorations. Offer guests day-glo surfer caps and plastic beach balls as party favors. Adorn food with colorful paper beach umbrellas and the newest in whimsical swizzle sticks.

Sun, sea and sand aren't necessary to throw a great beach party. Appropriate food and drink and the right attitude can heat up any occasion to the proper beach temperature!

HONEYDEW SHRIMP BROCHETTES

Makes 4–6 servings

½ cup Midori Melon Liqueur
¼ cup soy sauce
¼ cup fresh lime juice
1½ tablespoons minced, fresh ginger
1 teaspoon minced garlic
¼ teaspoon crushed red pepper flakes (optional)
1 pound fresh, medium-size shrimp, peeled and deveined
½ honeydew melon, cut into thin 1-inch x 4-inch strips
⅓ cup minced fresh parsley for garnish
30 6-inch wooden skewers, soaked in water

In a mixing bowl, combine liqueur, soy sauce, lime juice, ginger, garlic and red pepper. Add shrimp to bowl. Cover and marinate in the refrigerator for 1 hour. Place each shrimp on a strip of honeydew and thread on skewers. Broil for about 1 minute, until shrimp are cooked through. Serve garnished with parsley.

MIDORI SNO-CONES

Makes 6 servings

½ ripe honeydew melon, seeds removed
3 kiwifruits
2 tablespoons fresh lime juice
Pinch salt
½ cup sugar
½ cup water
½ cup Midori Melon Liqueur

Peel honeydew and kiwifruits and cut in chunks. Add fruit, lime juice and salt to food processor and purée until smooth. (Should yield 3 cups.)

In small saucepan, boil sugar and water for 2 minutes. Let cool. Mix fruit pureé and sugar syrup. Put in ice cream maker and freeze according to manufacturer's directions.

Halfway through freezing process add ¼ cup liqueur and stir. Finish freezing process.

Place large scoops of sorbet mixture into paper cones. Drizzle each sno-cone with liqueur.

SURFSIDER TROPICAL FRUIT KABOBS

Makes 6 servings

1 lemon, juiced
½ cup Midori Melon Liqueur
½ cup orange juice
¼ cup sugar
1 honeydew melon, peeled and seeded
1 cantaloupe, peeled and seeded
1 fresh pineapple, peeled and cored
1 pint strawberries, washed and hulled
½ cup flaked coconut (optional)

Pour lemon juice, liqueur, orange juice and sugar into a large bowl; stir to combine. Scoop out honeydew and cantaloupe to form melon balls. Cut pineapple into small wedges. Place melon balls, pineapple and strawberries in marinade mixture and let soak in the refrigerator for 1 hour.

Thread fruit in attractive combinations on 8-inch wooden skewers. Sprinkle with flaked coconut, if desired, and serve.

GOOMBAY CHICKEN

Makes 4–6 servings

Marinade:
½ cup white vinegar
⅓ cup Midori Melon Liqueur
¼ cup vegetable oil
¼ cup orange juice
2 tablespoons fresh lime juice
2 tablespoons teriyaki sauce
2 tablespoons sugar
1 tablespoon garlic powder
1 tablespoon thyme leaves
4 teaspoons salt
2 teaspoons cayenne pepper
¼ cup chopped cilantro
1 cup chopped onions

Chicken:
1 3½-pound chicken, cut into 6-8 pieces
1 pineapple, peeled, cored, cut into 8 slices

Combine all marinade ingredients in a large bowl; mix well. Reserve ¼ cup marinade in small bowl. Add chicken pieces to the large bowl, and marinate in the refrigerator for 2 hours or overnight.

Remove chicken from refrigerator, and discard chicken marinade. Place chicken in a shallow baking dish with pineapple slices.

Bake chicken and pineapple in 375°F oven for 45 minutes basting occasionally with reserved, fresh marinade. Or, grill chicken and pineapple for 15 minutes on each side. Serve warm or cold.

MIX-IT-UP

This summer's biggest splashes take on unusual shapes and sizes, not to mention the imaginative names that make them memorable:

bikini breezer

Mix 2 parts Midori, 1 part raspberry liqueur, 2 parts pineapple juice, and 2 parts cranberry juice.

the melonball

Mix 2 parts Midori, 1 part vodka, and 4 parts orange, pineapple or grapefruit juice.

cheap shades

Mix 1 part Midori, 1 part peach schnapps, 2 parts orange juice, 2 parts pineapple juice, and 1 part margarita mix. Top with lemon-lime soda.

the beach ball

Cut 3 evenly spaced holes in the top of a watermelon or a honeydew melon. Fit the neck of a Midori bottle into the middle hole and invert, allowing the liqueur to drain into the melon. Let sit for a half hour so that juices are distributed (approximately 1 cup of liqueur will be absorbed). Carefully remove bottle with unabsorbed liqueur. Slice and serve.

Beware of Sleeping Tigers!

"Dad, come see!" she beckons. "He seems OK. He's soft and he isn't growling at me, but I'm not *quite* sure."

This young lady may be too young to verbalize these thoughts, but it does appear that she has the need for extra assurance from someone who has more experience and wisdom than she; from someone who can protect her from the "big bad wolves" of the world, especially those who wear the proverbial "sheep's clothing."

Are there "big bad wolves" in your life? Perhaps a situation appears to be harmless and desirable . . . very tempting . . . but you are not *quite* sure. In the case of this young lady, her stuffed tiger is harmless enough; yet, a sleeping tiger, too, is satiny soft and does not growl. But, what if it awakes!

When you are in doubt concerning whether a deed or a thought is harmful to your spiritual integrity, call upon your Heavenly Father. Worship Him and read His Word. God loves you. He is waiting to protect you. *Beware of sleeping tigers.*

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

ON WORKING UP TO LOVE

July 21, 1991

Background Scripture:
Nehemiah 5.
Devotional Reading:
Deuteronomy 15:1-11.

No doubt about it: it is far better for us to love God than to fear him. As a parent I learned a long time ago that when my children obeyed me out of love, it was more satisfying than when they obeyed out of fear.

At the same time, I realize that fearing God is better than neither fearing nor loving him. In my own life I recall there were times when I refrained from certain behaviors because I feared my parents' reaction. I wish I had behaved that way out of mature love instead of immature fear, but I'm glad that there was something to keep me from making harmful mistakes. I confess that even today there are times when my fear motivates me instead of love—like on the highway when I want to exceed the speed limit.

My point in all this is that old argument that "you can't legislate morality." Actually, that's not true: we can and we need to. It would be wonderful if we could all be motivated by our sense of righteousness—and it is certainly much better when we are—but until the human race has reached perfection or at least its God-given human potential, that is not likely.

LEGISLATING MORALITY

I will also agree that legislation alone is not the answer. It may persuade people to be just or honest in their actions, even though they don't want to be. Eventually, we need to try to change their attitudes as well as their actions. In other words, legislation is the beginning of morality, not the end. It attempts to force compliance with moral standards, but we also need to work to inspire a desire to do what the law requires.

If I go out this afternoon and buy a used car, I would hope that the dealer would want to be honest and not deceive me about the condition of the car. I would much prefer to deal with someone who would not want to cheat me. At the same time I am glad that there are laws in this state that compel him to be reasonably honest.

STRANGERS AND BRETHREN

I find it interesting that, having met the fearful threat of danger from outside the Jerusalem community, Nehemiah next turns to an equally threatening situation within the community. It is even more significant because, while we might suspect that outsiders might not always treat us honestly, we like to think that those within our own group will. That is why the people were so vigorous in their complaints to Nehemiah. Their families were starving, their creditors were foreclosing on their mortgages, and they were losing what little they had, not to the hostile Samaritans, but to their own Jewish brethren.

Nehemiah was shocked and spoke bluntly about this evil situation. But, more important and quite contrary to our inclinatons, he didn't just talk about it, he did something!

Nehemiah didn't wait for either love or maturity to prod the consciences of the exploiters. He didn't mind appealing to fear: "Ought you not to walk in the fear of our God...?" Even after they agreed to cease their exploitation and make restitution, he threatens: "So may God shake out every man from his house and from his labor who does not perform this promise" (5:13).

I personally prefer love and maturity, but there are times when fear is where we have to begin before we can work up to love.

COVER STORY

'China Beach' led to involvement for Delany

BY LYNN HOOGENBOOM

When ABC's "China Beach" ends its run with a special two-hour movie on Monday, July 22, it will close an important chapter in Dana Delany's life. Since 1988, she has been playing nurse

Dana Delany

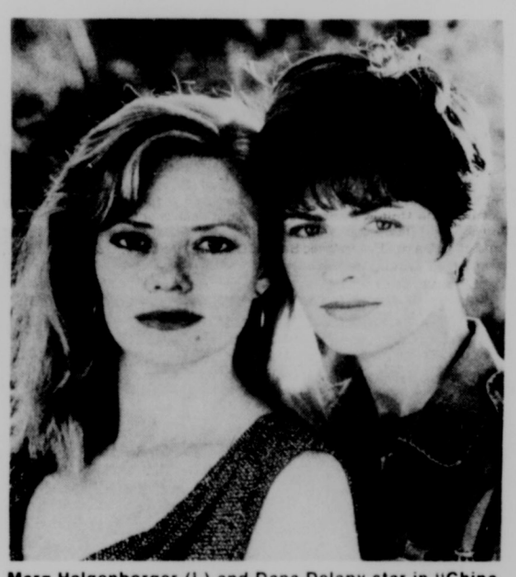
Colleen McMurphy in the critically acclaimed series about American servicepeople during the Vietnam War.

But the 35-year-old actress doesn't seem anxious to close this particular chapter. Consider what she did after she completed work on the series.

"I went on a month's vacation to Thailand and Vietnam," she says.

Delany's own memories of the Vietnam War are of TV images on the evening news. "I saw it on TV," she says. "I didn't know anybody who went. I was fortunate to come from an upper-middle-class background, and people of that strata, or whatever, did not go to the war. When I got the job, I felt, 'I have no right to play this part, because I don't have any connection to it.' "

But a connection did develop. "I haven't quite figured it out yet," she says, "but it's become such a huge part of my life. I've gotten so involved with the issues for the vets: the women's memorial project, agent orange, MIAs. So from not having known that much about Vietnam and feeling very inadequate in my knowledge, it's now become a big part of my life. There's probably not a lot of actresses who've been to Vietnam twice in three years."



The United States pulled out of Vietnam in 1973, and Saigon fell in 1975, but the war is still an emotionally charged subject.

"I think that when 'China Beach' first came out, the network was afraid we couldn't make war entertaining, and the vets were afraid that we *would* make war entertaining," says Delany. "And I think we managed to please both. It was political, but only in a human sense -- in the cost of human lives."

During her years on "China Beach," Delany has developed a strong male following. One colleague of ours, never a gusher, even wrote that if any red-blooded male were asked who he'd like to be stranded on a desert island with, he'd answer with three names: Dana Delany, Dana Delany and Dana Delany. We risk embarrassing Delany by asking if she has any theories why.

"Oh, gosh, I don't know," she laughs. "The only thing I can think of it's the combination of wholesomeness, which is nonthreatening, then just a little bit of bad girl thrown in. Everybody has both in them. If you keep the balance of it, I think it makes people more interesting."

She pauses. "But you'd have to ask *him*."

Marg Helgenberger (l.) and Dana Delany star in "China Beach," which concludes its run with a two-hour movie airing Monday, July 22, on ABC.

TV DIALOGUE

BY TONI REINHOLD

KEEP ON TREKKIN' – Does William Shatner have any plans for another "Star Trek" motion picture? Can you give me any info about his private life? – H.R., Seattle

William Shatner

"Star Trek VI" will beam into theaters later this year. In the meantime, in addition to hosting the CBS series "Rescue 911," Shatner has become a successful science-fiction novelist. In 1989, his book "Tekwar" was published, and more novels will follow. Shatner tapes "Rescue 911" on weekends; during the week he writes and works on developing TV movies and features. The 60-year-old Shatner also breeds American Saddlebred show horses on his Kentucky farm, Belle Reve, which means Beautiful Dream. He is married to actress Marcy Lafferty, and he has three grown daughters from a previous marriage.

HUNTING TEAL – I'm tracing our family history, and I believe a member of our family was a regular on "Bonanza." His last name was either Feil or Teal. Can you tell me how to contact him? – I.M.B., Clyde, Ohio

I believe you're referring to Ray Teal, who played Sheriff Roy Coffee from 1961-71 on the Western series. Teal also appeared in a number of film Westerns beginning in the 1930s. He was born on Jan. 12, 1902, in Grand Rapids, Mich., and died on April 2, 1976.

HEY, CISCO – I recall the promotional hoopla surrounding one of the old Westerns, in which the announcer said, "Here's adventure! Here's romance! Here's O'Henry's famous Robin Hood of the Old West!" Who is O'Henry, and of what show was this a part? – F.L.R., Waterbury, Conn.

"The Cisco Kid" (1950-56) was the Western with this memorable introduction. It starred Duncan Renaldo as Cisco and Leo Carrillo as his sidekick, Pancho. The character, who originally stole from the rich and gave to the poor, was created by famed short-story writer O. Henry in his tale "The Caballero's Way." In the TV series, he was transformed into a more conventional crime-fighting caballero. The Cisco Kid was also the hero of a number of films, a radio series and a comic strip.

BALL AND BOB – Didn't Lucille Ball once work with Robert Preston? Please cite the film. – H.Z., Tampa, Fla.

Ball and Preston starred in the 1974 musical "Mame."

'The Daytime Emmys' had their own drama

BY CONNIE PASSALACQUA

The 18th Annual Daytime Emmys" – the first to air live in prime time (on CBS) – were, by past Daytime Emmy standards, pretty dull. No calamities. No scandals. Not much good gossip. Susan Lucci had her twelfth annual Best Actress loss.

But there were a couple of very nice dramatic moments on June 27, ones that even the

Peter Bergman

head writers couldn't have dreamed up. Television viewers were treated to sheer exuberance in the acceptance speech of Best Actor winner Peter Bergman (Jack Abbott on "The Young and the Restless"). In the press room, Bergman broke down in tears at the sheer irony and triumph of it all. Due to the white-bread nature of his 10-year role as Cliff Warner on "All My Children," Bergman's acting talents had been mostly overlooked. And when that character was written off the show, his future looked bleak.

As Bergman pointed out in the press room, "It's been two years to the day that 'AMC' (fired) me. ... That awful day two years ago, I had only one friend left, one who believed in me ..." he said, gesturing to his wife, Mariellen. The two were awash in tears. So was everyone else in the press room.

The win of Bernie Barrow (Louis Slavinsky on "Loving") for Best Supporting Actor was a nice surprise. "You gotta remember 'Loving' is not a highly rated show," a jovial Barrow said in the press room. In his acceptance speech, he thanked ABC for giving him the rare chance to do a middle-age love story.

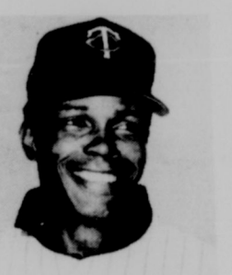
"When the word came from ABC that they wanted me back (he had played Johnny Ryan for the 13-year run of canceled 'Ryan's Hope')," I asked my agent what kind of role it was. He said, 'It's a sexy garbageman,' and I said, 'Oh, I could do that.' " Barrow also graciously reminisced about his "RH" wife, Helen Gallagher, a three-time Daytime Emmy winner for her role of Maeve Ryan.

Finola Hughes (Anna Scorpio on "General Hospital") was in London picking up her green card, so she wasn't present for her Best Actress nod. Nor was Anne Heche, winner of Best Young Actress, who, having left "Another World" (and her dual role of Marley and Vicky), was out making a TV movie. Best Young Actor winner Rick Hearst (Alan-Michael Spaulding on "Guiding Light") joyously recounted the birth of his son, Nicholas Charles, the night before.

About the only overwhelmingly popular award backstage was class act "As the World Turns" for Best Show.

SUNDAY

In "The Murder of Mary Phagan," Jack Lemmon stars as John M. Slaton, a governor of Georgia in 1913 who risks his career by reopening a sensational homicide case and publicly questioning the conviction of a young man for the crime. The 1988 miniseries is rebroadcast beginning **Sunday, July 21**, on NBC.



SPORTS CALENDAR

Diamonds and gridirons polished by inductees

BY CHRISTOPHER HULL

This week, with the baseball season around the two-thirds mark and with all 28 NFL training camps underway, each sport will honor some of its all-time greats.

ESPN will have live coverage of the induction ceremonies from the Baseball Hall of Fame in Cooperstown, N.Y., on Sunday, July 21. The all-sports network will carry a

Rod Carew

same-day tape of the Pro Football Hall of Fame induction ceremonies in Canton, Ohio, on Saturday, July 27.

Here's a look at the baseball honorees:

Rod Carew, infielder: One of the game's all-time great hitters, Carew never hit below .273 in 19 years in the major leagues, compiling a lifetime batting average of .328.

Ferguson Jenkins, pitcher: A fireballing righthander, Jenkins regularly completed more than half of the games he started, up until the last third of his 19-year career.

Tony Lazzeri, infielder: A Yankee for 12 years, Lazzeri is best remembered for his clutch hitting.

Gaylord Perry, pitcher: Another hard-throwing righty, Perry ranks third on the all-time strikeout list and fourth in innings pitched. Ironically, he is also fourth on the all-time loss list.

Bill Veeck, owner: Never afraid to try a gimmick, Veeck was responsible for sending 3-foot-7 Eddie Gaedel to the plate as a pinch hitter in 1951.

And a look at football's honorees:

John Hannah, lineman: Named All-Pro for 10 straight years during his 12-year career, Hannah is widely recognized as the premier lineman of the late '70s and early '80s.

Earl Campbell, running back: After being named All-Pro, Rookie of the Year and Most Valuable Player in 1978, Campbell never looked back.

Jan Stenerud, kicker: In 19 seasons of professional football, Stenerud never missed a game because of injury. He is the first player who was exclusively a kicker to be inducted into the Hall of Fame.

Stan Jones, lineman: A sturdy player who missed only two games in his first 11 seasons, Jones was named to the All-NFL team four times and played in seven Pro Bowls.

Tex Schramm, owner: During 29 years as owner of the Dallas Cowboys, Schramm directed the team to 20 consecutive winning seasons.

• ABC carries the final round of the British Open on Sunday, July 21.

• Denver meets Detroit in the Pro Football Hall of Fame game, Saturday, July 27, on ABC.

MOVIES ON TV

Redford, Streep, scenery highlight 'Out of Africa'

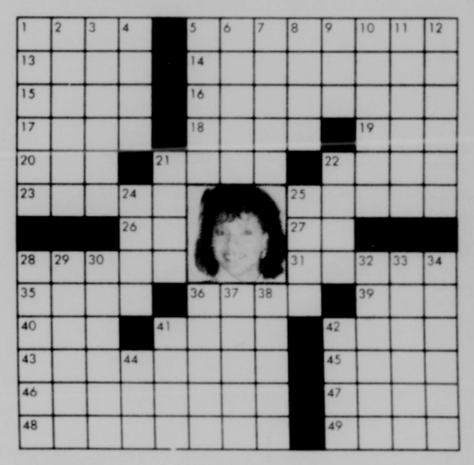
BY FELICIA A. FEASTER

Meryl Streep stars with Robert Redford in the 1985 film "Out of Africa" (CBS, July 21 and 23), based on the life of Karen Blixen (a.k.a. Isak Dinesen), who travels from Denmark to Kenya to start a business with her husband. But the author's love for Africa and an English adventurer, Denys Finch-Hatton (Redford), soon supplants her

Meryl Streep

superficial ties to an unfaithful husband and the strained civility of British colonialism. The one hitch in an otherwise sublime film is Streep's studied Danish accent and Redford's failure to muster even a slight British pronunciation. The characters of "Out of Africa" are otherwise as detailed as the scenery is breathtaking.

• In typical cinematic tradition, "The Best Little Whorehouse in Texas" (ABC, July 21) puts the "fun" back in prostitution. The bucolic musical features Dolly Parton as the town brothel's madam and sheriff Burt Reynolds as a favored customer trying to keep the "chicken ranch" from being shut down. The only thing going for this good-ole-boy hokum is the effervescent Parton.



• Jack Lemmon is John M. Slaton, the governor of 1913 Georgia who jeopardizes his political position when he reopens a sensational murder case in the fact-based miniseries "The Murder of Mary Phagan" (NBC, July 21-22).

• The final episode of the critically acclaimed series "China Beach" (ABC, July 22) will air as a two-hour movie. In 1988, the China Beach survivors reunite and pay a heartfelt visit to the Vietnam War Memorial in Washington, D.C.

• In the 1960s, Berkeley was the starting point for the civil-rights movement and later for the anti-war, women's rights and Black Panther causes. The 1990 documentary by Mark Kitchell, "Berkeley in the Sixties" (PBS, July 23), traces the rise of activism at the nation's most progressive state university and its impact on American politics. Kitchell uses "witnesses" – participants in the demonstrations and sit-ins of the '60s, who recount the time in glowing and often naively idealistic terms.

• New Orleans police lieutenant Remy McSwain (Dennis Quaid) is investigating a wave of gangland murders, and district attorney Anne Osborne (Ellen Barkin) works to uncover police corruption at his precinct in "The Big Easy" (CBS, July 27). While the cavalier McSwain and headstrong Osborne clash on a professional level, their romantic chemistry is undeniable in this energetic 1987 thriller.

The life and vision of physicist Albert Einstein, by many accounts the greatest scientific mind of the 20th century, are examined on "A. Einstein: How I See the World." Among the topics touched on in the portrait, which uses speeches and writings to focus on Einstein's later years, are his outspoken advocacy of individual liberty and nuclear disarmament. It airs on "American Masters," **Monday, July 22**, on PBS. (Check local listings.)

IN FOCUS

The low-key charm that has served country legend Eddy Arnold (pictured) so well throughout his career is in evidence in "Eddy Arnold: An Inside Look," airing **Wednesday, July 24**, on The Nashville Network. Unfortunately, interviewer Ralph Emery is even more low-key than Arnold, and although the topics they discuss are interesting, the energy level lags. The show could use a good jolt of Arnold's music, which gets short shrift.

IN FOCUS

A combination of uilleann pipes, bodhran, fiddle, flute, tiompan and tin whistle take center stage when the ancient, timeless Celtic strains of the Chieftains are featured on "Evening at Pops" **Sunday, July 21**, on PBS. (Check local listings.) The renowned Irish band will be joined by Burgess Meredith and the Boston Pops Orchestra for an evening of traditional tunes and humorous melodies, including "Planxty Mozart." Slainte!

Participants For Senate Youth Program Sought

Senator Paul Sarbanes has announced that the 1992 United States Senate Youth Program is seeking applications from outstanding high school students to participate in the week-long, intensive study of the federal government with a specific focus on the U.S. Senate. The 1992 Program will be held in Washington, D.C. from February 1 through February 8, 1992.

"The Senate Youth Program provides participating high school students with a thorough understanding of our political process and the functions of our National Government which is imperative for the continued vitality of our Republic," Sarbanes said.

Each year since the founding of the program in 1962, two student body officers from each State and the District of Columbia have attended the program. Participating students each receive a $2,000 college scholarship for the further study of American government and related subjects.

While in Washington, the students will follow an intensive schedule, including meetings with their Senators, briefings throughout the week by Senators, Cabinet members and a Supreme Court Justice. Other highlights include visits to the Smithsonian museums, a mock Joint Session of Congress on the Floor of the House of Representatives, a visit to the White House and a planned meeting with the President.

Interested students should contact their high school principals or Dr. Bonnie S. Copeland, Acting Superintendent of Schools c/o Office of Special Projects and Communications, 200 West Baltimore Street, Baltimore, MD 21201. Additional information can be obtained by writing to the United States Senate Youth Program, 90 New Montgomery Street, Suite 1212, San Francisco, California 94105.

Selection of the Maryland delegates will be made by the Maryland State Superintendent of Schools in cooperation with the high school principals, and is based on outstanding ability and demonstrated qualities of leadership. Maryland delegates must be junior or senior elected student body office holders who reside in the State. The names of the selected students will be announced in early December of 1991.

The United States Senate Youth Program is funded in its entirety by the William Randolph Hearst Foundation, Randolph A. Hearst, Chairman.

AN OLDIES DANCE to celebrate the end of school was held out on the playground by students of Loch Lynn Elementary School. Dan Daniels, of WXIE Radio, donated his time and the use of his equipment to provide music from the 1950s, '60s, and early '70s. Students were encouraged to dress in the '50s and '60s style. Songs from this era were used throughout the year in the second grade classroom as an integral part of the language arts program. The students were surprised to see their principal, Herb Lambert, as a motorcycle gang leader, above center, as teachers Linda Sharpless, right, and Lynne Elmlinger lip-synced "Leader of the Pack." The motorcycle was on loan from Stan Steyer, father of second grade student Keith Steyer.

DNR Wildlife Program Earns Special Award

Wild Acres, a program of the Maryland Department of Natural Resources-Wildlife Division, has won a special merit award as part of Renew America's Searching for Success national awards program. Wild Acres was recognized with the honor last month at the second annual National Environment Achievement Awards Dinner on Capital Hill.

Urban Wildlife Biologist Edith Thompson coordinates the Wild Acres program through the Department of Natural Resources' Wildlife Division.

Renew America, the only national clearinghouse for environmental solutions, works in partnership with the National Environmental Awards Council, a coalition of 28 national environmental organizations.

Wild Acres, in its second year in Maryland, has signed up over 800 participants whose backyards, schoolyard and community open spaces encourage wildlife with food, shelter and water. Packets of information provided to participants give information on flowers, shrubs and trees that attract wildlife, give guidelines on planning a backyard sanctuary, instructions on construction of bird and other animal boxes, how to feed wild birds and more.

For more information on the Wild Acres program, call the Maryland Department of Natural Resources-Wildlife Division in Annapolis, 974-3195.

SCOUT PRESENTS GARDEN PROJECT -- J. Andrew Byrd, a descendant of a Garrett County resident and who has a summer home at Deep Creek Lake, recently had his Eagle Scout project dedicated. Andrew, age 15 and a member of Boy Scout Troop 90 of the Blessed Sacrament Parish, created an aviary garden which he gave to the residents of the Presbyterian Nursing Home in the District of Columbia. Along with the aid of Jim Sines, owner of Garden Gate Landscaping Inc. and who is also a descendant of a Garrett County resident and has a summer home as well on the lake, Andrew created an environmental and ecological garden. He, along with friends and family, plus members of Troop 90, worked over 250 hours to complete the project before Arbor Day, the 27th of April. The Aviary Garden has succeeded in prompting other people to plant trees as well. Andrew dedicated the garden as the Evelyn Doyle Bode Memorial. Mrs. Bode is Andrew's maternal grandmother who has Alzhiemers disease. Andrew will receive his Eagle Scout Award in early September.

A Heartfelt thank you to St. Jude for the granting of favors requested in the name of our Lord.

Command Performance!

Imagine being invited to attend a play with a friend. Your mind conjures up a delightful presentation, along the lines of "Sound of Music" or "The King & I." Your senses look forward to the color and enjoyable music. Instead, you arrive at the theatre and find that your friend's idea of an enjoyable evening is to experience the tragedy of "Macbeth." You realize too late that your expectations differ dramatically from those of your friend.

When buying or selling a home, you also have expectations. You hope to achieve certain objectives and will be disappointed if you do not. Enter the REALTOR®.

REALTORS® know that in order to provide the services you desire, it is first necessary to understand your expectations. They are trained to ask questions which help set the stage for a successful performance - the achievement of your home buying or selling objectives.

As a seller, you will be asked for detailed information on the home you have to sell. What are your reasons for selling, price expectations and desired moving date? What terms and financing will be offered to buyers? What personal property will be included in the sale?

As a buyer, the REALTOR® will ask you to describe the features desired in a home, to identify neighborhoods of interest, and to provide financial information related to financing. Each plays a part in the overall plan the REALTOR® will create to satisfy your home purchase desires.

Let a REALTOR® provide talented direction to your next buying or selling experience. The results can be a satisfying box office smash.

If you need information to help you solve a real estate puzzle, call us at 387-5303. We'll be happy to share our knowledge with you at no cost or obligation.

Garrett Humane Society Lists Adoptable Pets

The Garrett County Humane Society recently issued a list of dogs that are now available for adoption. The dogs have been taken in by the Humane Society, following tips from the public that the dogs were observed unsupervised somewhere in the county.

They are as follows: a spayed female German short hair and springer spaniel, about four years of age, with shots up to date; a white male terrier, neutered, with all shots, and believed to be around two years old; a three-month old male mixed lab and German shepherd, black and tan in color; a part German shepherd female, black and white in color; a black mixed lab, one year old, who is spayed and "loves children," according to a society spokesperson; an older farm dog who needs "room to roam," has been spayed and shots are all up to date; a small female, mutt-type dog who is housebroken, and a male tri-color part beagle, three months old; a female mixed yellow lab, approximately nine months old, two young black mixed male labs, and several puppies.

Persons interested in adopting any of these dogs are asked to call Carol at 334-8274, Bernadine at 746-5725 or Melissa at 334-8476. The Humane Society also needs volunteers for the organization and foster homes for the animals.

Charles Russell DeWitt, a former resident of Accident, was the guest speaker. Among those veterans honored were: Major Charee Reckner, USAF Reserve Nurse Corps, who served with Desert Storm at Ramstein AFB, Germany; SSG Jamie Sisler, 1st Special Forces Command (Army), who saw actual combat in Iraq; Lt. Melrose (Hanft) Short, personnel officer for 93rd Evacuation Hospital (Mo.), who was stationed at Rafha, Saudi Arabia; and SSG Karl Oester, US Army reserve, who served in Saudia Arabia and Iraq. Local Seniors Exchange Art With Japanese

The Maryland Office on Aging recently received exhibit of wood block prints made by senior citizens from the Kamkura City Senior Citizens' Welfare and Culture Center, Kamkura, Japan. Kamkura is a city in the Kanagawa Province which is a sister state to Maryland.

Arrangements were made to have the exhibit travel throughout the state. It is now "on the road" and will reach Garrett County in November, where it will be displayed at the Ruth Enlow Library in Oakland.

To respond to the generosity of the Kamkura Center, an exhibit of Maryland senior citizens' crafts was assemble and sent to Kamkura. Seniors from Garrett County who donated quilt squares to be included in the exhibit were: Melda Bittinger, Flowery Vale Senior Center; Verna Harvey, Oakland Senior Center; and Eleanor Richter, Jennings "Eating Together" Site. All items were first displayed at the State Office, Baltimore, and should now be in Kamkura.

The competition kicks off on July 15, and the deadline for entries is September, 16, 1991.

"We also hope they will take many terrific photographs of all the beautiful sites and attractions around the State, and enter them in this year's competition, which will be our best ever."

All winners will join the Governor for a ceremony and reception in Annapolis this fall.
